## INPHIC V780

# INPHIC V780 Wireless Keyboard and Mouse Combo User Manual

Model: V780

## 1. INTRODUCTION

The INPHIC V780 Wireless Keyboard and Mouse Combo offers a convenient and efficient solution for your computing needs. Featuring 2.4GHz wireless technology, an ultra-thin design, silent keys, and rechargeable batteries, this combo is designed for comfort and portability. It is compatible with various operating systems, including Windows, Mac, Android, and Linux.

# ULTRA SLIM DESIGN AND LIGHT WEIGHT

No necessary to buy another battery for replacement

Figure 1: The INPHIC V780 combo highlighting its ultra-slim profile and lightweight design, with dimensions for both the keyboard and mouse.

## 2. PACKAGE CONTENTS

- INPHIC V780 Wireless Keyboard
- INPHIC V780 Wireless Mouse
- USB Nano Receiver (stored inside the mouse)
- USB Charging Cable
- Silicone Keyboard Cover

## 3. SETUP INSTRUCTIONS

1. **Charge the Devices:** Before first use, ensure both the keyboard and mouse are fully charged. Connect the provided USB charging cable to the charging ports on the keyboard and mouse, and then to a USB power source. The charging indicator will illuminate during charging and turn off when fully charged. Charging typically takes 2-3 hours.
2. **Locate the USB Receiver:** The USB nano receiver is conveniently stored in a compartment on the underside of the mouse. Gently slide open the compartment cover to retrieve it.
3. **Connect the Receiver:** Insert the USB nano receiver into an available USB 2.0 port on your computer (PC, Laptop, Desktop, Smart TV, etc.).

4. **Power On:** Turn on the keyboard and mouse using their respective ON/OFF switches. The devices should automatically connect to your computer. No additional drivers are typically required for most operating systems (Plug and Play).

# 2.4G RECEIVER

Offers stable and flexible connectivity.

Figure 3: Demonstration of the 2.4G wireless receiver providing stable connectivity between the keyboard, mouse, and a computer setup.

## Video: Connecting the INPHIC Wireless Combo

Video 1: This video demonstrates the unboxing and simple plug-and-play connection process of the INPHIC Wireless Keyboard and Mouse Combo to a laptop using the USB receiver.

## 4. OPERATING INSTRUCTIONS

### 4.1. 2.4G Wireless Connection

The combo utilizes a stable 2.4GHz wireless connection, providing a transmission distance of up to 10 meters (35 feet). The single USB nano receiver connects both the keyboard and mouse, freeing up USB ports and reducing cable clutter.

### 4.2. Mouse DPI Adjustment

The mouse features 3 adjustable DPI levels (800/1200/1600). Press the DPI button located on the top of the

mouse to cycle through the sensitivity settings, allowing for quicker response and smoother tracking on various surfaces.

### 4.3. Keyboard Multimedia Keys

The keyboard includes 12 multimedia keys, providing instant access to common functions such as media playback controls (play/pause, next/previous track), volume adjustment, internet browser, email, and more. These functions are typically accessed by pressing the 'Fn' key in combination with the corresponding F-key.

Figure 4: The keyboard layout highlighting the 12 multimedia shortcut keys for quick access to various functions.

### 4.4. Silent Design and Typing Experience

Both the keyboard and mouse are designed for silent operation. The mouse uses an advanced sensor for silent clicks, and the keyboard features a scissor-switch structure with low-profile keys for comfortable and quiet typing. This makes the combo suitable for environments where noise reduction is important.

# SCISSOR-SWITCH MORE COMFORTABLE TO TYPE

Anti-splash and ergonomic design for smooth & responsive typing

Figure 5: A close-up of a hand typing on the keyboard and clicking the mouse, emphasizing the scissor-switch keys for comfortable, silent typing and the mouse's durable, quiet clicks.

## Video: Product Features Overview

Video 2: This video provides an overview of the INPHIC Wireless Keyboard and Mouse Combo's key features, including its slim design, silent operation, DPI adjustment, and charging capabilities.

## 5. MAINTENANCE

### 5.1. Charging

Both the keyboard and mouse have built-in high-capacity lithium batteries. A full charge takes approximately 2-3 hours and can provide up to 3 months of use, depending on usage frequency. When the battery is low, the indicator light will flash. Connect the devices to a USB power source using the provided charging cable.

## BUILT-IN RECHARGEABLE BATTERY

No necessary to buy another battery for replacement

Figure 6: The keyboard and mouse connected via USB cables for recharging, indicating their built-in rechargeable batteries.

### 5.2. Energy Saving

To conserve battery life, both the mouse and keyboard will automatically enter sleep mode after 8 minutes of inactivity. To wake them up, simply move the mouse or press any key on the keyboard. For extended periods of non-use, it is recommended to turn off the devices using their ON/OFF switches.

### 5.3. Cleaning

To clean the keyboard and mouse, use a soft, damp cloth. Avoid using harsh chemicals or abrasive materials. The included silicone keyboard cover can be removed and cleaned separately to protect the keys from dust and spills.

## 6. TROUBLESHOOTING

### • No Connection/Lagging:

- Ensure both devices are powered on.
- Check if the USB receiver is securely plugged into a working USB port. Try a different USB port.

- Verify that the devices are charged. Recharge if necessary.
- Move the keyboard and mouse closer to the USB receiver to ensure they are within the 10m transmission range.
- Avoid using the devices on metal surfaces, which can interfere with the wireless signal.

• **Keys Not Responding/Typing Incorrectly:**

- Check battery levels and recharge if low.
- Ensure the keyboard is properly connected via the USB receiver.
- Restart your computer.
- If using the silicone cover, ensure it is correctly aligned and not interfering with key presses.

• **Mouse Cursor Jumps/Erratic Movement:**

- Clean the optical sensor on the underside of the mouse.
- Try adjusting the DPI settings using the DPI button on the mouse.
- Ensure the mouse is used on a suitable surface (not highly reflective or transparent).

## 7. SPECIFICATIONS

Feature	Detail
Connection Method	2.4G Wireless
Transmission Distance	Up to 35 ft (10m)
Interface Type	USB 2.0
Keyboard Battery Capacity	400mAh (Built-in Lithium)
Keyboard Weight	285±5g (approx. 10 oz)
Keyboard Size	284 x 121 x 16.5mm (11.2 x 4.8 x 0.65 inches)
Mouse Battery Capacity	400mAh (Built-in Lithium)
Mouse DPI	800/1200/1600 (Adjustable)
Mouse Weight	85±5g (approx. 3 oz)
Charging Time	Approx. 2-3 hours
Usage Time (Full Charge)	Up to 3 months
Compatibility	PC, Laptop, Windows (XP/7/8/10), Mac, Android, Linux
Color	Grey
