

Hyper Tough Touch-Sensitive COB LED Headlight

Hyper Tough Touch-Sensitive COB LED Headlight Instruction Manual

Model: Touch-Sensitive COB LED Headlight

INTRODUCTION

Thank you for purchasing the Hyper Tough Touch-Sensitive COB LED Headlight. This manual provides important information regarding the safe operation, maintenance, and troubleshooting of your new headlight. Please read this manual thoroughly before use and retain it for future reference.

SAFETY INFORMATION

Always observe the following safety precautions to prevent injury or damage to the product.

- **WARNING:** Do not shine the LED light directly into eyes. This can cause temporary vision impairment or permanent eye damage.
- **CAUTION:** Keep batteries away from children. If a battery is swallowed, seek medical advice at once.
- Check battery for correct polarity (+/-) before insertion.
- Do not disassemble, recharge, or dispose of batteries in fire.
- Do not mix used and new batteries, or batteries of different brands or types.
- This product is designed for use with non-rechargeable batteries. Do not use rechargeable batteries.
- **WARNING:** This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm.

SETUP

Battery Installation

1. Locate the battery compartment on the back of the headlight unit.
2. Open the battery compartment cover.
3. Insert 3 AAA batteries, ensuring correct polarity (+/-) as indicated inside the compartment.
4. Close the battery compartment cover securely.

Adjusting the Head Strap

The elastic head strap is adjustable to fit various head sizes. Slide the buckles on the strap to lengthen or shorten it for a comfortable and secure fit.

OPERATION

Power On/Off and Mode Selection

The headlight features a touch-sensitive switch for easy control.

1. To turn the headlight **ON**, press the power button once. The light will activate in High mode.
2. To cycle through light modes, press the power button repeatedly:
 - First press: High Mode (100 Lumens)
 - Second press: Low Mode (45 Lumens)

- Third press: Red Strobe Mode

3. To turn the headlight **OFF**, press the power button after cycling through all modes, or hold the power button for approximately 2 seconds from any mode.

MAINTENANCE

- Clean the headlight with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- If the headlight will not be used for an extended period, remove the batteries to prevent leakage and corrosion.
- Store the headlight in a cool, dry place away from direct sunlight.
- Ensure the battery compartment is always sealed to maintain water resistance.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Headlight does not turn on.	Batteries are dead or low. Batteries are inserted incorrectly. Battery compartment is not closed securely.	Replace with new AAA batteries. Check and correct battery polarity. Ensure battery compartment cover is fully latched.
Light is dim.	Batteries are low.	Replace with new AAA batteries.
Headlight flickers.	Loose battery connection or low batteries.	Check battery insertion; replace batteries if necessary.
