## SAFETY INFORMATION

---

Always follow basic safety precautions when using electrical products to reduce the risk of fire, electric shock, and personal injury.

- Ensure the fountain is placed on a level, stable surface to prevent tipping.
- Connect the fountain to a properly grounded outdoor electrical outlet.
- Do not operate the fountain if the power cord or pump is damaged.
- Keep children and pets away from the fountain during operation.
- Disconnect the power supply before performing any maintenance or cleaning.
- Do not allow the pump to run dry; always ensure sufficient water level.
- Protect the fountain from freezing temperatures by draining and storing indoors during winter.

## PACKAGE CONTENTS

---

Verify that all components are present and undamaged before assembly.

- Fountain body (pedestal and tiered basins)
- Water pump with power cord
- Assembly instructions

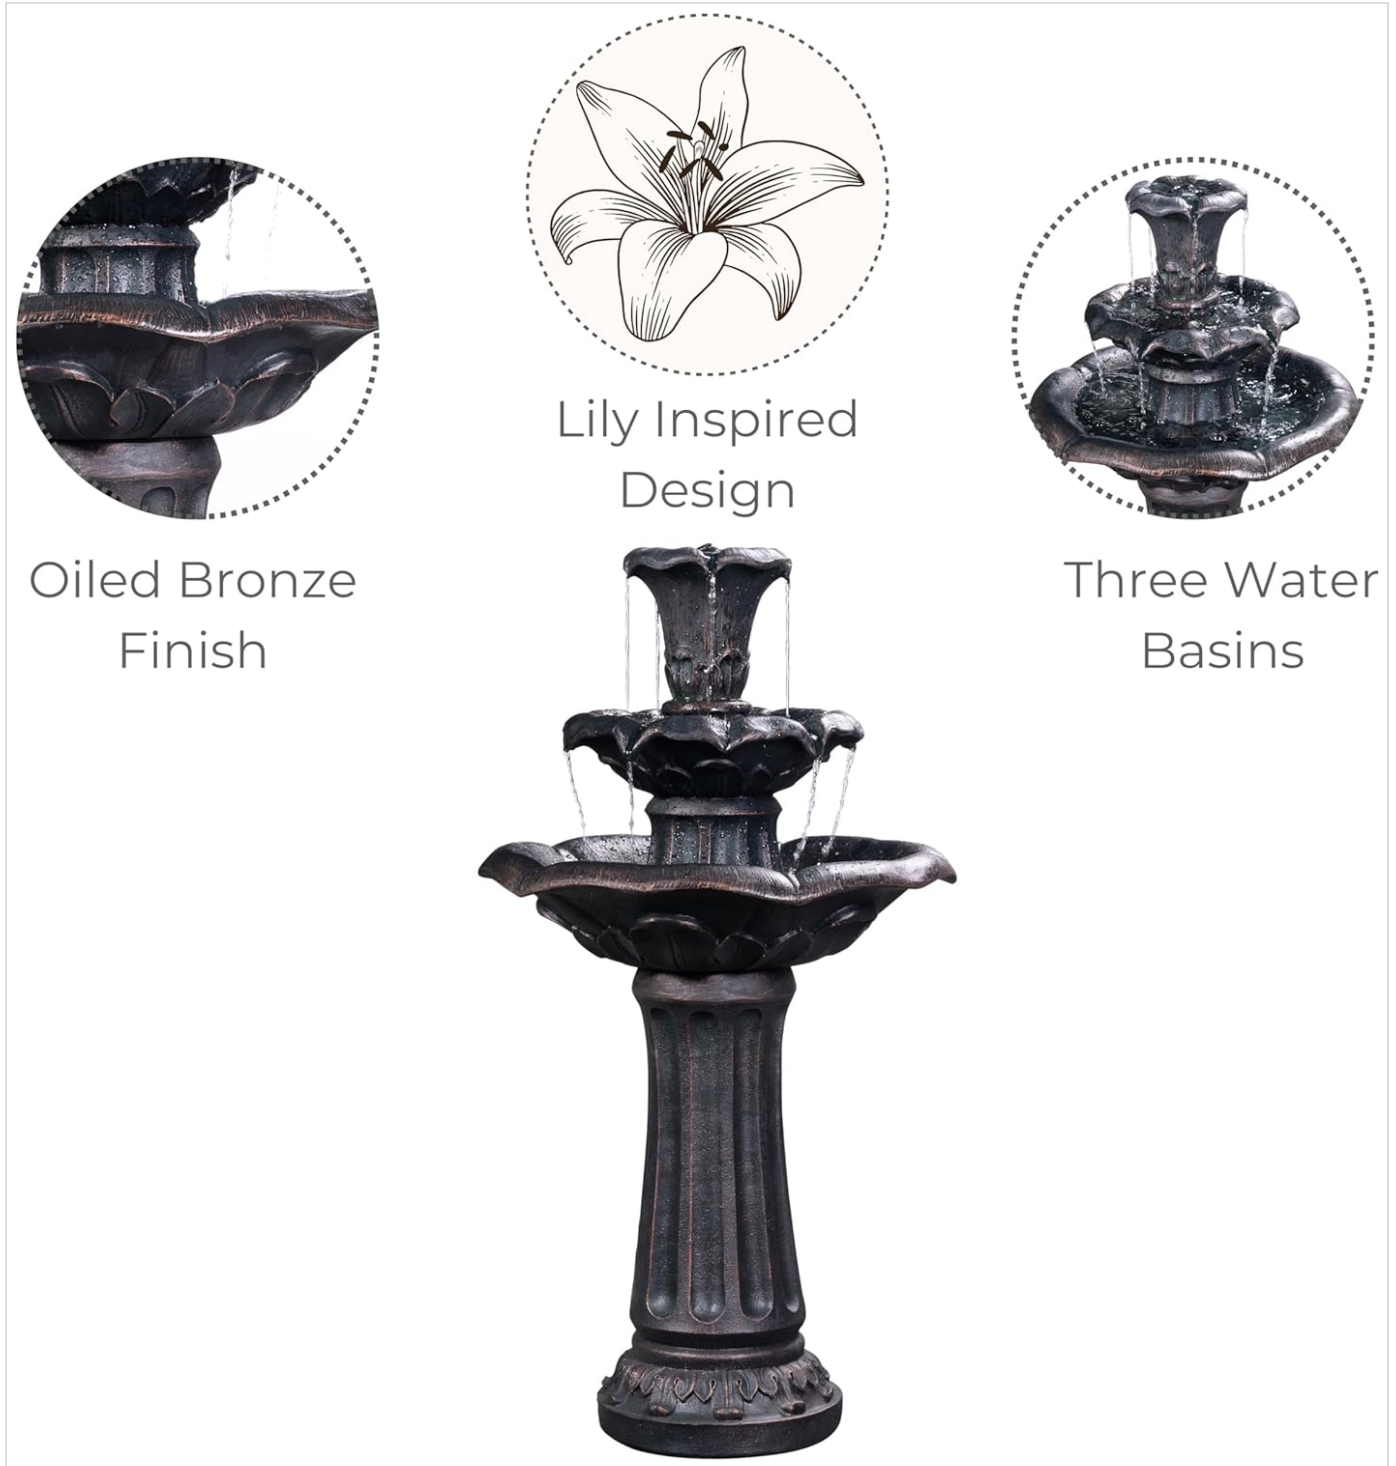

Image: Key design features including the lily-inspired tiers, oiled bronze finish, and three water basins.

## SETUP

Follow these steps for quick and easy assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent scratches.
2. **Connect Pump:** Locate the water pump and the tubing inside the fountain. Connect the pump to the end of the tubing.
3. **Position Fountain:** Place the fountain on a firm, level surface in your desired outdoor location. Ensure the power cord can reach a grounded outlet without tension.

4. **Fill with Water:** Fill the lowest basin of the fountain with distilled water until the pump is fully submerged. Do not overfill.
5. **Plug In:** Plug the power cord into a grounded outdoor electrical outlet. The pump will begin circulating water, creating the waterfall effect.

Video: A demonstration of the fountain's simple setup process, highlighting how to connect the pump and fill the basin for immediate operation.

## OPERATING

---

The fountain is designed for continuous operation. Once set up and plugged in, the pump will circulate water through the tiers, creating a soothing sound and visual display.

- **Water Flow Adjustment:** Some pumps may have an adjustable flow rate. Refer to the pump's specific instructions if you wish to modify the water flow intensity.
