Bright Eyes Blaze 1200 Lumen Headlight (AQPP-black)

Bright Eyes Blaze 1200 Lumen Bike Headlight User Manual

Introduction

The Bright Eyes Blaze 1200 Lumen Bike Headlight is a high-performance lighting solution designed for mountain biking, road cycling, and other outdoor activities. Featuring 1200 Lumen CREE T6 LED technology and a 6400mAh external rechargeable battery, this headlight provides powerful illumination for enhanced visibility and safety. Its waterproof and shock-resistant construction ensures reliable operation in various conditions.

What's in the Box

Your Bright Eyes Blaze 1200 Lumen Bike Headlight package includes the following items:

- 1200 Lumen Headlight Unit
- 6400mAh Waterproof Battery Pack
- Silicone Tail Light
- Headlamp Harness
- Charger
- Extension Cord
- Mounting Bands (for handlebar)
- Velcro Straps (for battery pack)
- Diffuser Lens
- Allen Key
- Instruction Manual

Setup

Handlebar Mounting

1. Attach the handlebar mount to your bicycle's handlebar using the provided mounting bands. Ensure it is securely fastened.
2. Slide the headlight unit onto the handlebar mount until it clicks into place.
3. Secure the 6400mAh battery pack to your bike frame using the Velcro straps.
4. Connect the headlight cable to the battery pack.

Helmet Mounting

1. Thread the headlamp harness through the vents of your helmet and secure it.
2. Attach the helmet mount adapter to the headlamp harness.
3. Slide the headlight unit onto the helmet mount adapter until it clicks into place.
4. Secure the 6400mAh battery pack to your helmet or backpack using the Velcro straps.
5. Connect the headlight cable to the battery pack.

Operating Instructions

Power On/Off and Mode Selection

The Bright Eyes Blaze headlight features multiple lighting modes for various conditions:

- **High Beam:** Provides maximum illumination (1200 Lumens) for approximately 5+ hours.
- **Medium Beam:** Offers balanced brightness for approximately 10+ hours.
- **Low Beam:** Extended battery life for approximately 26+ hours.
- **Slow Strobe:** For increased visibility during daytime or low-light conditions.
- **Fast Strobe:** An additional flashing mode for enhanced safety.

To cycle through modes, press the power button on the headlight unit. To turn off the light, press and hold the power button for a few seconds.

Image: A visual representation of the five distinct light modes available on the Bright Eyes headlight, including High, Medium, Low, Slow Strobe, and Fast Strobe, with an indication of their respective brightness levels.

Charging

The external 6400mAh battery pack is rechargeable. Connect the provided charger to the battery pack and a power outlet. The charging indicator will show the charging status. A full charge typically takes a few hours. When the battery is low, the power button on the light will illuminate red to remind you to charge.

Maintenance

- **Cleaning:** Wipe the headlight and battery pack with a soft, damp cloth. Avoid using harsh chemicals.
- **Battery Care:** For optimal battery life, charge the battery regularly, even if not fully depleted. Avoid completely draining the battery frequently. Store the battery in a cool, dry place when not in use.
- **Water Resistance:** The unit is waterproof (IPX6 rated), but avoid prolonged submersion. Ensure all ports are securely closed before exposure to water.

Troubleshooting

- **Light Not Turning On:** Ensure the battery pack is fully charged and securely connected to the headlight unit. Check for any visible damage to the cables or connectors.
- **Short Battery Life:** Verify the light mode being used; higher brightness modes consume more power. Ensure the battery is fully charged before use. Battery performance can degrade over time with extensive use.
- **Light Slipping on Handlebar/Helmet:** Ensure mounting bands/straps are tightened sufficiently. For handlebar mounts, wrapping electrical tape around the handlebar before mounting can provide extra grip.

Specifications

Feature	Detail
Brightness	1200 Lumens (CREE T6 LED)
Battery Capacity	6400mAh
Run Time (High Beam)	Approximately 5+ Hours
Run Time (Medium Beam)	Approximately 10+ Hours
Run Time (Low Beam)	Approximately 26+ Hours
Material	Rubber
Water Resistance Level	Waterproof (IPX6)
Mounting Type	Handlebar Mount, Helmet Mount
Number of Settings	4 (High, Medium, Low, Strobe)
Color	Black
Model Number	AQPP-black
UPC	688907943622
