OHLPRO W11C

OHLPRO Magsafe Car Mount Wireless Charger Instruction Manual

Brand: OHLPRO | Model: W11C

1. INTRODUCTION

Thank you for choosing the OHLPRO Magsafe Car Mount Wireless Charger. This device is designed to provide a secure and convenient way to mount and wirelessly charge your compatible iPhone series in your vehicle. Please read this manual carefully before use to ensure proper installation, operation, and maintenance.

2. WHAT'S IN THE BOX

Please verify that all items are present in your package:

- 1 × MagSafe Car Charger
- 1 × Air Vent Clip
- 1 × 3M Adhesive Base
- 1 × Magnetic Ring (for non-MagSafe compatible phones/cases)
- 1 × 1m USB-A to USB-C Cable
- 1 × User Manual

3. PRODUCT FEATURES

- **Strong Magnetic Force:** Built-in super-strong N52 magnets ensure your phone remains stable even on

bumpy roads.

- **15W Fast Charging:** Supports fast wireless charging (up to 15W, 7.5W for iPhone) when used with a QC3.0 adapter (not included).
- **Dual Installation Options:** Includes both an air vent clip and a 3M adhesive dashboard base for versatile mounting.
- **360° Rotation:** A 360° joint ball allows for easy adjustment to achieve an optimal viewing angle.
- **One-Hand Operation:** Designed for effortless attachment and detachment of your phone with a single hand.
- **No Signal Interference:** Processed to prevent interference with your mobile phone's signal.

4. COMPATIBILITY

The OHLPRO MagSafe Car Mount Wireless Charger is perfectly designed for:

- iPhone 16 / 16 Pro / 16 Pro Max / 16 Plus
- iPhone 15 / 15 Pro / 15 Pro Max / 15 Plus
- iPhone 14 / 14 Pro / 14 Pro Max / 14 Plus
- iPhone 13 / 13 Pro / 13 Pro Max / 13 Mini
- iPhone 12 / 12 Pro / 12 Pro Max / 12 Mini

It is also compatible with MagSafe cases and third-party magnetic phone cases. For phones without MagSafe compatibility, the included magnetic ring can be attached to your phone or case (not recommended for optimal performance).

Important Note:

This charger is not compatible with normal phone cases that do not have MagSafe functionality, as they will weaken the magnetic force and may prevent charging.

Tips : Please use the Magsafe case, it is not compatible with non-magsafe cases and will weaken the magnetic force and will not charge

Image: A visual guide illustrating the compatibility of the charger with various iPhone 12/13/14 series models and the necessity of using MagSafe-compatible cases or the provided magnetic patch for proper function.

5. SETUP AND INSTALLATION

The OHLPRO Magsafe Car Mount offers two installation methods: Air Vent and Dashboard.

2 Ways to Install

Image: A diagram showing the two primary installation methods for the car mount: directly on the dashboard using an adhesive base, or attached to a car air vent using the provided clip.

5.1. Air Vent Installation

1. Put the nut onto the ball head of the air vent clip and insert the ball head into the socket on the back of the charger.
2. Loosen the nut on the clip to open its jaws.
3. Carefully insert the clip into a suitable car air vent blade. Ensure the vent type is compatible (most horizontal and vertical vents are supported, round vents are not).
4. Tighten the nut firmly to secure the charger to the vent.

Suitable for Most Vents

Image: A visual guide indicating which types of car air vents are suitable for the mount's clip (horizontal, vertical) and which are not (round).

5.2. Dashboard Installation

1. Wipe down the dashboard surface where you intend to install the mount. Ensure it is clean and dry.
2. Put the nut onto the ball head of the 3M adhesive base and insert the ball head into the socket on the back of the charger.
3. Remove the protective film from the 3M adhesive base.
4. Firmly press the adhesive base onto the cleaned dashboard surface for at least 30 seconds. Allow 24 hours for the adhesive to fully cure before attaching your phone.

