ASAKUKI 100-DF001

ASAKUKI 500ml Premium Essential Oil Diffuser User Manual

Model: 100-DF001 (ROCK)

INTRODUCTION

The ASAKUKI 500ml Premium Essential Oil Diffuser is a versatile 5-in-1 aromatherapy device designed to enhance your living space. It functions as an ultrasonic aromatherapy diffuser, fragrant oil humidifier, and vaporizer, featuring a large water tank, 7 LED light colors, multiple mist modes, and remote control operation. Its ultra-quiet design ensures a peaceful environment, and the BPA-free material makes it safe for families.

SAFETY INFORMATION

Please read and understand all safety instructions before operating the diffuser. Failure to do so may result in injury or damage to the product.

- **Use Only Plant Essential Oils:** Ensure that only pure, plant-derived essential oils are used with this diffuser. Other substances may damage the unit.
- **Do Not Operate Near Open Flames Or Water-Sensitive Electronics:** Keep the diffuser away from heat sources, open flames, and electronic devices that could be damaged by moisture.
- **Ensure the power socket and pins are completely dry before use:** Always check that the power adapter and its connection points are dry to prevent electrical hazards.
- **BPA Free Material:** The diffuser is constructed from BPA-free PP material, ensuring it is safe for use around babies and pets.
- **Auto Shut-off:** The diffuser features a safety auto-switch that prevents overheating if the water tank runs dry.

PACKAGE CONTENTS

Verify that all items are present in the package:

- 1 x ASAKUKI 500ml Essential Oil Diffuser
- 1 x Power Adapter
- 1 x Remote Control
- 1 x User Manual (this document)

SETUP

Follow these steps for initial setup:

1. **Place the diffuser on a flat surface:** Ensure the diffuser is on a stable, level surface to prevent spills.
2. **Fill the water tank with clean water and below the MAX line:** Carefully remove the top cover and fill the water reservoir. Do not exceed the maximum fill line to ensure proper operation and prevent overflow.
3. **Add a few drops of essential oils to the water tank:** For optimal fragrance, add 3-5 drops of your preferred essential oil directly into the water. Adjust the quantity based on desired intensity.
4. **Connect the power adapter and plug in the diffuser:** Insert the power adapter into the diffuser's power port and then plug it into a wall outlet.
5. **Replace the top cover:** Ensure the cover is securely placed back on the diffuser.

OPERATING INSTRUCTIONS

The diffuser can be operated using the buttons on the unit or the included remote control.

Mist Control

Press the **MIST** button on the diffuser or use the remote control to adjust mist settings:

- **ON/OFF:** Press the "ON/OFF" button on the remote to turn the diffuser on or off.
- **Timing:** Set the diffuser to operate for specific durations: 60 minutes, 120 minutes, or 180 minutes. The diffuser will automatically shut off after the selected time.
- **Continuous:** Select "Continuous" mode for uninterrupted misting until the water runs out.
- **Intermittent:** Choose "Intermittent" mist mode for a cycle of 10 seconds on and 10 seconds off.
- **Big/Small Mist:** Adjust the mist output intensity between high and low settings.

The image is a comparison graphic between an ASAKUKI diffuser and a generic 'Other' diffuser. In the center is a cutaway of the ASAKUKI diffuser, showing a 500ml water tank. To its left is a blue ASAKUKI box, and to its right is a grey 'Other' box. Two large curved arrows originate from the water level in the ASAKUKI tank: a blue arrow labeled 'Higher Spray' points upwards and to the left, and a grey arrow labeled 'Lower Spray' points upwards and to the right. Below the boxes, a timeline shows the ASAKUKI diffuser running for 18h (Low mist mode) and the 'Other' diffuser running for less than 12h (Low mist mode). At the bottom, text labels the ASAKUKI setup as 'Real 500ml Strong and fine mist' and the 'Other' setup as 'Fake 500ml Weak and thin mist'. The background shows a blurred living room with a plant and a desk.

The diffuser emitting mist, controlled by the remote. The remote allows for various mist and light settings.

Light Control

Press the **LIGHT** button on the diffuser or use the remote control to manage the LED lighting:

- **7 LED Light Colors:** The diffuser features 7 different LED light colors.

- **Fixed or Cycled:** You can choose to fix the light on a single color or allow it to cycle through all available colors.
- **Nightlight Function:** The light function works separately from the mist, allowing you to use the diffuser as a nightlight without misting.

Hassle Free Remote Control Diffuser

A family relaxing in their living room, demonstrating the ease of controlling the diffuser with the remote control.

MAINTENANCE

Regular cleaning ensures optimal performance and extends the lifespan of your diffuser.

1. **After use, please clean the inside and outside of the water tank and lid with warm vinegar water:** This helps to remove essential oil residue and mineral buildup.
2. **Use filtered or distilled water:** To prevent buildup and keep the machine running smoothly without corrosion, it is recommended to use filtered or distilled water.
3. **Do not immerse the base in water:** Only clean the water tank and lid. The electrical components in the base should not come into contact with water.

4. **Wipe dry:** After cleaning, ensure all parts are completely dry before reassembling and storing or using the diffuser again.

TROUBLESHOOTING

If you encounter issues with your diffuser, refer to the following common problems and solutions:

| Problem | Possible Cause | Solution |
|----------------------------|---|---|
| No mist or low mist output | Insufficient water; water level too high; mineral buildup; mist outlet blocked. | Add water to the correct level; ensure water is below MAX line; clean the unit thoroughly; check for obstructions in the mist outlet. |
| Diffuser not turning on | No power; power adapter not connected properly; unit overheated (auto-shutoff). | Check power outlet; ensure adapter is securely plugged in; allow unit to cool down if it auto-shut off due to low water. |
| Light not working | Light function turned off; electrical issue. | Press the LIGHT button on the unit or remote to cycle through light modes; ensure power connection is stable. |
| Unusual noise | Water level too low; unit not on a flat surface. | Add water; place the diffuser on a stable, flat surface. |

SPECIFICATIONS

Detailed technical specifications for the ASAKUKI 500ml Essential Oil Diffuser:

| Feature | Detail |
|------------------------------|-----------------------|
| Brand | ASAKUKI |
| Color | White |
