- **Versatile Storage:** Ideal for storing clothing, linens, and other fabric items in closets, dorm rooms, or bedrooms.
- **Classic White Color:** A neutral white finish that complements any decor.

2. SETUP

The Mainstays Standard Plastic Hangers require minimal setup. They are ready for immediate use upon removal from their packaging.

Unpacking and Initial Inspection:

1. Carefully remove the hangers from their retail packaging.
2. Inspect each hanger for any signs of damage or manufacturing defects. While durable, plastic items can sometimes be affected during transit.
3. Dispose of packaging materials responsibly.

3. OPERATING INSTRUCTIONS

Using your Mainstays hangers is straightforward. Follow these guidelines for optimal use:

- **Hanging Garments:** Place shirts, blouses, dresses, or other garments over the main bar of the hanger. Ensure the garment's shoulders align with the hanger's shape to prevent stretching or creasing.
- **Utilizing Grooves:** The hangers feature small grooves on the top surface of the shoulder areas. These are designed to hold straps from tank tops, camisoles, or dresses securely, preventing them from slipping off.
- **Pants and Skirts:** While primarily designed for tops, lightweight pants or skirts can be folded over the main bar. For heavier items, consider using specialized hangers with clips.
- **Weight Capacity:** These hangers are suitable for standard adult clothing. Avoid overloading with excessively heavy items like multiple coats or wet towels, as this may cause bending or breakage over time.

4. MAINTENANCE

Proper care will extend the life of your Mainstays hangers.

- **Cleaning:** If hangers become dusty or dirty, wipe them clean with a damp cloth. A mild soap solution can be used for stubborn marks, followed by rinsing and air drying.
- **Storage:** Store unused hangers in a dry place away from direct sunlight to prevent material degradation over time.
- **Avoid Extreme Temperatures:** Do not expose hangers to extreme heat or cold, as this can affect the plastic's integrity and lead to brittleness or warping.

5. TROUBLESHOOTING

Here are solutions to common issues you might encounter:

Problem	Possible Cause	Solution
Hanger breaks easily.	Overloading with heavy items; impact damage.	Avoid hanging excessively heavy garments. Handle with care to prevent drops or impacts.
Clothes slip off the hanger.	Slippery fabric; garment not properly placed.	Ensure garment straps are placed in the hanger's grooves. For very slippery fabrics, consider using velvet or non-slip hangers.
Hanger warps or bends.	Exposure to high heat; prolonged heavy load.	Store hangers away from direct heat sources. Distribute garment weight evenly.
