3. ASSEMBLY INSTRUCTIONS

Follow the included step-by-step instruction manual carefully. Due to the small size of the nanoblocks, it is recommended to work on a clean, well-lit surface to prevent loss of pieces. Sorting pieces by color and type before starting can aid in the assembly process.

Tips for Assembly:

- **Sorting:** Separate blocks by color and shape to easily locate them during construction.
- **Precision:** Use tweezers for placing smaller blocks if needed, as this can improve accuracy and reduce hand fatigue.
- **Layer by Layer:** Nanoblock instructions typically guide assembly layer by layer. Ensure each layer is firmly pressed together before proceeding.
- **Review:** Periodically review the instructions and your progress to ensure correct placement and prevent errors that may require disassembly.
