MaxWorks Heavy Duty 2-Shelf Service Cart (Model 80855) Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your MaxWorks Heavy Duty 2-Shelf Service Cart, Model 80855. This utility cart is designed for various applications, including commercial, food service, medical, and home use, offering durability and ease of use.

SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembling or operating this service cart. Failure to follow these instructions may result in injury or property damage.

- **Do not exceed the maximum weight capacity:** The cart has a total capacity of 500 lbs (250 lbs per shelf). Overloading can cause instability and damage.
- **Distribute weight evenly:** Place heavier items on the bottom shelf and distribute weight across both shelves to maintain stability.
- **Secure loads:** Ensure all items are stable and secure on the shelves before moving the cart. The 3-inch deep trays help contain items.
- **Use on level surfaces:** Operate the cart on flat, stable surfaces. Avoid inclines or uneven terrain to prevent tipping.
- **Inspect before use:** Before each use, check casters, shelves, and frame for any signs of damage or loose components. Do not use if damaged.
- **Keep hands clear:** Be aware of pinch points when assembling or adjusting the cart.

PACKAGE CONTENTS

Verify that all components are present before beginning assembly. If any parts are missing or damaged, please contact customer support.

- Top Shelf (1)
- Bottom Shelf (1)
- Vertical Support Posts (4)
- 5-inch Non-Marring Casters (4) - Two swivel, two fixed
- Hardware for Caster Attachment (Bolts, Washers, Nuts)
- Hanging Rod (1)

SETUP AND ASSEMBLY

The MaxWorks Service Cart is designed for straightforward assembly. It is recommended to have a second person assist during certain steps for easier handling.

1. **Attach Casters to Bottom Shelf:** Turn the bottom shelf upside down. Secure the four 5-inch non-marring casters to the designated corners using the provided bolts, washers, and nuts. Ensure two swivel casters are placed on one end and two fixed casters on the opposite end for optimal maneuverability. Do not overtighten the bolts.
2. **Install Vertical Support Posts:** Insert the four vertical support posts into the corner receptacles of the bottom shelf. Ensure they are fully seated and aligned.
3. **Attach Top Shelf:** Carefully lower the top shelf onto the vertical support posts, aligning the posts with the receptacles on the underside of the top shelf. Press down firmly until the top shelf is securely in place.
4. **Secure Hanging Rod:** Attach the removable hanging rod below the handle on the top shelf, if desired, for organizing extension cords, towels, or tapes.

OPERATING INSTRUCTIONS

Your MaxWorks Service Cart is designed for efficient and reliable material transport.

- **Loading the Cart:** Place items onto the 3-inch deep trays. Ensure the weight is distributed evenly and does not exceed 250 lbs per shelf or 500 lbs total.
- **Maneuvering:** Use the comfortable push handle for easy maneuvering. The two swivel casters provide directional control, while the two fixed casters enhance stability during movement.
- **Tool Storage:** Utilize the built-in compartments on the ergonomic handle for convenient access to small tools, parts,

or beverages.

- **Accessory Hanging:** The removable hanging rod can be used to keep extension cords, towels, or other items organized and within reach.

MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your service cart.

- **Cleaning:** The polypropylene construction is easy to clean. Wipe down surfaces with a damp cloth and mild detergent as needed. Avoid abrasive cleaners that may damage the material.
- **Caster Inspection:** Periodically check the casters for debris, wear, or damage. Remove any tangled hair or string from the wheel axles. Ensure all caster attachment hardware remains tight.
- **Structural Integrity:** Inspect the shelves and support posts for any cracks, bends, or signs of stress. Ensure all connections are secure.
- **Storage:** Store the cart in a dry, protected area when not in use to prevent exposure to extreme weather conditions.

ERGONOMIC DESIGN

The ergonomic handle design helps reduce fatigue over long period of use and the built-in handle with parts compartment keep your tools within reach.

TROUBLESHOOTING

If you encounter issues with your MaxWorks Service Cart, refer to the following common problems and solutions:

- **Cart is difficult to roll:**
 - Check casters for debris (e.g., hair, string) and remove if present.
 - Ensure caster bolts are securely tightened but not overtightened.
 - Verify that the load does not exceed the maximum weight capacity.
- **Cart feels unstable:**
 - Confirm that all assembly steps were followed correctly and all posts and shelves are fully seated.
 - Ensure weight is distributed evenly across both shelves.
 - Check for any damaged components that may compromise stability.

• **Parts do not fit during assembly:**

- Double-check that you are using the correct parts for each step as indicated in the assembly instructions.
- Ensure components are oriented correctly before attempting to force them together.

SPECIFICATIONS

Feature	Detail
Model Number	80855
