Sunbeach Spas Hot Tub Spa Under Cover Lift - Rock It Style Lifter Assist User Manual

Model: B07BN15FW8

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your Sunbeach Spas Hot Tub Spa Under Cover Lift. Designed for ease of use and durability, this "Rock It Style" lifter assist system helps you effortlessly remove and store your hot tub cover, extending its lifespan and enhancing your spa experience. Please read this manual thoroughly before installation and use to ensure safe and proper operation.

2. SAFETY INFORMATION

- Always ensure the hot tub cover is securely attached to the lift before attempting to open or close.
- Keep children and pets away from the hot tub area during cover operation.
- Do not attempt to operate the cover lift if any parts are damaged or missing.
- Ensure adequate clearance around the hot tub for the cover to be stored safely when open.
- Periodically inspect all fasteners and connections to ensure they remain tight and secure.
- This cover lift is designed for hot tub covers only. Do not use it for other purposes.

3. PACKAGE CONTENTS

Please verify that all components are present before beginning installation. If any parts are missing or damaged, contact Sunbeach Spas customer support.

- Main support arms (2)
- Mounting brackets and hardware
- Connecting bars/tubing
- Instruction manual (this document)

4. SETUP AND INSTALLATION

Installation typically requires two people. Ensure you have the necessary tools: a drill, measuring tape, pencil, and a screwdriver/wrench set.

1. **Positioning:** Determine the ideal placement for the cover lift on the side of your hot tub where you intend to store the cover. Ensure there is sufficient clearance behind the hot tub for the cover to rest when open.
2. **Attach Mounting Brackets:** Secure the mounting brackets to the hot tub cabinet using the provided hardware. Follow the specific instructions in the included hardware kit for precise measurements and drilling. Ensure brackets are level and securely fastened.
3. **Assemble Support Arms:** Connect the main support arms to the mounting brackets. These arms will extend upwards and over the hot tub cover.
4. **Connect Crossbars:** Attach any connecting bars or tubing between the main support arms to create a stable frame.
5. **Secure Cover:** Once the frame is assembled, attach your hot tub cover to the lift mechanism. The "Rock It Style" design typically involves arms that slide under the cover, allowing it to pivot and store vertically or near-vertically behind the spa. Ensure the cover is balanced and securely held by the lift.
6. **Test Operation:** Carefully test the lift mechanism by opening and closing the cover several times. Check for smooth operation and ensure all connections remain secure.

5. OPERATING INSTRUCTIONS

Using your Sunbeach Spas Hot Tub Spa Under Cover Lift is straightforward:

1. To Open the Cover:

- Release any cover locks or straps securing the hot tub cover.
- Grasp the edge of the hot tub cover closest to the lift mechanism.
- Gently push the cover upwards and backwards. The "Rock It Style" lift will assist in pivoting the cover off the spa and storing it in an upright position behind the hot tub.

2. To Close the Cover:

- Grasp the top edge of the stored cover.
- Gently pull the cover forward and downwards over the hot tub. The lift mechanism will guide it back into place.
- Ensure the cover is fully seated and secure it with any locks or straps.

6. MAINTENANCE

Regular maintenance will ensure the longevity and smooth operation of your cover lift.

- **Cleaning:** Clean the cover lift periodically with mild soap and water. Rinse thoroughly and dry. Avoid abrasive cleaners or solvents.
- **Lubrication:** If the pivot points or moving parts feel stiff, apply a silicone-based lubricant to ensure smooth operation. Do not use petroleum-based lubricants.
- **Hardware Check:** Annually, or more frequently if used often, check all bolts, screws, and fasteners to ensure they are tight. Re-tighten as necessary.
- **Inspect for Damage:** Regularly inspect the arms, brackets, and connecting bars for any signs of bending, cracking, or corrosion. Address any issues promptly to prevent further damage or failure.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Cover lift is stiff or difficult to operate.	Lack of lubrication; debris in pivot points; loose or overtightened fasteners.	Clean and lubricate pivot points. Check and adjust fastener tightness.

Problem	Possible Cause	Solution
Cover does not sit evenly when closed.	Improper installation; cover not properly aligned on lift.	Review installation steps, ensuring brackets are level. Realign cover on lift arms.
Squeaking or grinding noises during operation.	Lack of lubrication; metal-on-metal friction.	Apply silicone lubricant to all moving parts and contact points.

8. SPECIFICATIONS

- **Model:** B07BN15FW8
- **Brand:** Sunbeach Spas
- **Material:** Aluminum
- **Color:** White (as per product listing, though product images show black)
- **Type:** Under Cover Lift / Rock It Style Lifter Assist
- **Compatibility:** Designed for most standard hot tub covers. Ensure adequate clearance behind the spa.

9. WARRANTY AND SUPPORT

For warranty information or technical support regarding your Sunbeach Spas Hot Tub Spa Under Cover Lift, please contact the seller or Sunbeach Spas directly. Keep your purchase receipt as proof of purchase.
