Exost Aqua Typhoon

Exost Aqua Typhoon Remote Control Car - 1:24 Scale Instruction Manual

1. INTRODUCTION

The Exost Aqua Typhoon is a 1:24 scale remote-controlled vehicle designed for all-terrain use. Its robust construction allows it to operate on various surfaces, including snow, dirt, and water puddles. This model features a unique wheelie function for dynamic play. This manual provides essential information for the safe and proper operation, maintenance, and care of your Exost Aqua Typhoon.

2. SAFETY INFORMATION

Please read and understand all safety warnings before operating the Exost Aqua Typhoon. Failure to follow these instructions may result in injury or damage to the product.

- **Age Recommendation:** This product is not suitable for children under 4 years of age due to small parts and potential hazards. Adult supervision is recommended for all users.

- **Battery Safety:**

- Use only the specified battery type and charger.
- Do not attempt to recharge non-rechargeable batteries.
- Do not mix old and new batteries, or different types of batteries.
- Insert batteries with correct polarity.
- Remove batteries from the car and remote control when not in use for extended periods.
- Dispose of used batteries responsibly according to local regulations.

- **Operating Environment:**

- Operate the vehicle in open areas, away from people, pets, and obstacles.
- Avoid operating near roads, busy streets, or in areas with high voltage lines.
- While the Aqua Typhoon is designed for water puddles, avoid fully submerging the vehicle or operating it in deep water for extended periods.

- **General Precautions:**

- Do not touch moving parts during operation.
- Keep fingers, hair, and loose clothing away from the wheels.
- Do not modify the product.

3. PACKAGE CONTENTS

Ensure all items are present in the package:

- Exost Aqua Typhoon Remote Control Car (1:24 Scale)
- Remote Control Unit
- Rechargeable Lithium-ion Battery (for car)
- USB Charging Cable (for car battery)
- Instruction Manual (this document)

Note: Batteries for the remote control are typically not included and must be purchased separately. Please refer to the remote control's battery compartment for specific requirements.

4. SETUP

4.1 Car Battery Installation and Charging

1. Locate the battery compartment on the underside of the Exost Aqua Typhoon car.
2. Carefully open the battery compartment cover.
3. Connect the rechargeable Lithium-ion battery to the car's battery connector, ensuring correct polarity.
4. Place the battery inside the compartment and securely close the cover.
5. To charge the car battery, connect the USB charging cable to the battery and plug the other end into a standard USB power source (e.g., computer USB port, USB wall adapter). The charging indicator will illuminate.
6. A full charge takes approximately 1 hour and 30 minutes. Disconnect the charger once charging is complete.

Image 2: Rear view of the Exost Aqua Typhoon, highlighting the robust wheels and chassis design. The battery compartment is typically located on the underside.

4.2 Remote Control Battery Installation

1. Locate the battery compartment on the back of the remote control unit.
2. Open the battery compartment cover.
3. Insert the required batteries (e.g., 2x AA batteries, not included) into the compartment, observing the correct polarity (+/-).
4. Securely close the battery compartment cover.

5. OPERATING INSTRUCTIONS

5.1 Powering On and Pairing

1. Ensure both the car and the remote control have fresh or fully charged batteries installed.
2. Turn on the power switch on the Exost Aqua Typhoon car.
3. Turn on the power switch on the remote control.
4. The car and remote control should automatically pair. If not, turn both off and on again.

5.2 Driving Controls

The remote control typically features two joysticks or levers for movement:

- **Left Joystick/Lever:** Controls forward and backward movement.
- **Right Joystick/Lever:** Controls turning left and right. The Aqua Typhoon turns by pivoting its wheels, allowing for agile maneuvers.

5.3 Special Functions: Wheelie

The remote control includes a dedicated button to activate the wheelie function. Press this button during forward movement to make the Aqua Typhoon perform a wheelie.

5.4 Terrain Operation

The Exost Aqua Typhoon is designed to operate on various terrains:

- **Land:** Drives effectively on dirt, grass, and paved surfaces.
- **Snow:** Capable of navigating through light snow.
- **Water:** Can drive through shallow water puddles. Avoid deep water or prolonged submersion.

Image 3: Front three-quarter view of the Exost Aqua Typhoon, showcasing its aggressive tire tread and overall design.

6. MAINTENANCE

Proper maintenance ensures the longevity and performance of your Exost Aqua Typhoon.

- **Cleaning:** After use, especially on dirty or wet terrain, wipe the car clean with a damp cloth. Do not use harsh chemicals or immerse the car in water for cleaning.
- **Storage:** Store the car and remote control in a cool, dry place away from direct sunlight and extreme temperatures. Remove batteries from both units if storing for an extended period to prevent leakage.
- **Battery Care:** Always fully charge the car's battery before storage and periodically if not used for a long time.
- **Inspection:** Regularly check for any loose parts, damaged wires, or debris caught in the wheels.

7. TROUBLESHOOTING

If you encounter issues with your Exost Aqua Typhoon, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Car does not respond to remote control.	Low or dead batteries in car or remote. Power switches are off. Car and remote not paired. Out of range.	Charge/replace batteries. Ensure both power switches are ON. Turn both units off and on again to re-pair. Operate within specified range.
Car moves slowly or erratically.	Low car battery. Obstruction in wheels.	Recharge car battery. Check and clear any debris from wheels.
Interference during operation.	Other radio-controlled devices nearby. Environmental interference.	Move to a different operating location. Ensure no other devices are using similar frequencies (27 MHz or 40 MHz).
Wheelie function not working.	Insufficient speed. Low battery.	Ensure the car is moving forward at a reasonable speed before pressing the wheelie button. Recharge car battery.

8. SPECIFICATIONS

Feature	Detail
Brand	Exost
Model Name	Aqua Typhoon
Model Number	20207
Scale	1:24
Dimensions (L x W x H)	20 x 12 x 12 cm
Weight	250 grams
Maximum Speed	8 km/h
Recommended Age	4 years and up
Battery Type (Car)	Lithium-ion (Rechargeable, Included)
Charging Time	Approx. 1 hour 30 minutes
Radio Frequency	27 MHz and 40 MHz
Number of Channels	4
Number of Bands	2
Material	80% Plastic, 20% Rubber
Color	Multicolored

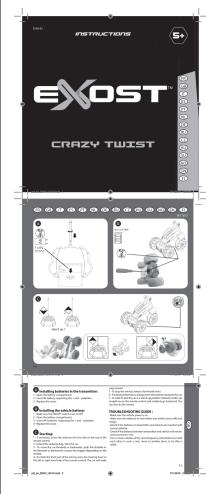

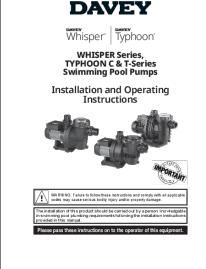

9. WARRANTY AND SUPPORT

Specific warranty information for the Exost Aqua Typhoon is not provided in this manual. For details

regarding warranty coverage, please refer to the documentation included with your purchase or contact the retailer where the product was acquired. For technical support or inquiries about spare parts, please contact Exost customer service or visit their official website.

Note: Information regarding the availability of spare parts is currently unavailable.
