## IMPORTANT SAFETY INFORMATION

To ensure safe operation and prevent damage to the product or injury, please observe the following precautions:

- **Adult Supervision:** This product is recommended for users aged 14 years and older. Adult supervision is advised for

younger users.

- **Battery Safety:** Use only the specified 3800mAh NiMH rechargeable battery and charger. Do not overcharge or short-circuit batteries. Keep batteries away from heat and open flames.
- **Small Parts:** This product contains small parts that may pose a choking hazard. Keep out of reach of small children.
- **Operating Environment:** Operate the tank in open areas, away from people, pets, and obstacles. Avoid operating in wet conditions or on uneven terrain that could cause damage.
- **Projectile Warning:** The tank fires 6mm BB pellets. Never aim at people or animals. Always wear protective eyewear during operation.
- **Smoke Unit:** The smoke unit produces non-toxic vapor. Ensure adequate ventilation when using this feature indoors.

## MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your tank:

- **Cleaning:** After each use, gently wipe down the tank with a dry cloth to remove dust and debris. Avoid using water or harsh chemicals.
- **Battery Care:** Always fully charge the NiMH battery before storage. If storing for extended periods, charge the battery every 2-3 months to maintain its health. Remove batteries from the remote control when not in use.
- **Track Inspection:** Periodically inspect the metal tracks for any debris or damage. Ensure the metal sprocket wheel and idle wheel are free from obstructions.

- **Smoke Unit:** Clean the smoke unit nozzle if smoke production decreases. Use only the recommended smoke oil.

## TROUBLESHOOTING

If you encounter issues, refer to the table below for common problems and solutions:

Problem	Possible Cause	Solution
Tank does not respond to remote.	Low battery in tank or remote; not paired; interference.	Charge tank battery, replace remote batteries, re-pair remote, move to an open area.
Tank moves slowly or tracks are stuck.	Low tank battery; debris in tracks; damaged gearbox.	Charge tank battery, clear tracks of debris, inspect gearbox for damage.
Turret does not rotate or barrel does not move.	Obstruction; internal mechanism issue.	Check for obstructions, ensure tank is powered on and paired.
No smoke from smoke unit.	No smoke oil; clogged nozzle; unit not activated.	Add smoke oil, clean nozzle, ensure smoke function is activated on remote.
BB pellets do not fire.	No pellets loaded; firing mechanism jammed.	Load pellets, clear any jams, ensure safety button is off.
