# Pantone TPG 8.5x11 Color Sheet (19-2924 Holly Hock) User Manual

Model: 19-2924TPG

## 1. INTRODUCTION

The Pantone TPG 8.5x11 Color Sheet is a standardized tool designed for accurate color communication and evaluation in product design. This manual provides instructions for the proper use and care of your Pantone TPG Sheet in the color **19-2924 Holly Hock**.

Each sheet features a full 8.5" x 11" lacquer coating on paper, illustrating the appearance of the specific Pantone Fashion, Home + Interiors (FHI) color. The reverse side includes a printed grid for chipping, along with the corresponding color name and number, facilitating precise color specification and evaluation.

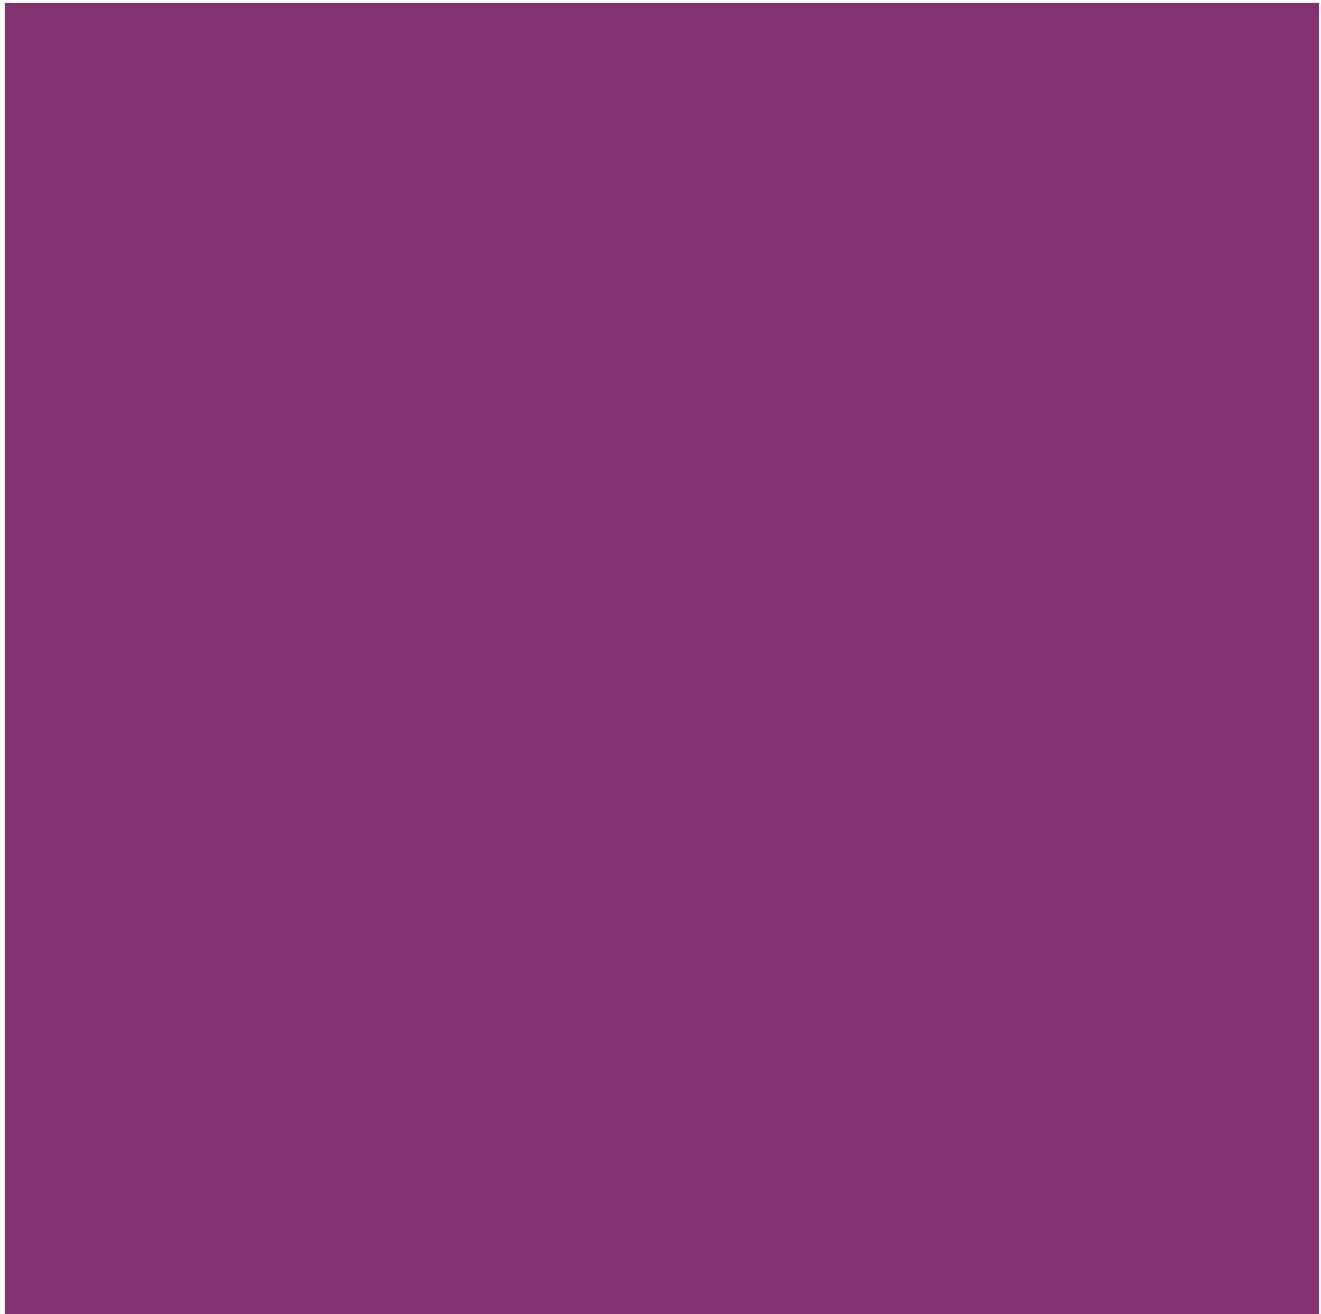

Figure 1.1: Front view of the Pantone TPG 8.5x11 Sheet in 19-2924 Holly Hock. This image displays the solid color surface of the sheet.

## 2. SETUP AND PREPARATION

---

Before using your Pantone TPG Sheet, ensure you are in a well-lit environment, preferably with controlled lighting conditions (e.g., D65 daylight simulator) to ensure accurate color perception.

### 2.1 Unpacking

- Carefully remove the Pantone TPG Sheet from its packaging.
- Inspect the sheet for any damage or inconsistencies. If any issues are found, refer to the "Troubleshooting" section.

### 2.2 Understanding the Sheet

- The front side of the sheet displays the full 8.5" x 11" color.
- The back side features a printed 1" x 1" grid, along with the color name and number (e.g., 19-2924 Holly Hock). This grid is designed for creating smaller color chips for various applications.

**Figure 2.1:** Example of Pantone TPG sheets, showing the potential for chipping using the grid on the reverse side. This image illustrates multiple color sheets, a pair of scissors, and a sheet with a grid pattern, indicating how the sheets can be cut into smaller samples.

### 3. OPERATING INSTRUCTIONS / USAGE

The Pantone TPG Sheet is a versatile tool for various stages of product development and design.

#### 3.1 Color Communication and Specification

- Use the full sheet to communicate the desired color to manufacturers, suppliers, or team members.
- Refer to the color name and number (19-2924 Holly Hock) for precise specification in design documents and production orders.

#### 3.2 Color Evaluation

- Compare the TPG Sheet directly against physical samples or prototypes to evaluate color accuracy.
- Ensure consistent lighting conditions during evaluation to avoid metamerism (colors appearing different under different light sources).

