Moen Brecklyn 87557SRS Kitchen Faucet User Manual

Model: 87557SRS

1. PRODUCT OVERVIEW

The Moen Brecklyn 87557SRS Kitchen Faucet is designed to provide exceptional beauty and reliable, innovative performance in your kitchen. Featuring a Spot Resist Stainless finish, this faucet is engineered to resist fingerprints and water spots, ensuring a cleaner appearance. Its thoughtful design balances form and function, making it a seamless addition to modern lifestyles.

2. KEY FEATURES

- **Power Clean Spray Technology:** Delivers 50% more spray power compared to most Moen pulldown and pullout faucets without this technology, enhancing cleaning efficiency.
- **Spot Resist Stainless Finish:** Specially designed to resist fingerprints and water spots, maintaining a pristine look with less effort.
- **Duralock Quick Connect System:** Ensures a fast and secure installation process, simplifying setup.
- **Flexible Pullout Hose:** Provides versatile water delivery and retracts smoothly back into the faucet body after use.
- **Optional Deckplate Included:** Allows for flexible installation on 1-hole or 3-hole sinks.

3. INSTALLATION

The Moen Brecklyn faucet is designed for straightforward installation, featuring the Duralock Quick Connect System. It can be installed on a single-hole sink or a 3-hole sink using the included optional deckplate.

3.1 Pre-Installation Considerations

- Ensure your sink has either 1 or 3 holes for proper installation.

- Verify sufficient clearance under the sink for connections and hose movement.
- Tools required typically include an adjustable wrench, screwdriver, and plumber's putty or silicone sealant.

3.2 Typical Installation Steps (Summary)

1. Turn off water supply at the main shut-off valves.
2. Remove existing faucet (if applicable).
3. Install the deckplate (if using for a 3-hole sink) onto the sink surface.
4. Mount the faucet body through the sink hole(s) and secure it from underneath with the provided mounting hardware.
5. Connect the water supply lines to the faucet and the hot/cold water stops using the Duralock Quick Connect System.
6. Connect the pullout hose to the supply line.
7. Attach the hose weight to the pullout hose to ensure proper retraction.
8. Turn on water supply and check for leaks.

