*Note:* Avoid excessive force when interacting with movable parts to prevent breakage. This model is intended for ages 3 and up.

## Maintenance and Care

Proper care will help preserve the appearance and condition of your die-cast model.

### Cleaning

- Use a soft, dry cloth to gently wipe away dust.
- For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive cleaners, as these can damage the paint finish.
- Do not submerge the model in water.

### Storage

- Store the model in a cool, dry place away from direct sunlight to prevent fading of paint and decals.
- Keep the model away from extreme temperatures and humidity.

## Troubleshooting

Most issues with die-cast models are related to handling. Here are some common points:

- **Stiff Moving Parts:** If doors or other movable parts feel stiff, apply very gentle pressure. Do not force them, as this may cause breakage.
- **Minor Scratches/Paint Chips:** Die-cast models are delicate. Minor imperfections can occur with handling. These are generally not repairable without specialized tools and paint.
- **Loose Wheels:** Ensure wheels are properly seated on their axles. If a wheel becomes detached, it may be possible to reattach it with gentle pressure, depending on the design.
