Hot Wheels GBN81

Hot Wheels Track Builder Booster Pack Playset Instruction Manual

Model: GBN81

Product Overview

The Hot Wheels Track Builder Booster Pack Playset is designed to enhance your Hot Wheels track creations by providing a power booster to send cars flying at high speeds. This pack includes essential components to augment existing track sets, offering endless possibilities for unique stunts and races.

- Reconfigurable track pieces allow for unique stunt and race designs.
- Boosts creativity with open-ended building possibilities.
- Helps develop problem-solving skills.
- Includes a power booster and orange track pieces for augmenting existing sets.
- Great addition to any Track Builder Stunt Set for extended playtime.

Safety Information

WARNING:

- Not suitable for children under 36 months.
- Long cord. Risk of strangulation.
- Small parts. Choking hazard.

Manufacturer recommended age: 6 - 10 years.

Package Contents

The Hot Wheels Track Builder Booster Pack Playset typically includes the following items:

- 1x Power Booster unit
- 2x Orange Track pieces
- 1x Hot Wheels Vehicle

Image: Components included in the Booster Pack.

Setup Instructions

1. Battery Installation

The power booster requires **2 D batteries** (not included). To install:

1. Locate the battery compartment on the underside of the booster unit.
2. Using a small Phillips screwdriver, unscrew the battery compartment cover.
3. Insert 2 D batteries, ensuring correct polarity (+/-).
4. Replace the cover and secure it with the screw.

2. Assembling the Track

The Booster Pack is designed to integrate with existing Hot Wheels track sets. Follow these steps to connect the booster:

1. Connect one end of an orange track piece to the input side of the booster unit. Ensure it clicks securely into place.
2. Connect the other orange track piece to the output side of the booster unit.

3. Integrate these track sections with your existing Hot Wheels track layout. The booster should be placed in a straight section of track where cars can enter and exit smoothly.

Operating Instructions

Once the booster is set up and integrated into your track, operating it is simple:

1. Ensure the booster's power switch (if present, typically on the side or bottom) is in the "ON" position. You should hear the motor spinning.
2. Place a Hot Wheels vehicle on the track leading into the booster.
3. Gently push the car forward until the booster's wheels engage with the car. The booster will then propel the car forward at high speed.
4. Experiment with different Hot Wheels cars. Some cars may perform better than others due to their size and weight. The included car is optimized for this booster.

Image: A child operating the booster by placing a car on the track.

The booster is designed to add speed and momentum, allowing cars to navigate loops, jumps, and other track elements that might otherwise be difficult to clear. It can be integrated into complex track layouts to create dynamic racing experiences.

Maintenance

To ensure the longevity and optimal performance of your Hot Wheels Track Builder Booster Pack Playset, follow these maintenance guidelines:

- **Cleaning:** Wipe the booster unit and track pieces with a dry or slightly damp cloth. Do not submerge in water. Avoid harsh chemicals.
- **Battery Care:** Remove batteries if the toy will not be used for an extended period to prevent leakage. Replace batteries when the booster's speed decreases significantly.
- **Storage:** Store the playset in a clean, dry place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically check track connectors and the booster mechanism for any signs of wear or damage. Discontinue use if parts are broken.

Troubleshooting

Problem	Possible Cause	Solution

Problem	Possible Cause	Solution
Booster not working or running slowly.	Batteries are dead or low. Batteries are inserted incorrectly. Power switch is off.	Replace with new D batteries. Check battery polarity and reinsert correctly. Ensure the power switch is in the "ON" position.
Car not boosting effectively.	Incorrect car type/size. Track not properly aligned with booster. Debris in booster mechanism.	Use the included Hot Wheels car or other compatible vehicles. Ensure track pieces are securely connected and aligned with the booster's entry/exit points. Inspect the booster's wheels and clear any obstructions.
Booster is excessively noisy.	Normal operation sound. Internal mechanism issue.	A certain level of motor noise is normal for this product. If noise is unusual or excessive, contact customer support.

Specifications

Product Name	Hot Wheels Track Builder Booster Pack Playset
Model Number	GBN81
Brand	Hot Wheels (Mattel)
Product Dimensions	3.15 x 5.91 x 5.12 inches
Item Weight	1.08 pounds
Batteries Required	2 D batteries (not included)
Recommended Age	6 - 10 years
Release Date	August 17, 2018
