## 2. SETUP

---

Your ECTO-1 model comes pre-assembled and ready for display. No complex assembly is required.

1. **Unboxing:** Carefully remove the die-cast model from its packaging. Retain packaging for future storage or transport.
2. **Placement:** Place the model on a flat, stable surface away from direct sunlight, extreme temperatures, and high humidity to preserve its finish and details.

## 3. OPERATING FEATURES

---

The ECTO-1 model includes several interactive features:

- **Opening Doors:** The front doors can be opened to reveal the detailed interior.
- **Opening Hood:** The hood can be opened to display the engine compartment.
- **Opening Trunk:** The trunk can be opened for access to the rear storage area.

## 4. MAINTENANCE

---

To ensure the longevity and appearance of your die-cast model:

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For stubborn dirt, slightly dampen the cloth with water (no harsh chemicals) and wipe carefully.
- **Handling:** Handle the model by its main body. Avoid excessive force when opening doors, the hood, or the trunk to prevent damage to hinges or small parts.
- **Storage:** When not on display, store the model in its original packaging or a protective case to prevent dust accumulation and accidental damage.

## 5. TROUBLESHOOTING

---

Most issues with die-cast models are related to handling. If you encounter problems:

- **Stiff Moving Parts:** If a door, hood, or trunk feels stiff, apply gentle, consistent pressure. Do not force it. Over time, the mechanisms may loosen slightly with careful use.
- **Loose Parts:** Small parts may become loose. If a part detaches, it can often be reattached with a small amount of

- model-safe adhesive.
- **Paint Damage:** Avoid scratching the paint. If minor scuffs occur, specialized model car polish may help, but always test on an inconspicuous area first.
