SUSTEAS GP-DSJ-YY 1.5 Liter (51oz) Glass Pitcher User Manual

Model: GP-DSJ-YY | Brand: SUSTEAS

INTRODUCTION

Thank you for choosing the SUSTEAS 1.5 Liter (51oz) Glass Pitcher. This manual provides essential information for the safe and effective use, maintenance, and care of your new glass pitcher. Please read these instructions thoroughly before first use and retain them for future reference.

PRODUCT FEATURES

The SUSTEAS Glass Pitcher is designed for versatility and durability, suitable for a wide range of hot and cold beverages.

- **Heat-Resistant Borosilicate Glass:** Constructed from high-quality borosilicate glass, capable of withstanding temperatures from -20°C to 150°C (-4°F to 302°F). This material is lead-free and BPA-free, ensuring a healthy and safe option for daily use.
- **Dual-Opening 18/8 Stainless Steel Lid:** Features a versatile lid with two opening options. One opening allows for quick pouring, while the other incorporates a strainer to retain pulp, ice cubes, or tea leaves. The food-grade silicone seal ensures a snug fit, preventing drips and leaks.
- **Ergonomic Handle & Drip-Proof Spout:** Designed with a comfortable, ergonomic handle for easy grip and a precisely shaped spout to ensure smooth, drip-free pouring.
- **Easy to Clean:** The wide diameter and simple structure facilitate easy cleaning. A long-handled cleaning brush is included to assist with thorough interior cleaning.

HIGH-BORATE BOROSILICATE GLASS

Image: The pitcher's borosilicate glass construction allows it to safely handle both hot and cold liquids, from 302°F to -4°F.

INNOVATIVE APPROACH

Image: An exploded view of the pitcher, detailing its V-design non-drip spout, non-slip silicone ring, superior quality borosilicate glass, temperature resistance, and ergonomic handle.

