KEY FEATURES

- **High-Precision Pixart Optical Sensor:** Experience accurate tracking with up to 12,000 CPI (Counts Per Inch) for precise movements.
- **Ergonomic Right-Handed Design:** Crafted for comfort during extended gaming sessions, featuring rubber side grips for enhanced control.
- **Durable Mechanical Mouse Switches:** Built for longevity and consistent click response.
- **6 Programmable Buttons:** Customize functions for various in-game actions.
- **Multi-Color RGB Backlighting:** Personalize your mouse with up to 16.8 million color options.
- **On-the-Fly CPI & Lift-Off Distance Adjustment:** Adapt sensitivity and tracking distance instantly without software.
- **One-to-One Step Scroll Wheel:** Ensures precise scrolling for weapon selection or utility use.
- **Cable String Relief:** Upward-pointing cable relief minimizes drag and prevents cable wear.
- **Smooth Glides:** Designed for effortless movement across various mouse pads.

- **Cross-Platform Gear Software 2.0:** Advanced software for comprehensive customization on Windows and macOS.

PACKAGE CONTENTS

Your Fnatic Clutch 2 Pro Gaming Esports Mouse package should contain the following items:

- Fnatic Clutch 2 Pro Gaming Esports Mouse
- Quick Start Guide (this manual)

SETUP GUIDE

Follow these steps to set up your Fnatic Clutch 2 mouse:

1. **Connect the Mouse:** Plug the USB connector of the Fnatic Clutch 2 mouse into an available USB port on your computer (PC or Mac).
2. **Driver Installation:** Your operating system (Windows or macOS) will automatically detect and install the necessary drivers. This process typically completes within a few moments.
3. **Install Fnatic Gear Software (Optional but Recommended):** For full customization of RGB lighting, button assignments, CPI settings, and profiles, download and install the latest Fnatic Gear software from the official Fnatic website.

Once connected, the mouse will be ready for basic use. For advanced features and personalized settings, software installation is required.

OPERATING YOUR MOUSE

Basic Functions

- **Left Click:** Primary action button.
- **Right Click:** Secondary action button.
- **Scroll Wheel:** Scroll up or down. Can also be pressed for a middle-click function.
- **Side Buttons:** By default, these buttons perform forward and backward navigation in web browsers. Their functions can be customized via the Fnatic Gear software.

On-the-Fly CPI Adjustment

The Fnatic Clutch 2 allows you to adjust your CPI (sensitivity) settings directly on the mouse without needing to open the software. The dedicated CPI button, typically located behind the scroll wheel, cycles through pre-configured CPI stages. The RGB lighting on the mouse may change to indicate the current CPI profile.

Note: Default CPI stages and their corresponding colors can be customized in the Fnatic Gear software.

Lift-Off Distance (LOD) Adjustment

The mouse supports on-the-fly adjustment of the Lift-Off Distance. This feature allows you to set how high the mouse can be lifted from the surface before tracking stops, preventing unwanted cursor movement during repositioning. Refer to the Fnatic Gear software for specific instructions on how to configure and activate LOD settings.

FNATIC GEAR SOFTWARE

The Fnatic Gear software (version 2.0) unlocks the full potential of your Clutch 2 mouse. It is compatible with both Windows and macOS operating systems.

Downloading and Installing

1. Visit the official Fnatic website: fnatic.com/gear
2. Navigate to the support or downloads section for the Clutch 2 mouse.
3. Download the latest version of the Fnatic Gear software.
4. Follow the on-screen instructions to complete the installation.

Customization Options

- **Button Reassignment:** Program all 6 buttons with custom macros, keyboard functions, or multimedia controls.
- **RGB Lighting:** Choose from a wide spectrum of colors and lighting effects for the Fnatic logo and scroll wheel.
- **CPI Settings:** Define multiple CPI stages (up to 12,000 CPI) and assign them to the on-the-fly CPI button.

- **Lift-Off Distance:** Fine-tune the LOD to your preference.
- **Polling Rate:** Adjust the polling rate for faster response times.
- **Profiles:** Create and save multiple profiles for different games or applications, and link them to launch automatically.

MAINTENANCE AND CARE

- **Cleaning:** Use a soft, dry cloth to wipe the mouse surface. For stubborn dirt, slightly dampen the cloth with water. Avoid harsh chemicals or abrasive materials.
- **Sensor Cleaning:** Gently clean the optical sensor on the bottom of the mouse with a cotton swab to ensure optimal tracking performance.
- **Cable Management:** Avoid sharp bends or excessive pulling on the cable to prevent damage. Utilize the cable string relief to minimize stress on the cable connection.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

Mouse Not Responding

- Ensure the USB cable is securely plugged into your computer.
- Try plugging the mouse into a different USB port.
- Restart your computer.
- Check if the mouse works on another computer to rule out a system-specific issue.

Inconsistent Tracking or Cursor Jumps

- Clean the optical sensor on the bottom of the mouse.
- Ensure your mouse pad or surface is clean and free of debris.
- Avoid using the mouse on highly reflective or transparent surfaces.
- Adjust the Lift-Off Distance (LOD) settings in the Fnatic Gear software.

Software Not Detecting Mouse

- Ensure the mouse is properly connected to your computer.
- Restart the Fnatic Gear software.
- Reinstall the Fnatic Gear software.
- Check for any operating system updates or conflicts.

TECHNICAL SPECIFICATIONS
