Net appears unstable or leans.	Loose frame connections, inadequate ground staking, bent poles.	Ensure all frame poles are fully connected. For outdoor use, firmly insert all ground stakes. Inspect poles for damage and replace if necessary.
Net shows signs of wear or tearing.	Frequent use, exposure to elements, impact from golf balls.	Regularly inspect the net for wear. Consider using a target sheet to reduce direct impact on the main net. Replace the net if tears compromise safety or function.
