Finish Quantum Dishwasher Pods User Manual

Model: B07CVWG5L8

PRODUCT OVERVIEW

Finish Quantum Dishwasher Pods are an advanced dishwashing detergent designed to deliver a powerful clean and a virtually spot-free shine. These pods are formulated to tackle 24-hour dried-on stains and tough grease, eliminating the need for pre-rinsing. Each pod features a unique three-chamber design for comprehensive cleaning.

Key Features

- **Advanced Cleaning:** Formulated to remove 24-hour dried-on stains and stuck-on food.
- **2X Grease Fighting Power:** Effectively cuts through tough grease.
- **Virtually Spot-Free Shine:** Delivers sparkling results on dishes, from delicate glassware to stainless steel pans.
- **No Pre-Rinse Needed:** Saves time and water by eliminating the need to pre-rinse dishes.
- **Three-Chamber Design:** Features a powder to scrub, a gel to cut grease, and a Powerball for shine.
- **Effortless Use:** Pods dissolve easily, require no pre-measuring, and come in resealable packaging.

USAGE INSTRUCTIONS

Setup

Finish Quantum Dishwasher Pods are designed for straightforward use. No complex setup is required for the product itself, beyond ensuring your dishwasher is ready for a cycle and the detergent dispenser is clean and dry.

Operating

To use Finish Quantum Dishwasher Pods, follow these steps:

1. Handle with dry hands only.
2. Place one tab in the main detergent cup of your dishwasher.
3. Ensure both the tab and the detergent cup are dry before closing the dispenser.
4. Do not pierce, pull apart, or unwrap the tabs. The film is designed to dissolve.
5. Follow your dishwasher manufacturer's instructions for loading and selecting the appropriate cycle.
6. Always reseal the pack after use to protect the remaining pods from moisture.

