Energizer L522

Energizer L522 Lithium 9V Battery User Manual

Model: L522

INTRODUCTION

Thank you for choosing Energizer L522 Lithium 9V Batteries. These batteries are engineered to provide long-lasting, reliable power for your critical devices. Energizer Lithium 9V batteries are ideal for smoke detectors, carbon monoxide detectors, and other high-drain electronics, offering superior performance in extreme temperatures and a long shelf life.

SAFETY INFORMATION

Please read and follow these safety instructions carefully to prevent personal injury or damage to your devices.

- **DO NOT** recharge, disassemble, heat, or incinerate batteries.
- **DO NOT** short-circuit the battery terminals.
- **DO NOT** mix old and new batteries, or different types of batteries.
- Keep batteries out of reach of small children. If swallowed, seek medical attention immediately.
- Store batteries in a cool, dry place away from direct sunlight and extreme temperatures.
- Dispose of used batteries according to local regulations.
- Remove batteries from devices that will not be used for extended periods.

SETUP

Installing your Energizer L522 Lithium 9V battery is a straightforward process:

1. Identify the battery compartment on your device.
2. Open the battery compartment cover.
3. Observe the polarity markings (+ and -) inside the compartment.
4. Insert the Energizer L522 Lithium 9V battery, ensuring the positive (+) terminal aligns with the positive marking and the negative (-) terminal aligns with the negative marking.
5. Close the battery compartment cover securely.

OPERATING

Once installed, the Energizer L522 Lithium 9V battery will power your device. These batteries are designed for consistent performance. For optimal operation:

- Ensure the device is compatible with 9V lithium batteries.
- Regularly check your device's battery indicator, if available, to monitor power levels.
- Replace batteries promptly when the device indicates low power or ceases to function correctly.

MAINTENANCE

Proper maintenance ensures the longevity and safety of your batteries:

- Keep battery terminals clean and free from dirt or corrosion. Use a dry cloth to wipe them if necessary.
- Store unused batteries in their original packaging or a designated battery organizer to prevent short-circuiting.
- Avoid storing batteries with metal objects that could cause a short circuit.

TROUBLESHOOTING

If your device is not functioning as expected with the Energizer L522 Lithium 9V battery, consider the following:

- **Device Not Powering On:**
 - Check that the battery is inserted with correct polarity (+ and -).
 - Ensure the battery compartment is closed securely.
 - Verify that the battery terminals are clean and making proper contact.
 - Replace the battery with a new one to rule out a depleted battery.
- **Short Battery Life:**
 - Confirm that your device is not experiencing an unusual power drain.
 - Ensure the battery is not past its expiration date.
 - Consider the operating environment; extreme temperatures can affect battery performance.

SPECIFICATIONS

Feature	Detail
Battery Type	Lithium 9V
Model Number	L522
Nominal Voltage	9 Volts
Item Weight	Approximately 1.28 ounces (36 grams)
Manufacturer	Energizer Battery, Inc.
Key Features	Long-lasting, reliable power, suitable for high-drain devices.

WARRANTY INFORMATION

Energizer batteries are manufactured to high-quality standards. For specific warranty details, please refer to the packaging or visit the official Energizer website. Generally, batteries are warranted against defects in materials and workmanship under normal use.

SUPPORT

For further assistance, technical support, or inquiries regarding your Energizer L522 Lithium 9V batteries, please contact Energizer customer service. Contact information can typically be found on the product packaging or on the official Energizer website.
