3. PACKAGE CONTENTS

Your Naomi Home Loft Bed is shipped in multiple boxes. Please refer to the parts list included in your packaging to ensure all components and hardware are present before beginning assembly. If any parts are missing or damaged, contact customer support immediately.

4. ASSEMBLY INSTRUCTIONS

Assembly requires two adults. Estimated assembly time is 4-6 hours. A power drill with adjustable torque is recommended for efficiency, but manual tools are sufficient. Ensure you have ample space for assembly.

4.1. Preparation

- Unpack all boxes and lay out components on a clean, soft surface (e.g., a rug or blanket) to prevent scratches.
- Identify all parts using the provided parts list and labels.
- Separate hardware into labeled groups.

4.2. Step-by-Step Assembly

1. **Assemble the Main Bed Frame:** Begin by connecting the side rails and end panels to form the basic bed structure. Ensure all connections are secure.
2. **Install the Desk, Dresser, and Bookshelf Units:** It is crucial to install the pull-out desk, the three-drawer dresser, and the integrated bookshelf units **before** installing the bed slats. This order prevents obstruction of installation points. The ladder can be installed on either the left or right side of the bed frame, depending on your room layout.

5. **Final Checks:** Verify that all bolts and screws are tightened. Ensure the bed is stable and level.

5. OPERATING INSTRUCTIONS

5.1. Using the Loft Bed

- Access the bed using the integrated cabinet ladder. Always use the ladder facing forward and maintain three points of contact.

- Ensure the mattress is properly positioned within the bed frame.

5.2. Using the Pull-Out Desk

The desk is designed to slide out for use and tuck away when not needed. Gently pull the desk unit outwards from under the bed until it is fully extended and stable. To retract, push the desk back into its storage position. Avoid placing excessive weight on the desk when extended.