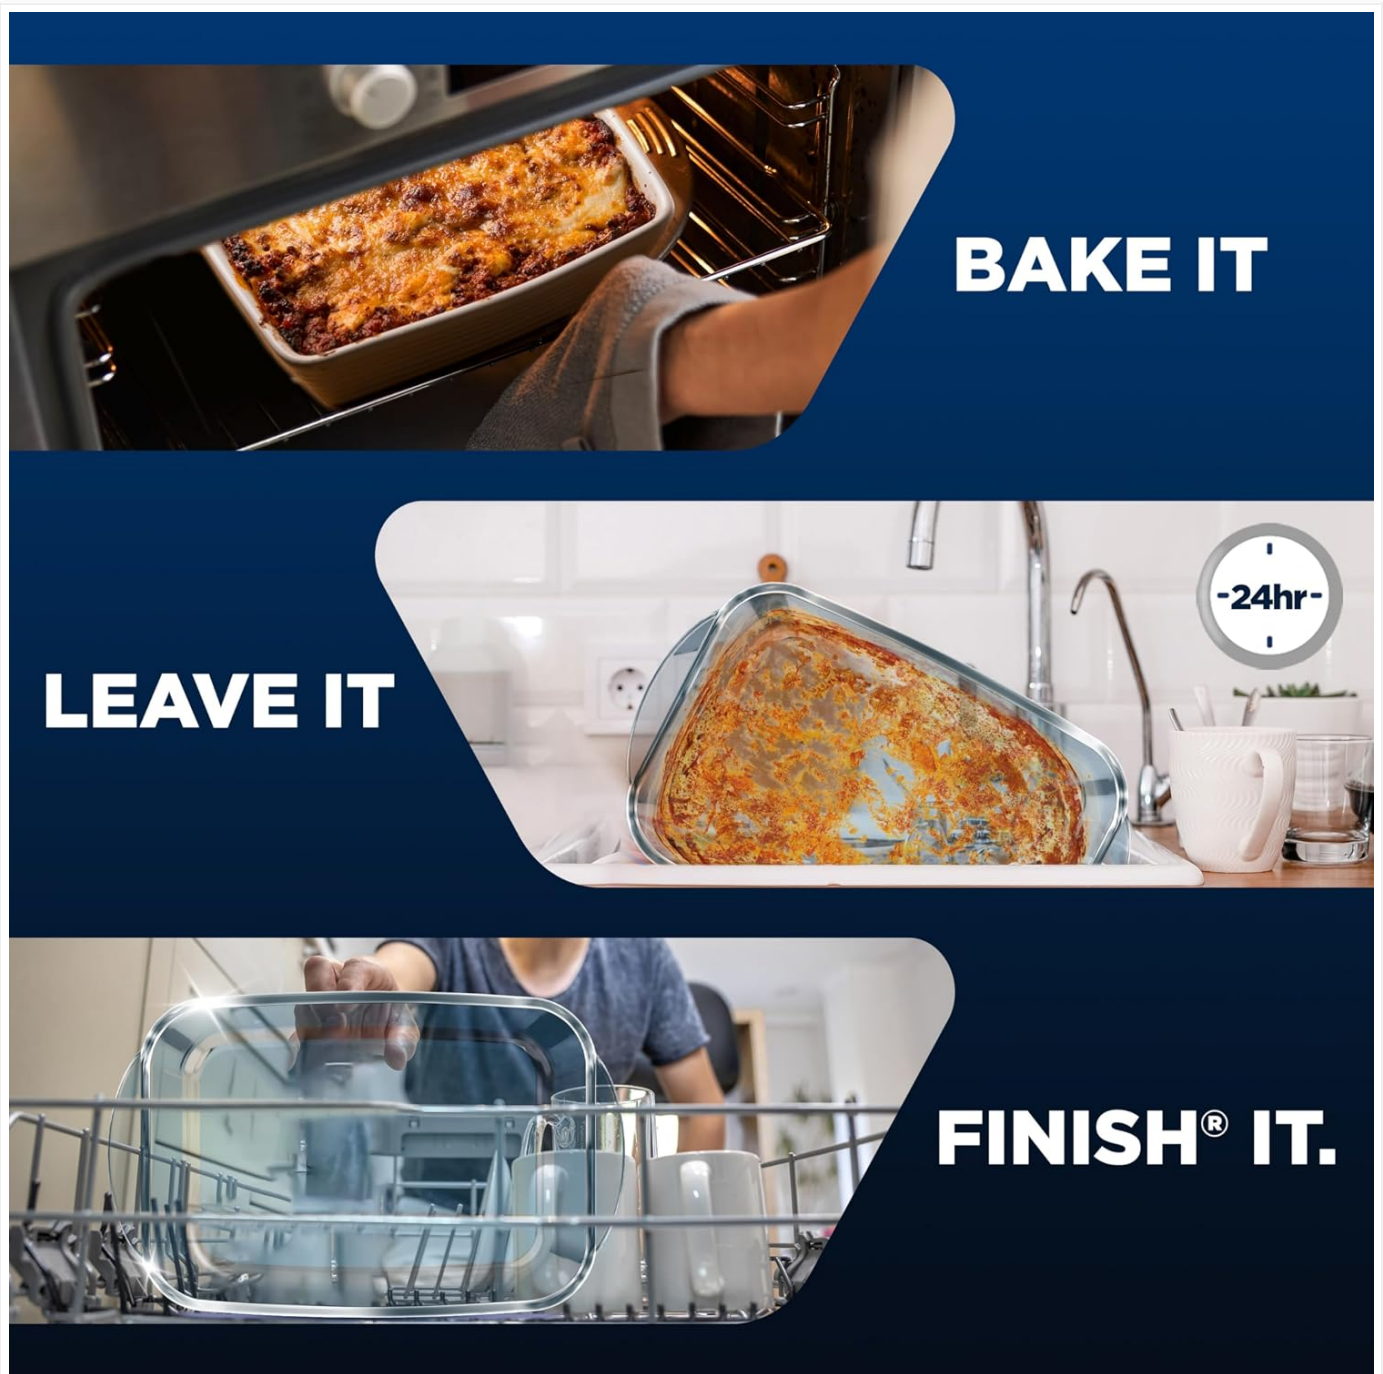

Image: A visual sequence demonstrating the product's effectiveness: a dish being baked, then left with dried-on food for 24 hours, and finally, the same dish being loaded into a dishwasher, implying a complete clean without pre-rinsing.

For best results in hard water conditions, it is recommended to use Finish Jet Dry Rinse Aid in conjunction with the pods.

MAINTENANCE AND CARE

Proper storage of your Finish Quantum pods and regular maintenance of your dishwasher are crucial for optimal performance and longevity.

Product Storage

Store the pods in their original resealable packaging in a cool, dry place, away from direct heat and moisture. This prevents the pods from clumping together or dissolving prematurely due to humidity.

Dishwasher Maintenance

To ensure your dishwasher continues to perform at its best and to prevent residue buildup, consider using a dedicated dishwasher cleaner periodically. This helps maintain the cleanliness of the machine itself, contributing to better dishwashing results.

TROUBLESHOOTING

If you encounter issues with your dishwashing results, consider the following common solutions:

- **Residue on Dishes:** Ensure the detergent dispenser is not blocked by dishes or cutlery. Verify that your dishwasher's spray arms are not obstructed and can rotate freely. Hard water can also cause residue; using Finish Jet Dry Rinse Aid can help.
- **Pod Not Dissolving:** Confirm that the detergent dispenser was completely dry before placing the pod. Ensure the water inlet to the dispenser is not blocked and that the water temperature is sufficient for the cycle.
- **Cloudy Glasses:** This is often a sign of hard water. Using Finish Jet Dry Rinse Aid is highly recommended to prevent water spots and achieve a sparkling finish.
- **Unpleasant Odor in Dishwasher:** Regular use of a dishwasher cleaner can help eliminate odors and maintain a hygienic machine.
