VEVOR 14Wx20.3H Outdoor Kitchen Drawers

VEVOR 14x20.3 Inch Outdoor Kitchen Triple Drawers Stainless Steel Instruction Manual

Model: 14Wx20.3H Outdoor Kitchen Drawers

1. PRODUCT OVERVIEW

The VEVOR 14x20.3 Inch Outdoor Kitchen Triple Drawers are designed to provide efficient and organized storage for your outdoor cooking area. Constructed from durable stainless steel, this flush-mount unit features three spacious drawers, each equipped with smooth-gliding rails and a self-locking mechanism. Its seamless design helps protect contents from outdoor elements, making it suitable for BBQ islands and outdoor kitchens.

2. SAFETY INFORMATION

- Always wear appropriate personal protective equipment (PPE) such as gloves and eye protection during installation.
- Ensure the installation surface is stable and capable of supporting the weight of the drawer unit and its contents.
- Handle the stainless steel unit with care to avoid sharp edges and potential injuries.
- Do not overload the drawers. Refer to specifications for maximum load capacity per drawer.
- Keep children and pets away from the installation area.
- Avoid pulling out all drawers simultaneously to maintain stability and prevent tipping.

3. PACKAGE CONTENTS

Verify that all components are present and undamaged before proceeding with installation.

- 1 x Outdoor Kitchen Drawer Unit

- 1 x Venting Panel
- 3 x Zinc Alloy Handles
- 6 x Stainless Steel Screws
- 1 x User Manual

5. SETUP AND INSTALLATION

Proper installation is crucial for the functionality and longevity of your outdoor kitchen drawers. Follow these steps carefully:

- 1. Prepare the Opening:** Measure the dimensions of the cutout in your outdoor kitchen island. Ensure the opening matches the specified cutout size (12.2"W x 18.5"H x 23.2"D) for a flush fit. The opening should be clean and free of debris.
- 2. Insert the Unit:** Carefully slide the drawer unit into the prepared opening. Ensure it is level and flush with the

surrounding surface.

3. **Secure the Unit:** Use the provided stainless steel screws to secure the drawer unit to the frame of your outdoor kitchen island. Ensure all screws are tightened securely.
4. **Install Handles:** Attach the zinc alloy handles to each drawer using the appropriate fasteners.
5. **Install Venting Panel (if applicable):** If your setup requires additional ventilation, install the venting panel in a suitable location near the drawer unit.

DIY Your Outdoor Kitchen

Come with all the hardware and instruction
for a hassle-free setup

Note: Please avoid pulling out all drawers at the same time.

Video 1: This video demonstrates the installation process for VEVOR Outdoor Kitchen Drawers, showing how to measure the opening, insert the unit, and secure it into a brick outdoor kitchen structure.

6. OPERATING INSTRUCTIONS

The VEVOR outdoor kitchen drawers are designed for ease of use and secure storage.

- **Opening Drawers:** Gently pull the zinc alloy handle to open a drawer. The smooth sliding rails ensure effortless movement.
- **Closing Drawers:** Push the drawer firmly until it clicks into place. The self-locking design ensures the drawer remains securely closed, preventing accidental opening.
- **Storage:** Utilize the three tiers for organized storage of various kitchen items such as utensils, spices, and cookware.

3-Tier Spacious Space

Keep grilling essentials organized and within reach

7. MAINTENANCE

Regular maintenance will ensure your stainless steel drawers remain in optimal condition.

- **Cleaning:** Wipe down the stainless steel surfaces regularly with a soft cloth and a mild detergent or stainless steel cleaner. For stubborn stains, use a non-abrasive cleaner. Always wipe in the direction of the grain to prevent streaking.
- **Drying:** After cleaning, dry the surfaces thoroughly to prevent water spots and potential corrosion.
- **Rust Prevention:** While stainless steel is resistant to rust, prolonged exposure to harsh chemicals, saltwater, or certain environmental conditions can cause surface rust. Clean any rust spots immediately with a stainless steel rust remover and follow with a protective polish.
- **Sliding Rails:** Periodically check the sliding rails for any debris or obstructions. Clean and lubricate them with a silicone-based spray if necessary to maintain smooth operation.

Lazy-Friendly Maintenance

With a simple wipe, your drawer stays spotless

Image 5: A hand wiping down the stainless steel drawer unit, demonstrating easy and lazy-friendly maintenance.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
Drawers are difficult to open or close.	Debris in sliding rails, lack of lubrication, or misalignment.	Clean debris from rails. Apply a silicone-based lubricant. Check if the unit is level and adjust if necessary.

Drawers do not close completely.	Obstruction inside the drawer or misalignment of the self-locking mechanism.	Remove any obstructions. Inspect the self-locking mechanism for damage or misalignment.
Surface rust appears on the stainless steel.	Exposure to corrosive substances, saltwater, or lack of proper cleaning.	Clean immediately with a stainless steel rust remover. Follow with a protective polish. Ensure regular cleaning and drying.
