Belkin F7U052dqBLK

Belkin Boost Up Wireless Charging Stand 10W

Model: F7U052dqBLK

Brand: Belkin

PRODUCT OVERVIEW

The Belkin Boost Up Wireless Charging Stand 10W provides optimal wireless charging for a wide range of Qi-enabled devices. It is designed to deliver efficient power, with specific tuning for iPhone (7.5W) and Samsung devices (9W), and up to 10W for other Qi-enabled smartphones like Sony and LG. The stand's design minimizes interference and protects phone functionality during charging. It includes a 5-foot AC adapter for accurate power output.

SETUP GUIDE

1. Unpack Contents

Carefully remove the wireless charging stand and the included AC adapter from the packaging.

2. Connect Power Adapter

Insert the small end of the 5-foot AC adapter cable into the power input port located on the back of the charging stand.

3. Plug into Power Outlet

Plug the other end of the AC adapter into a wall power outlet. Ensure the outlet is easily accessible.

4. Power Indicator

Once connected to power, a small LED indicator light on the front of the charging stand will illuminate, indicating it is powered on and ready for use.

FEATURES & DIMENSIONS

OPERATING INSTRUCTIONS

1. Placing Your Device

Place your Qi-enabled smartphone directly onto the charging surface of the stand. The stand supports both portrait and landscape orientations, allowing you to continue using your phone for calls, texts, apps, or video streaming while it charges.

CHARGE LANDSCAPE OR PORTRAIT

Enjoy access to calls, texts, apps and video while charging.

Image: A smartphone shown charging on the stand, demonstrating both portrait and landscape viewing modes.

Image: An iPhone placed vertically on the charging stand, indicating active charging.

Image: A Samsung phone positioned horizontally on the charging stand, displaying its screen while charging.

2. Charging Confirmation

Your device should immediately begin charging. A charging indicator on your phone's screen will confirm the connection. The LED light on the charging stand will remain illuminated during charging.

3. Optimal Charging

The stand delivers 7.5W for compatible iPhones, 9W for compatible Samsung Galaxy devices, and up to 10W for other Qi-enabled smartphones. Ensure your device is centered on the stand for optimal charging performance.

OPTIMIZED FOR MOST QI DEVICES

Tuned to deliver precise power for a fast charge to most Qi-enabled smartphones.*

Apple

Samsung

LG, Sony, others

*Does not support fast charge for Google Pixel 3 (provides standard 5W charging speed).

Image: An illustration detailing the optimized charging wattage for different phone brands: 7.5W for Apple, 9W for Samsung, and 10W for LG, Sony, and other Qi-enabled devices.

4. Case Compatibility

The Belkin Boost Up Wireless Charging Stand is designed to charge through most lightweight plastic cases up to 3mm thick. For best results, remove any metal attachments, credit cards, or unusually thick cases before charging.

CHARGE THROUGH YOUR CASE

No need to remove your case – charges through most plastic, non-metal cases up to 3mm.

Image: A visual representation showing the ability of the charger to transmit power through phone cases up to 3mm in thickness.

MAINTENANCE

Cleaning

To clean the charging stand, first disconnect it from the power outlet. Use a soft, dry, lint-free cloth to wipe down the surfaces. Do not use abrasive cleaners, solvents, or aerosol sprays, as these may damage the product.

Storage

When not in use for extended periods, store the charging stand in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

Device Not Charging

- **Check Power Connection:** Ensure the AC adapter is securely plugged into both the charging stand and a working wall outlet.
- **Reposition Device:** Adjust the placement of your smartphone on the charging stand. Ensure it is centered and making proper contact with the charging surface.
- **Remove Case:** If your phone has a thick or metal case, remove it and try charging again. The stand charges through cases up to 3mm, but some materials or thicknesses may interfere.
- **Check Compatibility:** Verify that your smartphone is Qi-enabled. Refer to your phone's user manual for wireless charging compatibility.
- **Restart Device:** Sometimes, simply restarting your smartphone can resolve minor charging issues.

Slow Charging

- **Power Output:** Ensure you are using the original Belkin AC adapter provided with the stand. Using a different adapter may result in slower charging speeds.
- **Background Apps:** Close any power-intensive applications running in the background on your smartphone.
- **Phone Usage:** Avoid heavy usage of your phone (e.g., gaming, video streaming) while it is wirelessly charging, as this can slow down the charging process.
- **Google Pixel 3:** Note that this charger provides standard 5W charging speed for Google Pixel 3 devices and does not support fast charge for this model.

LED Indicator Behavior

- **No Light:** The stand is not receiving power. Check all connections and the power outlet.
- **Solid Light:** The stand is powered on and ready to charge or is actively charging a device.

PRODUCT SPECIFICATIONS

Feature	Detail
Brand	Belkin
Model Number	F7U052dqBLK
Color	Black
Connectivity Technology	Wireless (Qi-certified)
Output Power	Up to 10W (7.5W for iPhone, 9W for Samsung, 10W for others)
Compatible Devices	Qi-enabled Smartphones (iPhone XS, XS Max, XR, X, 8, 8 Plus; Samsung Galaxy S9, S9+, S8, S8+, Note9, Note8; LG V30, G6; Sony Experian XZ2; Google Pixel 3 (5W); Microsoft Lumia; BlackBerry Priv)
Product Dimensions	3.58 x 3.91 x 4.84 inches
Item Weight	6.6 ounces
Included Components	Belkin Boost Up Wireless Charging Stand 10W, 5-foot AC Adapter
Special Features	Fast Charge, Lightweight, Charges through cases up to 3mm, Portrait/Landscape charging
