PRODUCT FEATURES

- **3 Piece Set:** Includes small, medium, and large suitcases for versatile travel needs.
- **Durable ABS Material:** Constructed from extra strong Acrylonitrile Butadiene Styrene (ABS) for enhanced durability and scratch resistance.
- **TSA Combination Lock:** Mounted TSA-approved combination lock provides security and peace of mind during travel.
- **360-Degree Spinner Wheels:** Multi-directional spinner wheels offer effortless mobility and smooth gliding in any direction.
- **Telescopic Handle:** Push-button locking handle adjusts to multiple heights for comfortable handling.
- **Interior Organization:** Features an interior skirted division with compression straps and mesh pockets to keep clothing neatly packed and organized.
- **Expandable Design:** The 28-inch large suitcase is expandable, adding 15% to its storage capacity.

100% ABS Shield for Your Belongings

SETUP

Setting Up Your TSA Combination Lock

Your luggage is equipped with a TSA-approved combination lock. Follow these steps to set your personal combination:

1. The lock is preset to 0-0-0.
2. Locate the small reset button (usually a small hole) on the side of the lock. Use a pen or pointed object to press and hold this button until you hear a "click".
3. While holding the reset button, set your desired 3-digit combination by turning the dials to your chosen numbers.
4. Release the reset button. Push the main button (usually a larger button or slider) in the direction of the arrow until you hear another "click" to confirm the new combination.
5. Your personal combination is now set. Remember your combination as there is no master key.

Secure TSA Lock

Travel safe, travel smart

OPERATING INSTRUCTIONS

Telescopic Handle

The luggage features a multi-stage telescopic handle for easy maneuverability. To extend the handle, press the button located on the top of the handle and pull upwards. To retract, press the button and push downwards until it locks into place.

Spinner Wheels

Your Coolife luggage is equipped with 360-degree multi-directional spinner wheels. These wheels allow you to effortlessly glide your suitcase in any direction, making navigation through airports and crowded spaces simple.

Packing and Interior Organization

The interior of your luggage is designed for efficient packing. Utilize the interior skirted division and compression straps to secure your clothes and prevent shifting during travel. Mesh pockets are available for smaller items, toiletries, or accessories.

Extra 15% Space

Exclusive to 28" luggage, smaller sizes are non-expandable

Only the 28" expands

Expanding the 28-inch Suitcase

Only the large 28-inch suitcase in your set features an expansion zipper. To expand, simply unzip the secondary zipper located around the perimeter of the suitcase. This will provide an additional 15% of packing space.

Extra 15% Space

Exclusive to 28" luggage; smaller sizes are non-expandable

MAINTENANCE

Exterior Care

The ABS hardshell exterior is designed to be durable and scratch-resistant. To clean, wipe the surface with a soft, damp cloth using mild soap. Avoid using harsh chemicals or abrasive cleaners, as these can damage the finish.

Zippers

For optimal performance, ensure that the zippers are kept clean and free from debris. If a zipper becomes stiff, a small amount of silicone-based lubricant or even rubbing a pencil lead along the teeth can help restore smooth operation.

Image: A close-up of the luggage zipper, emphasizing its smooth operation.

Wheels and Handles

Periodically inspect the spinner wheels and telescopic handle for any signs of wear or damage. Clean any accumulated dirt, hair, or lint from the wheel mechanisms to maintain smooth rolling. Ensure the telescopic handle extends and retracts freely without obstruction.

TROUBLESHOOTING

Wheels Not Rolling Smoothly

If the wheels are not gliding smoothly, check for any debris (such as hair or lint) caught in the wheel axles. Carefully remove any obstructions. If the issue persists or wheels are damaged, contact customer support.

Telescopic Handle Jammed

Ensure that no items inside the luggage are pressing against or obstructing the handle mechanism. Press the release button firmly while gently wiggling the handle to extend or retract it. Avoid excessive force. Combination Lock Issues

If you forget your combination, unfortunately, there is no master key to open the lock. You may need to contact a locksmith or the airline for assistance. Always ensure your combination is noted down in a secure place.

SPECIFICATIONS

Size reference

Image: A visual guide showing the relative sizes and dimensions of the 20-inch, 24-inch, and 28-inch suitcases.

Specification	Detail
Brand	Coolife