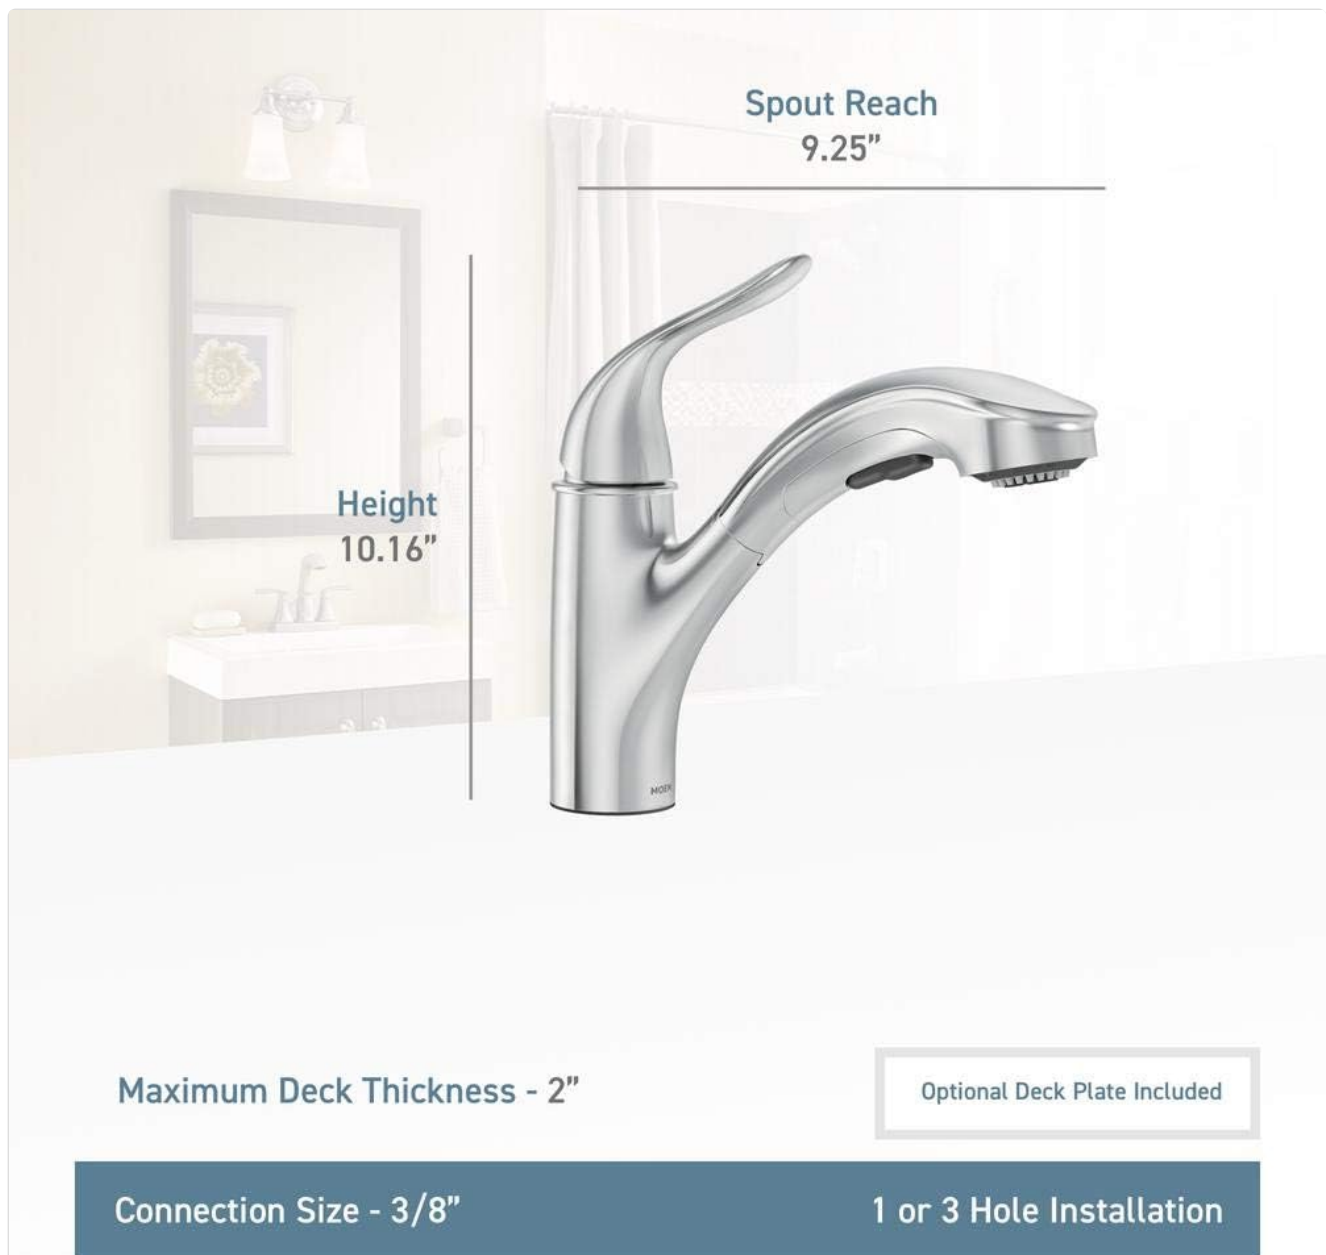

Figure 2: Faucet dimensions and installation details, including spout reach of 9.25 inches and height of 10.16 inches.

4. OPERATING INSTRUCTIONS

The Moen Brecklyn faucet features a single lever handle for easy control of water temperature and flow, along with a versatile pullout spray head.

4.1 Water Flow and Temperature Control

- To turn the water on, lift the single lever handle.
- Move the handle left for hot water and right for cold water.
- Adjust the handle's height to control the water flow intensity.

4.2 Spray Head Operation

- The pullout spray head can be easily extended from the faucet spout for increased reach and flexibility.
- Press the button located on the spray head to switch between a steady stream and the powerful Power Clean spray.
- The flexible hose allows you to direct water precisely where needed, making cleaning and rinsing tasks more efficient.
- After use, the spray head retracts smoothly back into the faucet body.

Figure 3: The pullout spray head in action, demonstrating its extended reach and spray capabilities.

5. MAINTENANCE

Proper maintenance will ensure the longevity and continued performance of your Moen Brecklyn Kitchen Faucet.

5.1 Cleaning the Finish

- Clean the Spot Resist Stainless finish regularly with a soft, damp cloth and mild soap.
- Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- Wipe dry with a soft cloth to prevent water spots.

5.2 Aerator Cleaning

- If water flow becomes restricted, the aerator may need cleaning.
- Unscrew the aerator from the end of the spout.
- Rinse out any debris or mineral deposits. For stubborn deposits, soak the aerator in a 50/50 solution of white vinegar and water.
- Reattach the aerator securely.

6. TROUBLESHOOTING

Refer to the following common issues and their potential solutions.

Problem	Possible Cause	Solution
Low Water Flow	Clogged aerator; partially closed shut-off valves.	Clean the aerator (see Maintenance section); ensure water supply valves are fully open.
Faucet Drips or Leaks	Loose connections; worn out cartridge; loose internal nut.	Check all connections for tightness. If leaking from the handle base, a loose internal nut may be the cause. Consult a professional or Moen's support for cartridge replacement.
Spray Head Does Not Retract Fully	Hose weight is dislodged or obstructed; hose is tangled.	Ensure the hose weight is properly positioned and not obstructed under the sink. Untangle any kinks in the hose.

7. SPECIFICATIONS

Attribute	Detail
Brand	Moen
Model Name	Brecklyn
Part Number	87557SRS
Finish Type	Spot Resist Stainless
Material	Metal
Mounting Type	Deck Mount
Number of Handles	1 (Lever)
Hole Count	3 (with optional deckplate)
Spout Height	7.8 Inches

Attribute	Detail