#### 3.3 Chipping for Samples

- If smaller color samples are required, use the printed 1" x 1" grid on the back of the sheet as a guide.
- Carefully cut along the grid lines using sharp scissors or a craft knife to create individual color chips.
- Each chip will retain the color name and number on its reverse side, ensuring traceability.

### 4. MAINTENANCE AND STORAGE

Proper care and storage are essential to maintain the integrity and accuracy of your Pantone TPG Sheet.

- **Handling:** Avoid touching the colored surface directly to prevent oils from your skin from affecting the color.

Handle by the edges.

- **Storage:** Store the sheet flat in a cool, dry place away from direct sunlight, humidity, and extreme temperatures. Exposure to UV light can cause color fading over time.
- **Protection:** Keep the sheet in its original protective sleeve or a similar archival-safe, acid-free enclosure to prevent dust accumulation and physical damage.
- **Cleaning:** Do not attempt to clean the colored surface with liquids or abrasive materials, as this can alter the color.

## 5. TROUBLESHOOTING

### 5.1 Color Appears Incorrect

- **Lighting Conditions:** Ensure you are evaluating the color under standardized lighting conditions (e.g., D65 daylight). Different light sources can make colors appear different.
- **Background:** Place the sheet on a neutral gray background during evaluation to avoid color distortion from surrounding colors.
- **Age/Exposure:** If the sheet has been exposed to direct sunlight or harsh conditions for an extended period, its color may have faded. Consider replacing it with a new sheet.

### 5.2 Physical Damage

- **Scratches/Creases:** Physical damage can affect the visual integrity of the color. Handle with care to prevent such damage.
- **Contamination:** If the surface is stained or marked, it may impact color accuracy. Avoid contact with liquids, inks, or other substances.

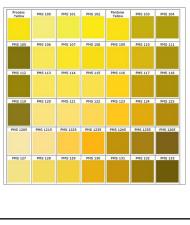

## 6. SPECIFICATIONS

Feature	Detail
Brand	Pantone
Model Number	19-2924TPG
Color	19-2924 Holly Hock
Material	Paper (Lacquer Coating)
Sheet Size	8.5 x 11 inches
Finish	Flat
Usage	Interior (Color Communication, Specification, Evaluation)
UPC	849572029619
Manufacturer	PANTONE SWATCHES

## 7. WARRANTY AND SUPPORT

Pantone TPG Sheets are manufactured to high-quality standards. For specific warranty information or support regarding your product, please refer to the official Pantone website or contact Pantone customer service directly.