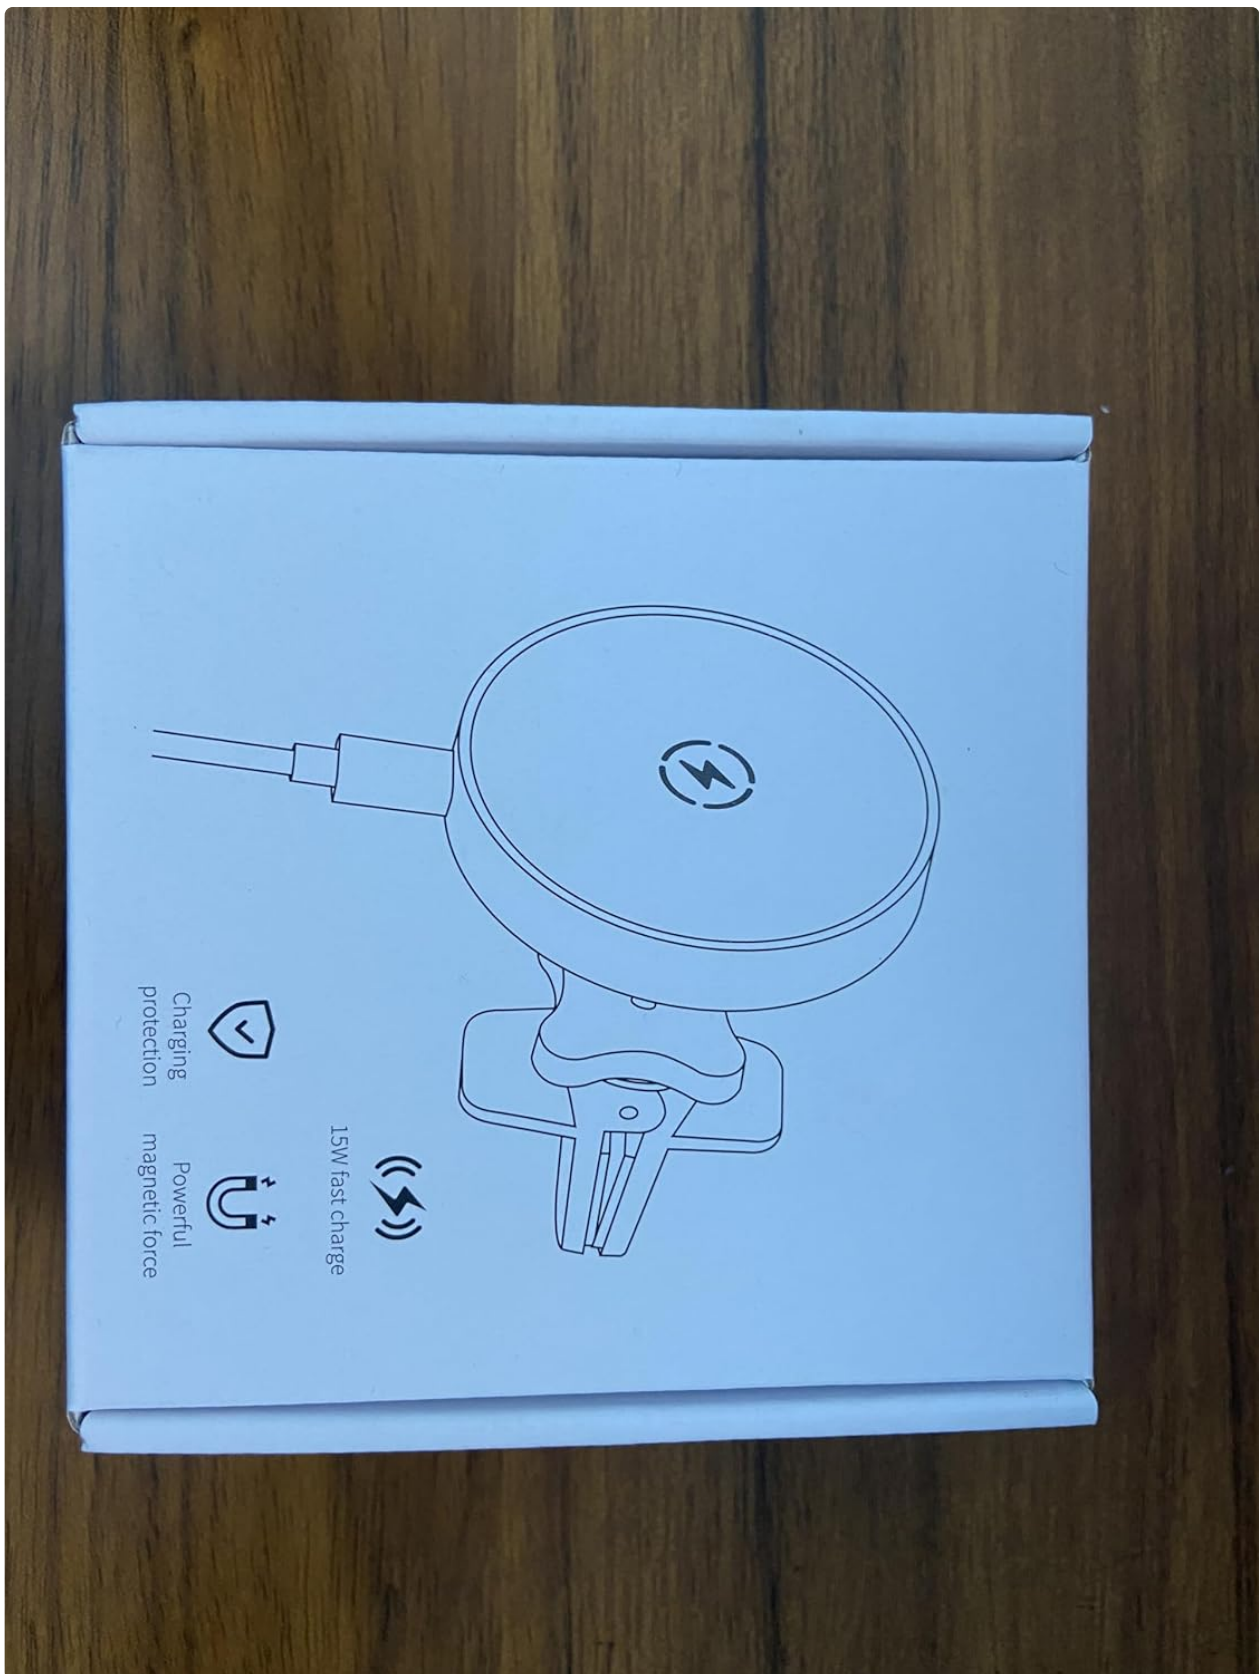

Image: A six-panel step-by-step guide demonstrating the installation process for both the air vent clip and the 3M adhesive dashboard mount, from assembly to final placement.

6. OPERATING INSTRUCTIONS

1. Connect the provided USB-A to USB-C cable to the charger and plug the USB-A end into a compatible

car charger adapter (QC3.0 recommended for fast charging).

2. Ensure your iPhone has a MagSafe-compatible case or the magnetic ring is properly attached.
3. Align your iPhone with the magnetic charging pad on the car mount. The magnets will automatically snap your phone into place.
4. The phone will begin charging wirelessly.
5. Adjust the angle of your phone using the 360° rotating ball joint for optimal viewing.

6.1. Demonstration Video

Video: This video demonstrates the strong magnetic attraction of the OHLPRO car charger and how easily a phone snaps into place for charging and navigation.

7. MAINTENANCE

- Clean the charger regularly with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- Ensure the charging surface is free of dust and debris for optimal charging performance.
- Avoid exposing the device to extreme temperatures, direct sunlight for prolonged periods, or excessive moisture.
- Periodically check the tightness of the vent clip or the adhesion of the dashboard base to ensure secure mounting.

8. TROUBLESHOOTING

- **Phone Not Charging:**

