CC KITS EMMA-0050

CC KITS Emma Crib Full-Size Conversion Kit Instruction Manual

Model: EMMA-0050 | Brand: CC KITS

1. INTRODUCTION

This instruction manual provides detailed guidance for converting your Delta Children Emma Crib 'N' More (#327150) convertible crib into a full-size bed using the CC KITS Full-Size Conversion Kit. This kit is designed to extend the usability of your crib, providing a safe and comfortable full-size sleeping solution for your growing child.

EMMA 4-IN-1 CRIB

2. SAFETY INFORMATION

- Always follow all assembly instructions carefully. Improper assembly can lead to instability and potential hazards.
- Ensure all hardware is securely tightened before use. Periodically check and re-tighten hardware as needed.
- This conversion kit features water-based, non-toxic finishes, free from lead and phthalates, ensuring a safe sleep environment.
- The converted full-size bed supports up to 600 pounds when paired with additional slats (sold separately). Do not exceed this weight limit.
- Keep small parts and packaging materials away from children during assembly.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly and contact customer support.

- Two (2) Wooden Bed Rails
- Four (4) Slats
- Hardware Pack (bolts, washers, nuts, etc.)
- Instruction Sheet (this document)

4. COMPATIBILITY GUIDE

This Full-Size Conversion Kit is specifically designed to be compatible with the **Emma Crib 'N' More (#327150) Convertible Crib by Delta Children**. Ensure your crib model matches this specification for proper fit and safe use.

If your crib model or finish is not listed, please contact CC KITS customer support for assistance in finding the correct conversion kit for your specific crib.

5. SETUP AND INSTALLATION

The conversion process from crib to full-size bed is designed to be straightforward, typically taking 20-30 minutes. You will utilize your existing crib's headboard and footboard to form the ends of the new full-size bed frame.

5.1. Preparation

1. Carefully unpack all components and verify against the 'Package Contents' section.
2. Ensure you have adequate space for assembly and that the area is clean and free of obstructions.
3. Gather necessary tools (e.g., Allen wrench, screwdriver - typically included in hardware pack).

5.2. Assembly Steps

1. **Disassemble Crib Sides:** Carefully remove the side rails of your Emma Crib 'N' More, retaining the headboard and footboard. Refer to your original crib manual for specific disassembly instructions if needed.
2. **Attach Bed Rails:** Align one wooden bed rail with the pre-drilled holes on the headboard. Insert the provided hardware (bolts, washers) and loosely tighten. Repeat this step for the second bed rail on the footboard.
3. **Connect Headboard and Footboard:** Connect the other end of the bed rails to the footboard, aligning holes and inserting hardware. Ensure the bed rails are oriented correctly (e.g., slat supports facing inward).
4. **Tighten All Hardware:** Once all bed rails are in place, securely tighten all bolts using the appropriate tools. Do not

overtighten.

5. **Install Slats:** Place the provided slats across the bed rails, ensuring they are evenly spaced and rest securely on the support ledges. The kit includes four slats; additional slats may be purchased separately for enhanced support.
6. **Add Mattress:** Place a standard full-size mattress onto the installed slats.

Image 5.1: Illustration of adding slats, an optional safety rail, and a mattress to the converted bed frame.

5.3. Optional Add-ons

You can enhance your setup with optional add-ons (sold separately):

- **Safety Bed Rail Guard:** For toddlers transitioning to a larger bed, a safety rail guard can provide added security.
- **Extra Slats:** To increase mattress support and weight capacity, additional slats can be purchased.
- **Mattress:** A full-size mattress is required for the converted bed.

6. OPERATING AND USAGE

6.1. Weight Capacity

The full-size bed, when properly assembled with the conversion kit and sufficient slats, is designed to support up to 600 pounds. Ensure this limit is not exceeded to maintain structural integrity and safety.

6.2. Mattress Support

For optimal support and mattress longevity, it is recommended to use slats rather than a box spring with this conversion kit. Slats provide a firm and even foundation for your mattress.

Image 6.1: Visual comparison of mattress height when using slats versus a box spring.

7. CARE AND MAINTENANCE

To maintain the appearance and longevity of your conversion kit, follow these care instructions:

- **Cleaning:** Wipe surfaces with a damp cloth. Avoid using abrasive cleaners or harsh chemicals, which can damage the finish.
- **Inspections:** Periodically inspect all hardware and structural components for tightness and wear. Re-tighten any loose bolts.
- **Environment:** Avoid prolonged exposure to direct sunlight or extreme temperature changes, which can cause wood to warp or crack.

8. TROUBLESHOOTING

If you encounter any issues during assembly or use, consider the following:

- **Instability:** Ensure all bolts are fully tightened. Verify that the bed rails are correctly seated in the headboard and footboard slots.
- **Missing Parts:** Double-check the package contents against the list in Section 3. If parts are genuinely missing, contact customer support.
- **Difficulty Assembling:** Review the assembly steps in Section 5. Ensure you are using the correct hardware for each connection.

For persistent issues, please refer to the 'Warranty and Support' section for contact information.

9. PRODUCT SPECIFICATIONS

Brand	CC KITS
Model Number	EMMA-0050-Grey

Compatible Crib	Delta Children Emma Crib 'N' More (#327150)
Material	100% Solid Wood
Color	Grey
Product Dimensions (Rails)	75"W x 5"H
Weight Capacity	Up to 600 lbs (with additional slats)
UPC	750325978293

Image 9.1: The conversion kit is crafted from durable solid wood.

10. WARRANTY AND SUPPORT

10.1. Lifetime Warranty

CC KITS provides a lifetime warranty for this Full-Size Conversion Kit, ensuring long-lasting durability and peace of mind. This warranty covers manufacturing defects under normal use. Please retain your proof of purchase.

10.2. Customer Support

For any questions, assistance with assembly, or warranty claims, please contact CC KITS customer support. You can typically find contact information on the product packaging or through the retailer where the product was purchased.

When contacting support, please have your product model number (EMMA-0050) and proof of purchase readily available.
