# Veho TA-6 Desktop 6 Port USB Charging Hub Instruction Manual

Model: TA-6 (VAA-016-USB)

## 1. INTRODUCTION

The Veho TA-6 Desktop 6 Port USB Charging Hub is designed to provide a convenient and efficient solution for charging multiple USB-powered devices simultaneously. Its compact design and multi-region power adapter make it suitable for both desktop use and travel.

## 2. PRODUCT FEATURES

- Six 2.4A USB ports for simultaneous charging of multiple devices.
- Total power output of 35W/7A.
- Compact and lightweight design for portability.
- Includes a detachable multi-region mains adapter (UK, EU, US) for international compatibility.
- Compatible with a wide range of USB-powered devices including smartphones, tablets, GPS devices, power banks, and fitness trackers.
- Built-in over-voltage and over-current protection.
- Conforms to safety standards including CE, RoHS, and EMC.

## 3. PACKAGE CONTENTS

Please ensure all items are present upon unpacking:

- Veho TA-6 Desktop 6 Port USB Charging Hub
- Multi-region mains power adapter (with UK, EU, US plug attachments)
- Instruction Manual

#### 4. SETUP INSTRUCTIONS

---

1. **Connect the Power Adapter:** Select the appropriate regional plug attachment (UK, EU, or US) for your location and attach it to the multi-region mains power adapter.
2. **Plug into Power:** Connect the mains power adapter cable to the power input port on the rear of the Veho TA-6 charging hub. Then, plug the mains power adapter into a wall socket.
3. **Position the Hub:** Place the charging hub on a stable, flat surface. The non-slip feet on the base help secure its position.

Image: The underside of the Veho TA-6 hub, highlighting the non-slip feet for stable placement.

## 5. OPERATING INSTRUCTIONS

---

1. **Connect Devices:** Use your device's USB charging cable to connect it to any of the six available USB ports on the Veho TA-6 hub.
2. **Begin Charging:** Once connected, your device should automatically begin charging. The hub provides up to 2.4A per port, allowing for efficient charging of smartphones, tablets, and other compatible devices.
3. **Simultaneous Charging:** The hub is designed to charge up to six devices concurrently, distributing a total of 35W/7A across all active ports.
4. **Disconnecting Devices:** Once your device is fully charged, safely disconnect it by unplugging the USB cable from the hub.

Image: The Veho TA-6 hub actively charging multiple devices, including a smartphone and a tablet.

Image: A close-up view of USB cables plugged into the ports of the Veho TA-6 charging hub.

## 6. MAINTENANCE

- **Cleaning:** Disconnect the hub from the power source before cleaning. Use a soft, dry cloth to wipe the surface of the device. Do not use liquid cleaners or abrasive materials.
- **Storage:** When not in use, store the hub in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts, as this may damage internal components.

## 7. TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device not charging.	Hub not powered. Faulty USB cable. Device incompatibility. Faulty USB port on the hub.	Ensure the power adapter is securely connected to both the hub and a live wall socket. Try a different USB cable. Verify your device is USB-powered and compatible. Try connecting the device to a different USB port on the hub.
Slow charging.	High power demand from multiple devices. Device requires higher current than supplied.	The hub distributes 35W/7A across all ports. Charging many devices simultaneously may reduce individual port output. Ensure your device's charging requirements are within the hub's 2.4A per port limit.
Hub feels warm during operation.	Normal operation.	It is normal for the hub to generate some heat during charging, especially when multiple devices are connected. Ensure adequate ventilation around the device. If it becomes excessively hot, disconnect it immediately and contact support.

## 8. SPECIFICATIONS

Model Number	VAA-016-USB
Brand	Veho
Number of USB Ports	6
Output per Port	Up to 2.4A
Total Output	35W / 7A
Hardware Interface	USB
Product Dimensions	7.06 x 5.08 x 21.01 cm
Item Weight	367.41 g (0.81 Pounds)
Color	Black
Compatibility	Smartphones, Tablets, Sat Navs, GPS, Power Banks, E-Cigs, Fitness Trackers, Other USB Powered Devices

## 9. SAFETY INFORMATION

- Do not expose the device to water, moisture, or extreme temperatures.
- Do not attempt to disassemble or modify the device. This will void the warranty and may cause damage or injury.
- Keep out of reach of children.
- Use only the provided power adapter. Using unauthorized adapters may damage the device and pose safety risks.
- If the device is damaged or malfunctions, discontinue use immediately and contact customer support.

## 10. WARRANTY AND SUPPORT

Veho products are designed to meet high quality standards. For information regarding warranty coverage, technical support, or service inquiries, please refer to the official Veho website or contact their customer service department directly. Please retain your proof of purchase for warranty claims.
