5. OPERATING (HOW TO PLAY)

5.1. Objective

The objective of each challenge is to slide the asteroid pieces and your spaceship until the spaceship can exit the game board through the designated escape route. The escape route is typically an open space on one edge of the board.

5.2. Rules of Play

- All pieces (spaceship and asteroids) can only be moved by sliding them horizontally or vertically along the grooves on the game board.
- Pieces cannot be lifted from the game board.
- Pieces cannot move through other pieces.
- The spaceship must be able to slide completely off the board through the exit point to solve the challenge.

6. MAINTENANCE

- **Cleaning:** To clean the game board and pieces, gently wipe them with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners.
- **Storage:** Always store all game pieces inside the compact game board and secure it with the transparent lid. This protects the pieces and makes the game portable.
- **Durability:** The game is made with high-quality plastic materials designed for long product life. Avoid excessive force when moving pieces.

7. TROUBLESHOOTING

- **Difficulty with a Challenge:** If you find a challenge particularly difficult, double-check that you have set up the pieces exactly as shown in the challenge booklet. Even a slight misplacement can prevent a solution.
- **Checking Solutions:** The challenge booklet includes solutions for all 60 challenges. Refer to these if you are completely stuck or wish to verify your solution.
- **Missing Pieces:** In case of missing or damaged components, please contact SmartGames customer support.
