## SETUP AND FIRST USE

---

1. **Unpack:** Carefully remove the whisk from its packaging.
2. **Initial Cleaning:** Before first use, wash the whisk thoroughly with warm, soapy water or place it in the dishwasher. Rinse completely and dry.
3. **Inspection:** Check the whisk for any signs of damage or manufacturing defects. If any issues are found, refer to the Warranty and Support section.

## OPERATING INSTRUCTIONS

---

The Farberware Professional Stainless Steel Whisk is designed for a variety of mixing and blending tasks. Its robust design makes it suitable for both light and heavy-duty use.

- **Whipping:** Ideal for whipping egg whites, cream, or light batters to achieve a fluffy texture.
- **Blending:** Effectively blends ingredients for sauces, gravies, and dressings, ensuring a smooth consistency and preventing lumps.
- **Aerating:** Use to incorporate air into mixtures, such as eggs for omelets or pancake batter.
- **Stirring:** Suitable for general stirring of ingredients in bowls or pots.

## MAINTENANCE AND CARE

---

Proper care will extend the life of your Farberware Professional Stainless Steel Whisk.

- **Cleaning:** The whisk is completely dishwasher safe. For best results, rinse off any food residue before placing it in the dishwasher. Alternatively, hand wash with warm, soapy water and dry thoroughly.
- **Storage:** Store the whisk in a dry place. The handle features a loop for convenient hanging storage, helping to keep your kitchen organized.
- **Avoid Harsh Abrasives:** Do not use abrasive cleaners or scouring pads, as these can scratch the stainless steel surface.

## TROUBLESHOOTING

---

While the Farberware Professional Stainless Steel Whisk is designed for durability, here are some general tips if you encounter minor issues:

- **Bent Wires:** Minor bends in the wires can sometimes occur with heavy use. Gently reshape the wires by hand if necessary. Significant damage may require replacement.
- **Food Residue:** If food becomes stuck between the wires, soak the whisk in warm, soapy water for a few minutes before cleaning. A small brush can help dislodge stubborn particles.
- **Rust Spots:** Although rust-resistant, prolonged exposure to moisture or certain chemicals can cause minor rust spots. These can often be removed with a stainless steel cleaner and a soft cloth.
