WINOMO B07BN9MLHM

WINOMO Magnifying Wall Mount Makeup Mirror

Model: B07BN9MLHM

Introduction Safety Information Product Overview Setup Operation Maintenance Troubleshooting Specifications Support

1. Introduction

This instruction manual provides essential information for the safe and effective installation, operation, and maintenance of your WINOMO Magnifying Wall Mount Makeup Mirror. Please read this manual thoroughly before using the product and retain it for future reference.

2. Safety Information

Warning: Handle with care to avoid breakage. Keep out of reach of children to prevent injury from sharp edges. Always follow the provided instructions for mounting and use.

- Ensure the mounting surface is structurally sound and can support the weight of the mirror.
- Do not apply excessive force when adjusting the mirror arm to prevent damage.
- Clean the mirror and frame with appropriate, non-abrasive materials to avoid scratches or damage to the finish.
- If any part of the mirror is damaged, discontinue use and contact customer support.

3. Product Overview

The WINOMO Magnifying Wall Mount Makeup Mirror is designed for convenience and precision in personal grooming. It features a two-sided mirror with standard and 3X magnification, a retractable arm for adjustable positioning, and a 360-degree swivel function.

Image: The WINOMO wall-mounted mirror fully extended in a bathroom setting, showcasing its retractable arm and dual-sided mirror.

Key Features:

- **Two-Sided Mirror:** One side offers a standard reflection, the other provides 3X magnification for detailed tasks.
- **Retractable Arm:** Extends and retracts to provide optimal viewing angles and save space when not in use.
- **360-Degree Swivel:** Allows for easy rotation of the mirror face to switch between magnification levels or adjust the viewing angle.
- **Durable Construction:** Made from metal with a chrome finish for longevity and a modern aesthetic.

4. Setup and Installation

The mirror is designed for wall mounting. Ensure you have the necessary tools and a suitable mounting location before beginning installation.

Tools Required (Not Included):

- Drill
- Drill bits appropriate for your wall type (e.g., masonry, wood, drywall)
- Screwdriver
- Measuring tape
- Pencil
- Level

Installation Steps:

1. **Choose Location:** Select a wall location that is structurally sound and provides adequate space for the mirror to extend and retract without obstruction. Consider the desired height for comfortable use.

2. **Mark Drilling Points:** Hold the mirror's wall bracket against the chosen location. Use a pencil to mark the positions for the mounting screws. Ensure the bracket is level before marking.
3. **Drill Pilot Holes:** Using an appropriate drill bit, drill pilot holes at the marked points. If mounting into drywall without a stud, use wall anchors (not included) suitable for the mirror's weight.
4. **Mount the Bracket:** Align the wall bracket with the pilot holes. Insert screws through the bracket and tighten them securely into the wall or anchors. Do not overtighten.
5. **Attach Mirror Assembly:** Connect the retractable arm assembly to the mounted wall bracket. Ensure all connections are firm.
6. **Test Stability:** Gently extend and retract the mirror arm to ensure it is securely mounted and operates smoothly.

5. Operating Instructions

Extending and Retracting the Arm:

- To extend the mirror, gently pull the mirror head away from the wall. The accordion-style arm will expand.
- To retract the mirror, gently push the mirror head back towards the wall until the arm folds compactly.
- Avoid sudden or forceful movements to prevent damage to the arm mechanism.

Image: The mirror fully extended, demonstrating its reach and flexibility for user convenience.

Using the Two-Sided Mirror:

- The mirror head can swivel 360 degrees. Gently rotate the mirror face to switch between the standard reflection side and the 3X magnification side.
- Use the standard side for general viewing and the 3X magnification side for detailed tasks such as makeup application, shaving, or contact lens insertion.

Image: The mirror positioned at an angle, illustrating its 360-degree swivel and adjustable arm for versatile use.

6. Maintenance and Care

Cleaning the Mirror:

- Use a soft, lint-free cloth and a non-abrasive glass cleaner to clean the mirror surfaces.
- Spray cleaner onto the cloth, not directly onto the mirror, to prevent liquid from seeping into the edges.
- Wipe gently to remove smudges and dust.

Cleaning the Frame and Arm:

- Wipe the chrome-finished frame and arm with a soft, damp cloth.
- For stubborn marks, a mild soap solution can be used, followed by wiping with a clean, dry cloth.
- Avoid using abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.

General Care:

- Regularly check the mounting screws for tightness. Tighten if necessary to ensure stability.
- Avoid hanging heavy objects on the mirror arm.
- Store the mirror in its retracted position when not in use to protect it and save space.

7. Troubleshooting

Problem	Possible Cause	Solution
Mirror feels loose or wobbly after installation.	Mounting screws are not tight enough, or wall anchors are insufficient.	Ensure mounting screws are securely tightened. If using wall anchors, verify they are appropriate for the wall type and weight. Consider using stronger anchors or mounting into a wall stud.
Arm does not extend or retract smoothly.	Dust or debris in the arm mechanism, or minor misalignment.	Clean the arm joints with a soft, dry cloth. Avoid applying lubricants unless specifically recommended by the manufacturer, as this can attract more dust.
Mirror surface is blurry or distorted.	Dirty mirror surface, or condensation.	Clean the mirror surface as described in the Maintenance section. Allow time for condensation to dissipate in humid environments.

8. Specifications

Brand	WINOMO
Model	B07BN9MLHM
Material	Metal
Finish Type	Chrome
Color	Silver
Mirror Diameter	6 inches
Magnification	3X (one side)
Mounting Type	Wall Mount
Product Dimensions (Extended)	47.2L x 11.4W centimetres
Product Dimensions (Folded)	Approx. 30H x 16W centimetres (11.79H x 6.29W inches)
Item Weight	499 g
Special Features	2-Sided, Magnifying, Retractable Arm, 360 Degree Swivel