MULTIFUNCTIONAL STAINLESS STEEL LID

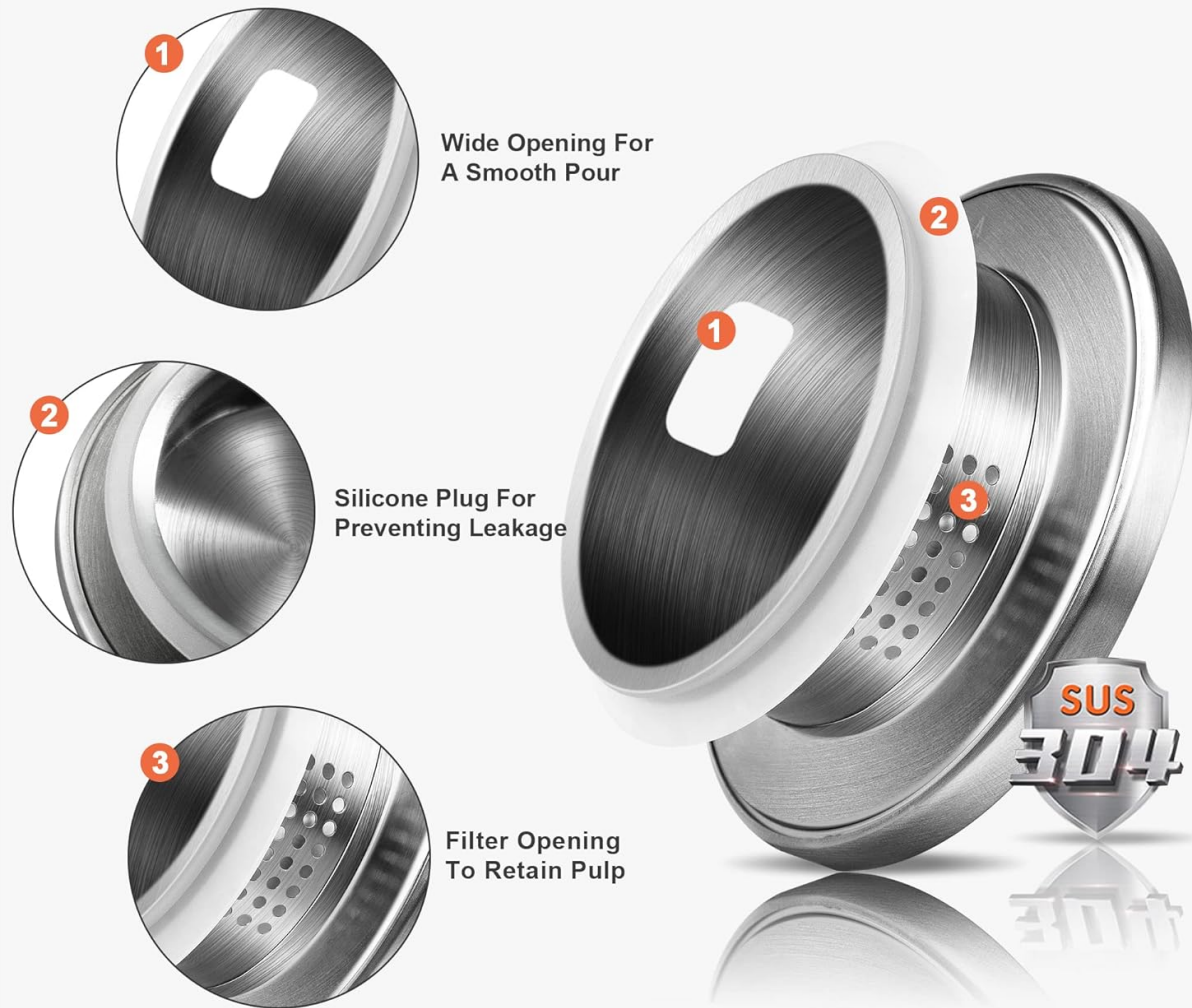

Image: The lid features a wide opening for smooth pouring, a silicone plug for preventing leakage, and a filter opening to retain pulp or ice.

SETUP

1. **Unpacking:** Carefully remove all components from the packaging. Inspect the pitcher and lid for any signs of damage.
2. **Initial Cleaning:** Before first use, wash the glass pitcher and its stainless steel lid thoroughly with warm soapy water. Rinse completely and dry.

OPERATING INSTRUCTIONS

Using for Hot Beverages:

- The borosilicate glass is designed to handle hot liquids. You can pour boiling water directly into the pitcher for brewing tea or coffee.
- Place tea bags or loose-leaf tea (using a separate infuser if desired) into the pitcher.
- Pour hot water over the tea. Allow it to steep for the recommended time.
- Secure the lid. Use the strainer opening to pour, ensuring tea leaves or other solids are retained.

Using for Cold Beverages:

- Fill the pitcher with your desired cold beverage, such as water, juice, iced tea, or cold brew coffee.
- Add ice, fruit slices, or herbs for infusion.
- Place the lid securely on the pitcher. The strainer opening can be used to prevent fruit or ice from falling into your glass.
- The pitcher is refrigerator safe.

MAINTENANCE AND CLEANING

Proper care will ensure the longevity and pristine condition of your SUSTEAS Glass Pitcher.

- **Dishwasher Safe:** The pitcher is dishwasher safe. However, hand washing is recommended to preserve the glass's clarity and the lid's finish over time.
- **Hand Washing:** For hand washing, use warm water and a mild dish soap. The wide mouth allows for easy access.
- **Using the Cleaning Brush:** The included long-handled cleaning brush is ideal for reaching the bottom and sides of the pitcher, ensuring thorough cleaning.
- **Lid Care:** The stainless steel lid can be disassembled for cleaning. Ensure the silicone seal is properly re-seated after cleaning to maintain its leak-proof function.
- **Drying:** Allow all parts to air dry completely or dry with a soft cloth to prevent water spots.

Image: A hand using the provided long-handled brush to clean the interior of the glass pitcher, demonstrating ease of access.

TROUBLESHOOTING

- **Preventing Thermal Shock:** While the borosilicate glass is heat-resistant, avoid extreme and sudden

temperature changes (e.g., pouring ice-cold liquid into a very hot pitcher, or vice-versa) to prevent potential cracking. Allow the pitcher to adjust to temperature gradually.

- **Lid Leaks:** Ensure the silicone seal on the lid is correctly positioned and free from debris. Press the lid firmly onto the pitcher to create a tight seal.
- **Stains:** For stubborn stains, a mixture of vinegar and baking soda can be used. Let it sit for a while before scrubbing gently with the cleaning brush.

SPECIFICATIONS

Feature	Detail
Brand	SUSTEAS
Model Name	GP-DSJ-YY
Capacity	1.5 Liters (51 Fluid Ounces / 1300ml actual load capacity)
Material	Borosilicate Glass, 18/8 Stainless Steel (Lid)
Color	Clear
Temperature Resistance	-20°C to 150°C (-4°F to 302°F)
Product Dimensions	6.02"W x 10.08"H
Item Weight	1.15 pounds
Dishwasher Safe	Yes (Hand washing recommended)
Included Components	1 Glass Pitcher, 1 Stainless Steel Lid, 1 Long-Handled Cleaning Brush
UPC	680465309377
