KRUPS Nespresso XN2140 Capsule Container User Manual

Model: XN2140, 7426873706505

INTRODUCTION

This manual provides essential information for the proper use and maintenance of your KRUPS Nespresso XN2140 Capsule Container. This original capsule tray is designed to collect used Nespresso capsules from compatible KRUPS Nespresso coffee machines, ensuring clean and efficient operation.

PRODUCT OVERVIEW

Figure 1: The KRUPS Nespresso XN2140 Capsule Container. This image shows the black plastic container from an elevated angle, highlighting its grid-like bottom and the open side designed to receive used coffee capsules from the machine.

The capsule container is a crucial component for your Nespresso machine, providing a dedicated space for used capsules. Its design ensures easy removal and disposal of spent coffee pods, maintaining the cleanliness of your coffee preparation area.

SETUP

1. **Unboxing:** Carefully remove the capsule container from its packaging. Inspect for any damage during transit.
2. **Placement:** Locate the designated slot or compartment within your compatible KRUPS Nespresso coffee machine where the capsule container is inserted. Ensure it slides in smoothly and sits securely.
3. **Initial Cleaning:** Before first use, it is recommended to rinse the container with warm water and mild soap. Allow it to air dry completely.

This capsule container is an original KRUPS spare part, designed for a perfect fit with the specified Nespresso XN2140 model.

OPERATING

- The capsule container operates passively as part of your Nespresso machine's brewing cycle. After each coffee preparation, the used capsule is automatically ejected into this container.
- **Automatic Collection:** Once a coffee capsule has been brewed, the machine's internal mechanism will automatically drop the used capsule into the container.
 - **Capacity:** The container is designed to hold a specific number of used capsules before it needs to be emptied. Refer to your Nespresso machine's main manual for its specific capacity or observe when the container is full.
 - **Emptying:** When the container is full, carefully slide it out from the machine. Dispose of the used capsules responsibly.

MAINTENANCE

- Regular cleaning of the capsule container is essential to prevent mold growth and maintain hygiene.
- **Frequency:** Empty and clean the container regularly, ideally after every few uses or when it is full.
 - **Cleaning Procedure:**
 - a. Remove the container from the coffee machine.
 - b. Empty all used capsules.
 - c. Wash the container with warm water and a mild dish soap. Use a soft brush if necessary to clean any residue from the grid.
 - d. Rinse thoroughly under running water to remove all soap residue.
 - e. Allow the container to air dry completely before reinserting it into the machine.
 - **Dishwasher Safety:** Consult your Nespresso machine's main manual or the capsule container's original packaging for information on dishwasher compatibility. If not specified, hand washing is recommended.

TROUBLESHOOTING

- If you encounter issues with your capsule container, consider the following:
- **Container Does Not Fit:**

Ensure you have the correct model of capsule container for your Nespresso machine. This container is specifically designed for the KRUPS Nespresso XN2140. If you have doubts about compatibility, please contact the seller or manufacturer with your machine's model number.
 - **Capsules Not Ejecting Properly:**

Check if the container is inserted correctly and fully into its slot. Ensure there are no obstructions inside the container or the machine's ejection mechanism. If the issue persists, refer to your Nespresso machine's main user manual for troubleshooting capsule ejection problems.
 - **Unpleasant Odor/Residue:**

This indicates a need for more frequent or thorough cleaning. Follow the maintenance steps outlined above, ensuring the container is completely dry before reinsertion.

SPECIFICATIONS

| Attribute | Detail |
|-----------|--------|
| Brand | KRUPS |

| | |
|----------------------|----------------------|
| Model Number | 7426873706505 |
| Color | Original (Black) |
| Package Dimensions | 14.1 x 12.9 x 6.7 cm |
| Item Weight | 30 g |
| ASIN | B07BJ8F52M |
