- **Bench feels wobbly:**

- Ensure all screws and nuts are fully tightened.
- Verify the bench is placed on a flat, even surface.

- **Creaking sounds:**

- As a natural bamboo product, minor creaking sounds are normal, especially when weight is applied. This typically does not affect structural integrity.

- Re-check the assembly instructions and ensure all parts are oriented correctly.
- Do not force parts together; if a part does not fit, re-examine the diagram.
