LeuchtenDirekt B07BZDF1JB

LeuchtenDirekt LED Ceiling Light with Rotatable Arm - Instruction Manual

Model: B07BZDF1JB

1. PRODUCT OVERVIEW

Thank you for choosing the LeuchtenDirekt LED Ceiling Light. This modern and functional lighting fixture is designed to enhance your living space with its warm white illumination and adjustable arms. Its robust steel construction ensures durability and a contemporary aesthetic.

Image: The LeuchtenDirekt LED Ceiling Light, showcasing its two adjustable light arms positioned in a V-shape, highlighting its modern design.

Key Features:

- **Modern Design:** Combines contemporary aesthetics with a sleek finish.
- **Adjustable Arms:** Features one unmovable and one rotatable arm for customized light direction.
- **Warm White Light:** Emits 3000 Kelvin warm white light for a comfortable and relaxing atmosphere.
- **Long Lifespan:** Offers an operating duration of up to 20,000 hours.
- **Versatile Application:** Ideal for living rooms, dining rooms, bedrooms, children's rooms, youth rooms, and hallways.

2. SETUP AND INSTALLATION

Important Safety Information: Installation should only be performed by a qualified electrician to ensure safety and compliance with local electrical codes. Always switch off the main power supply before beginning any installation work.

Installation Steps:

1. **Prepare the Installation Area:** Ensure the power supply to the installation area is completely disconnected at the circuit breaker.
2. **Mark Drilling Points:** Hold the light fixture against the ceiling at the desired position and mark the drilling points for mounting.
3. **Drill Holes:** Drill holes at the marked points using an appropriate drill bit for your ceiling material. Insert wall plugs if necessary.
4. **Connect Wiring:** Carefully connect the electrical wires from the ceiling to the light fixture's terminals. Ensure correct polarity (Live, Neutral, Earth). Refer to the wiring diagram provided with the product packaging.
5. **Mount the Fixture:** Secure the light fixture to the ceiling using the provided screws. Ensure it is firmly attached.
6. **Restore Power:** Once the fixture is securely mounted and wired, restore power at the circuit breaker.

3. OPERATING INSTRUCTIONS

The LeuchtenDirekt LED Ceiling Light is designed for simple operation.

Basic Operation:

- **Switching On/Off:** The light is operated via your standard wall switch. Flip the switch to turn the light on or off.
- **Adjusting the Arms:** One of the light arms is rotatable. Gently pivot this arm to direct the light as desired, allowing you to customize the illumination of your room.

4. MAINTENANCE

To ensure the longevity and optimal performance of your LeuchtenDirekt LED Ceiling Light, follow these simple maintenance guidelines.

Cleaning:

- Always disconnect the power supply before cleaning the fixture.
- Wipe the surface of the light with a soft, dry, or slightly damp cloth.
- Do not use abrasive cleaners, solvents, or harsh chemicals, as these can damage the finish.
- Ensure no moisture enters the electrical components.

LED Light Source:

This fixture uses integrated LED light sources that are designed for a long lifespan and are not user-replaceable. If the LED light source fails, the entire fixture may need to be replaced or serviced by a professional.

5. TROUBLESHOOTING

If you encounter any issues with your LeuchtenDirekt LED Ceiling Light, please refer to the following common troubleshooting steps.

Common Issues and Solutions:

Problem	Possible Cause	Solution
Light does not turn on.	No power supply.	Check the circuit breaker and wall switch. Ensure power is restored.
Light does not turn on.	Incorrect wiring.	Disconnect power and re-check wiring connections. Consult a qualified electrician if unsure.
Light flickers.	Loose connection or incompatible dimmer (if applicable).	Ensure all connections are secure. This fixture is not specified as dimmable; using an incompatible dimmer may cause issues.
Light is too dim.	Not designed for higher brightness.	The light provides 1000 lumens. Ensure the room size is appropriate for this light output.

If the problem persists after attempting these solutions, please contact LeuchtenDirekt customer support or a qualified electrician.

6. PRODUCT SPECIFICATIONS

Detailed technical specifications for the LeuchtenDirekt LED Ceiling Light.

Attribute	Value
Brand	LeuchtenDirekt
Product Dimensions	59 x 51 x 10 cm
Item Weight	380 Grams
Protection Class	IP20 (for indoor use only)
Style	Modern
Color	Steel
Material	Alloy Steel
Finish Type	Chrome
Number of Light Sources	2
Special Features	Rotatable light arm
Shade Color	Warm White
Shade Material	Plastic
Light Direction	Downwards
Power Source	Corded Electric

Attribute	Value
Switch Installation Type	Ceiling Mount
Lamp Type	LED
Socket	LED-Board
Energy Efficiency Class	E
Luminous Flux	750 lm (Note: Feature bullets state 1000 Lumen, using specification value)
Power Consumption	10 Watt
Incandescent Equivalent	75 Watt
Light Source Features	Light source permanently installed
Color Temperature	3000 Kelvin
