SETUP

1. Charging Your Device

Before first use, fully charge your Kindle Paperwhite. Connect the included USB 2.0 charging cable to the device and to a computer or a 5W USB power adapter (sold separately). A full charge takes approximately 4 hours via computer or less than 3 hours with a 5W USB power adapter.

2. Initial Setup and Wi-Fi Connection

Upon powering on, follow the on-screen instructions to select your language, connect to a Wi-Fi network, and register your device to an Amazon account. Wi-Fi connectivity supports 802.11b, 802.11g, or 802.11n standards with WEP, WPA, and WPA2 security.

OPERATING INSTRUCTIONS

1. Reading on Your Kindle
