

INIU BI-B41

INIU Portable Charger User Manual

Model: BI-B41

INTRODUCTION

Thank you for choosing the INIU Portable Charger. This slim 10000mAh power bank is designed for high-speed charging of your mobile devices, offering convenience and reliability on the go. It features a unique USB-C in&out port and multiple safety protections to ensure a secure charging experience. Please read this manual carefully to understand the product's features and proper usage.

WHAT'S IN THE BOX

- 1 x INIU 10000mAh Portable Charger
- 1 x 0.3M/1ft USB-A to USB-C Cable
- 1 x Travel Pouch
- 1 x User Manual

PRODUCT OVERVIEW

Figure 1: Front view of the INIU Portable Charger, showing the INIU logo and the illuminated paw print indicator.

The INIU Portable Charger (Model BI-B41) is a compact and lightweight power bank with a 10000mAh capacity. It features multiple ports for versatile charging and a distinctive paw print LED indicator to show battery status. Its slim design makes it highly portable.

Figure 2: Dimensions of the INIU Portable Charger, measuring 5.2 inches in length, 2.7 inches in width, and 0.5 inches in thickness.

The device measures 5.2 x 2.7 x 0.5 inches and weighs 7 ounces, making it one of the thinnest 10000mAh power banks available. This compact size allows for easy portability in pockets or bags.

SETUP

Initial Charging of the Power Bank

Before first use, it is recommended to fully charge your INIU Portable Charger. This ensures optimal performance and battery longevity.

1. Connect the provided USB-A to USB-C cable to the USB-C port on the power bank.

2. Connect the other end of the cable (USB-A) to a compatible USB wall adapter (not included) or a computer's USB port.
3. The paw print LED indicator will illuminate and flash to show the charging progress. Each illuminated paw pad represents approximately 25% of the battery capacity.
4. Once all four paw pads are steadily lit, the power bank is fully charged and ready for use.

ONLY 5% of Power Banks Got USB-C IN&OUT

✓ INIU USB C	✗ Other USB C
IN/OUT 	INPUT 
<ul style="list-style-type: none">✓ Charge All Devices✓ Recharge Power bank Itself	<ul style="list-style-type: none">⚠ Fail to Charge Devices✓ Recharge Power bank Itself

Figure 3: The USB-C port on the INIU Portable Charger supports both input for recharging the power bank and output for charging devices.

The unique USB-C port on this power bank functions as both an input for recharging the power bank itself and an output for charging your devices, offering greater flexibility compared to power banks with USB-C input only.

OPERATING INSTRUCTIONS

Charging Your Devices

The INIU Portable Charger is equipped with one USB-C port (input/output) and two USB-A output ports, allowing you to charge up to three devices simultaneously.

1. Connect your device's charging cable to one of the available output ports on the power bank (USB-A or USB-C).
2. Connect the other end of the cable to your device.
3. The power bank will automatically begin charging your device. The paw print LED indicator will show the remaining battery level.

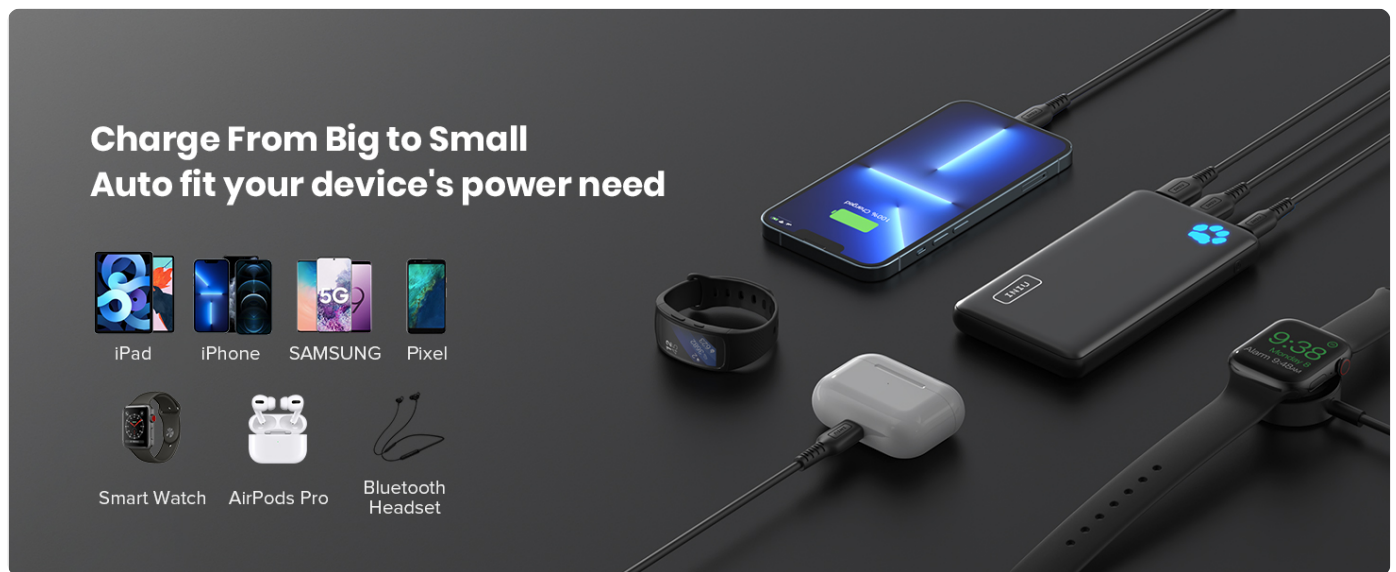

Figure 4: The power bank can charge multiple devices simultaneously, including smartphones, tablets, smartwatches, and earbuds.

The power bank delivers 3A high-speed charging, significantly faster than standard 2.1A chargers. It automatically detects your device's optimal charging speed for efficient power delivery.

Using the Flashlight

The INIU Portable Charger includes a built-in flashlight for convenience.

- To turn on the flashlight, double-tap the power button.
- To turn off the flashlight, double-tap the power button again.

Figure 5: The INIU Portable Charger features a built-in flashlight, useful for travel and low-light conditions.

MAINTENANCE

To ensure the longevity and optimal performance of your INIU Portable Charger, please follow these maintenance guidelines:

- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.

- **Cleaning:** Use a soft, dry cloth to clean the surface of the power bank. Do not use harsh chemicals or abrasive materials.
- **Charging Cycles:** For best battery health, avoid completely draining the power bank before recharging. Recharge it regularly, even if not in frequent use.
- **Avoid Drops:** Protect the device from drops and impacts, which can damage internal components.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Power bank not charging	Cable issue, adapter issue, or power bank fully charged.	Check the charging cable and adapter. Ensure connections are secure. If the paw print indicator is fully lit, the power bank is already charged.
Device not charging from power bank	Low power bank battery, incompatible cable, or device issue.	Recharge the power bank. Try a different charging cable. Ensure your device is compatible with USB charging.
Flashlight not turning on	Incorrect operation or low battery.	Double-tap the power button to activate. Ensure the power bank has sufficient charge.
Slow charging speed	Cable quality, device input limit, or multiple devices charging.	Use the original or a high-quality charging cable. Some devices may have input limits. Charging multiple devices simultaneously may reduce individual charging speeds.

SPECIFICATIONS

Feature	Detail
Model Number	BI-B41
Battery Capacity	10000 Milliamp Hours