- Ensure your phone is properly aligned with the charging coil.
- Verify that your phone case is MagSafe compatible. Non-MagSafe cases can prevent charging.
- Check if the USB cable is securely connected to both the charger and the power source.
- Ensure your car charger adapter is functioning correctly and provides sufficient power (QC3.0 recommended).

- **Weak Magnetic Hold:**

- Confirm your phone case is MagSafe compatible.
- If using the magnetic ring, ensure it is properly adhered and aligned on your phone or case.
- Avoid placing metal objects between the phone and the charger.

- **Mount Instability:**

- For air vent installation, ensure the nut is tightened securely and the clip is fully engaged with the vent blade.
- For dashboard installation, ensure the surface was clean and dry before applying the adhesive, and allow sufficient curing time (24 hours).

- **Slow Charging:**

- Use a QC3.0 compatible car charger adapter for optimal fast charging speeds.
- Ensure your phone is not running power-intensive applications during charging.

9. SPECIFICATIONS

| Attribute | Value |
|---------------------------|---------------------------|
| Product Dimensions | 4.06 x 4.06 x 2.05 inches |
| Item Weight | 6 ounces |
| Model Number | W11C |
| Connectivity Technologies | USB |
| Special Features | Magnetic |
| Other Display Features | Wireless |
| Color | Black |
| Mounting Type | Dashboards and Vents |
| Manufacturer | OHLPRO |
| Country of Origin | China |
