iOttie Easy One Touch Mini Dash & Windshield Car Mount Phone Holder

Model: HLCRIO128

PRODUCT OVERVIEW

The iOttie Easy One Touch Mini Dash & Windshield mount is a compact and simple smartphone mounting solution. It securely holds your device, allowing for safe driving. This mount is universally compatible with all smartphones.

Key Features:

- **EASY ONE TOUCH LOCK RELEASE:** Patented Easy One Touch mechanism allows quick one-hand open and close operation.
- **UNIVERSAL MOUNTING:** Holds all phone and case combinations from 2.3" - 3.5".
- **STRONG SUCTION:** Suction cup offers high stick strength, can be paired with separate dashboard pad for added strength.
- **ADJUSTABLE VIEWING:** Cradle rotates at the swivel Ball 360 degree for optimal viewing.
- **COMPACT DESIGN:** Small Compact design allows to take up minimal space on your desired mounting location.

SETUP INSTRUCTIONS

1. **Connect Cradle to Ball Joint:** Attach the mounting cradle to the ball joint of the suction cup arm. Ensure it is securely tightened.
2. **Prepare Mounting Surface:** Clean the desired dashboard or windshield area thoroughly. Ensure the surface is free of dust and debris.
3. **Remove Suction Cup Cover:** Peel off the plastic protective cover from the suction cup.
4. **Mount the Device:**
 - **For Dashboard Mounting:** Place the mount on a hard dashboard surface. Push the lever down to lock the suction cup in place. (Note: For soft dashboards, an iOttie Adhesive dashboard pad, sold separately,

is recommended to prevent marks).

- **For Windshield Mounting:** Place the mount on the windshield with the tab facing up. Push the lever down to lock the suction cup in place.

5. **Adjust Viewing Angle:** Turn the pivot and cradle knobs to adjust the arm and cradle for optimal viewing. Ensure the iOttie logo on the cradle faces up.

1. Mounting Your Smartphone:

- Press the release bars on the sides of the cradle to open the locking side arms.
- Place your smartphone against the Easy One Touch Trigger button located in the center of the cradle. The arms will automatically close and secure your device.

2. Removing Your Smartphone:

- Press the release bars on the sides of the cradle to unlock the side arms.
- Gently remove your smartphone from the mount.

3. **Adjusting Viewing Angle During Use:** The cradle rotates 360 degrees at the swivel ball joint. Loosen the pivot knob to adjust the angle, then tighten to secure.

Image: Illustration of the mount's optimal viewing angles, demonstrating its 225-degree pivot capability.

- **Cleaning the Suction Cup:** If the suction cup loses its stickiness, rinse it with warm water and let it air dry completely. This will restore its adhesive properties.
- **Cleaning the Mount:** Wipe the mount with a soft, damp cloth to remove dust and grime. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, store the mount in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

| Problem | Possible Cause | Solution |
|---|--|---|
| Mount not sticking to dashboard/windshield. | Dirty surface; suction cup lost stickiness; unsuitable surface material. | Clean surface thoroughly. Rinse suction cup with water and air dry. For soft dashboards, use an adhesive dashboard pad (sold separately). Ensure surface temperature is above 40°F before installation. |
| Phone not held securely. | Side arms not fully closed; phone too large/small for universal compatibility. | Ensure phone is pressed firmly against the Easy One Touch Trigger. Verify phone width is within 2.3" - 3.5". |
| Mount wobbles or moves during driving. | Suction cup not properly locked; pivot/cradle knobs loose. | Ensure suction cup lever is fully pushed down. Tighten all pivot and cradle knobs securely. |
