# HealthSmart Essential Oil Diffuser User Manual

MODEL: 40-500-037

## Introduction

---

This manual provides detailed instructions for the safe and effective use of your HealthSmart Essential Oil Diffuser. This device functions as both an aromatherapy diffuser and a cool mist humidifier, designed to enhance your environment with soothing aromas and optimal humidity levels. Please read this manual thoroughly before operation and retain it for future reference.

The HealthSmart Essential Oil Diffuser in brown, showcasing its sleek design and control panel.

## Important Safety Information

---

To ensure safe operation and prevent damage, please observe the following precautions:

- Avoid direct skin contact with undiluted essential oils.
- Keep the diffuser out of reach of children and pets.
- Ensure proper ventilation during use.
- Always unplug the diffuser before cleaning or refilling.
- Do not immerse the unit in water or any other liquid.
- Use only the provided AC adapter.
- Do not block the mist outlet.

## Package Contents

Verify that all items are present in the package:

- HealthSmart Essential Oil Diffuser Unit
- AC Adapter (located inside the tank)
- User Manual

*Note: Essential oils are sold separately.*

## Product Overview

Familiarize yourself with the components and controls of your diffuser.

**1. Gently Remove Cover**

**2. Add Clean Fresh Water**

**3. Add Favorite Blend of Oils**

**4. Plug In, Turn On, and Enjoy**

The smart touch panel features controls for mist level (low/high), LED light color (7 changing colors or 1 set color), and timer settings (1 hour, 3 hours, 6 hours, or continuous).

A detailed view of the touch-sensitive control buttons, indicating options for timer (1H, 3H, 6H), color light settings, and mist output (ON).

The diffuser consists of a main unit with a water tank, a decorative outer cover, and an inner mist cover. The control panel is located on the front base of the unit.

## Setup

---

Follow these steps for initial setup:

1. **Gently Remove Covers:** Remove the decorative outer cover, then the inner mist cover to expose the water tank.

Step 1: Gently remove the decorative top cover and the inner mist cover to access the water tank.

2. **Add Clean Fresh Water:** Fill the water reservoir with clean, fresh water up to the maximum fill line. The tank capacity is 500ML. Distilled water is recommended for best results and to prolong the life of the unit.

Step 2: Fill the water reservoir with clean, fresh water up to the maximum fill line. Distilled water is recommended for best results.

3. **Add Essential Oils:** Add 5-10 drops of your favorite essential oil directly into the water tank. Adjust the quantity based on your desired aroma intensity.

**7 Different Mood Lights to Choose**  
Keep on one color or cycle through them all!

Step 3: Add 5-10 drops of your favorite essential oil directly into the water tank. Adjust quantity based on desired aroma intensity.

4. **Plug In and Power On:** Replace both covers securely. Plug the AC adapter into the diffuser's power input, then into a standard wall outlet. Press the power button on the control panel to begin operation.

Step 4: Replace the covers, plug in the AC adapter, and press the power button to begin operation.

## Operating Instructions

---

The HealthSmart diffuser features a smart touch panel for easy control of its functions.

- **Mist Mode:** Press the mist button (indicated by a flame icon) to cycle between high mist, low mist, and off. The diffuser will automatically shut off when the water runs out.
- **Timer Settings:** Press the timer button (indicated by a clock icon) to set the operating time to 1 hour, 3 hours, 6 hours, or continuous misting until the water runs out.
- **LED Light Control:** Press the light button (indicated by a sun icon) to cycle through 7 different LED light colors. You can choose to let the colors cycle automatically or select a single color to remain on. This feature is ideal for creating a calm atmosphere or as a night light.

The diffuser can be used in various settings, providing ambient lighting and aromatherapy. Here, it displays a blue LED light.

## Maintenance

---

Regular cleaning ensures optimal performance and extends the lifespan of your diffuser.

1. **Empty Water:** Before cleaning, unplug the diffuser and empty any remaining water from the tank.
2. **Wipe Down:** Use a soft, damp cloth to wipe the interior of the water tank and the exterior of the unit.
3. **Clean Ultrasonic Plate:** Gently wipe the ultrasonic vibrating plate (located at the bottom of the water tank) with a cotton swab dipped in white vinegar. Do not scrub or use harsh chemicals.
4. **Rinse (Optional):** If necessary, rinse the tank with clean water, being careful not to get water into the air outlet.
5. **Dry Thoroughly:** Allow all parts to air dry completely before reassembling or storing the diffuser.

*Note: Clean the diffuser regularly, especially if using strong essential oils or if you notice residue buildup.*

## Troubleshooting

If you encounter issues with your diffuser, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No mist or weak mist	Insufficient water; water level too high; ultrasonic plate dirty; mist outlet blocked.	Add water to appropriate level; clean ultrasonic plate; ensure mist outlet is clear.
Diffuser does not turn on	No power; adapter not properly connected; unit overheated (auto shut-off).	Check power connection; ensure adapter is fully plugged in; allow unit to cool down.
Lights not working	Light function not activated; electrical issue.	Press the light button to activate; if problem persists, contact customer support.
Unusual noise	Water level too low; foreign object in tank; unit not on a flat surface.	Add water; remove any foreign objects; place on a stable, flat surface.
