## Triumph 8541791605

# Triumph Digital Body Weight Bathroom Scale Instruction Manual

MODEL: 8541791605

## Introduction

---

Thank you for choosing the Triumph Digital Body Weight Bathroom Scale. This manual provides essential information for the safe and effective use of your new scale. Please read it thoroughly before operation and retain it for future reference.

## Important Safety Information

---

- Always use the scale on a hard, flat surface. Using it on soft surfaces like carpet may affect accuracy.
- Avoid using the scale on wet or slippery surfaces to prevent accidents.
- The scale is made with tempered glass. While durable, avoid dropping heavy objects on it or subjecting it to extreme impact, as this may cause the glass to shatter.
- Do not immerse the scale in water or use harsh chemical cleaners. Wipe with a damp cloth.
- This scale is intended for personal use to monitor body weight. It is not a medical device.

## Package Contents

---

Please check the package for the following items:

- Triumph Digital Body Weight Bathroom Scale
- 2 x AAA Batteries (pre-installed or included separately)
- Instruction Manual

## Product Features

- **Precise Weight Measurement:** Equipped with 4 advanced high-precision sensors, ensuring accurate readings within 0.2 lb/0.1 kg.
- **Step-On Technology:** Instantly displays your weight as soon as you step on the scale, eliminating the need for manual on/off.
- **Durable Construction:** Crafted with 6mm impact-resistant tempered glass, 4 times stronger than ordinary glass, providing exceptional sturdiness and safety.
- **Versatile Units:** Supports 3-unit modes - kg, lb, and st:lb, catering to various user preferences.
- **Auto Functions:** Features auto-zero, auto-on, and auto-off functions for added convenience and extended battery life.

# HIGH PRECISION GUARANTEES

Four sensors are used to maximize measurement accuracy

## HIGH SENSITIVITY SENSORS

The multi-layered double M-structure sensors achieve an accuracy of 1/3000 of 400lbs at 6g matching with 10.2\*11.8 inches tempered surface to enable more even weight spreading.

## SUPER BRIGHT LCD BULBS

Utilizing the most advanced light-emitting technology, the scale enables clear screen reading in any environment.

## 24 MILITARY LEVER ECU

24 military lever high frequency electronics Control Units (ECU) are set with a scientific smart algorithm which could present more accurate measurement data

## Setup

- Battery Installation:** Open the battery compartment on the underside of the scale. Insert the 2 AAA batteries, ensuring correct polarity (+/-). Close the compartment securely.
- Initial Placement:** Place the scale on a hard, flat, and stable surface. Avoid carpets or uneven flooring, which can affect accuracy.
- Unit Selection:** On the underside of the scale, locate the unit switch button. Press it to cycle through the available units: kilograms (kg), pounds (lb), and stone-pounds (st:lb). Select your preferred unit before first use.

## Operating Instructions

1. **Step-On Activation:** Gently step onto the center of the scale. The scale will automatically turn on and display '0.0' or your last recorded weight before stabilizing to your current weight.
2. **Taking a Measurement:** Stand still on the scale with your weight evenly distributed. The display will flash your final weight several times before locking the reading.
3. **Auto-Off:** The scale will automatically turn off after a few seconds of inactivity to conserve battery life.

## Maintenance and Care

- **Cleaning:** Wipe the scale surface with a soft, damp cloth. Do not use abrasive cleaners or immerse the scale in water.
- **Storage:** Store the scale in a cool, dry place. Avoid extreme temperatures or high humidity.
- **Battery Replacement:** When the 'Lo' indicator appears on the display, it's time to replace the batteries. Use 2 new AAA batteries.

## Troubleshooting

Problem	Possible Cause	Solution
Display shows 'Lo'	Low battery power.	Replace the 2 AAA batteries.
Display shows 'Err'	Overload. The maximum weight capacity has been exceeded.	Remove weight from the scale. The maximum capacity is 400 lbs (180 kg).
Inaccurate readings	Scale is on an uneven or soft surface (e.g., carpet). Scale has been moved.	Place the scale on a hard, flat surface. If moved, step on the scale briefly to allow it to calibrate to '0.0' before taking a measurement. Ensure feet are centered.
No display	Batteries are dead or incorrectly installed.	Check battery installation and replace if necessary.

## Specifications

- **Model Number:** 8541791605
- **Brand:** Triumph
- **Color:** Black
- **Material:** 6mm Tempered Glass
- **Weight Capacity:** Up to 400 lbs (180 kg)
- **Measurement Units:** kg, lb, st:lb
- **Display Type:** Backlit LCD
- **Power Source:** 2 x AAA Batteries (included)
- **Special Feature:** Step-On Technology, Auto-On/Off, Auto-Zero
- **Package Dimensions:** 10.59 x 10.59 x 1.14 inches
- **Item Weight:** 1.83 Pounds