- **Continuous Operation:** For optimal performance and to prevent pump damage, it is recommended to keep the fountain running continuously during periods of use.

Video: A demonstration showcasing the fountain's appearance and water flow during both day and night, highlighting its aesthetic appeal and calming sounds.

## MAINTENANCE

---

Regular maintenance ensures the longevity and optimal performance of your fountain.

- **Water Level:** Check the water level daily, especially during warm weather, as water evaporates. Refill as needed to keep the pump fully submerged.
- **Cleaning:** Periodically clean the fountain and pump to prevent mineral buildup and algae growth. Disconnect power, drain water, and use a soft brush with mild soap and water. Rinse thoroughly.
- **Pump Cleaning:** Clean the pump filter regularly to ensure proper water flow. Refer to the pump's instructions for specific cleaning procedures.
- **Winterization:** Before the first frost, disconnect the fountain, drain all water, clean thoroughly, and allow it to dry completely. Store the fountain and pump indoors in a dry, frost-free location to prevent damage.

## TROUBLESHOOTING

If you encounter issues with your fountain, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Water not flowing	Low water level, clogged pump, kinked tubing, power issue	Add water, clean pump/filter, straighten tubing, check power connection/outlet
Excessive splashing	Water flow too high, uneven surface	Adjust pump flow, ensure fountain is level
Pump making noise	Low water level, debris in pump	Add water, clean pump/filter

Problem	Possible Cause	Solution
Algae growth	Sunlight exposure, stagnant water	Clean regularly, use algaecide (safe for fountains), change water frequently

## SPECIFICATIONS

Detailed technical specifications for your fountain.

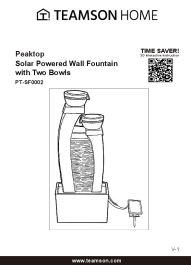

- **Model Number:** VFD8207
- **Dimensions:** 20.47" L x 20.47" W x 37.8" H
- **Weight:** 22 Pounds
- **Material:** Polyresin (90%), Fiberglass (5%), Plastic (4%), Metal (1%)
- **Color:** Dark Gray
- **Form Factor:** Waterfall, Tiered
- **Assembly Required:** Yes
- **Power Source:** Corded Electric (Pump included)
- **Country of Origin:** China

## WARRANTY & SUPPORT
