MAINTENANCE AND CARE

To ensure the longevity and pristine condition of your Poster Foundry educational poster, follow these simple maintenance guidelines:

- **Cleaning:** Dust the poster regularly with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials, as they may damage the print or paper.
- **Handling:** Always handle the poster by its edges to prevent fingerprints or creases on the printed surface.
- **Storage:** If storing the poster, roll it loosely with the printed side facing outwards to prevent curling, and place it back in its original protective tube or a similar sturdy container. Store in a cool, dry place away from direct sunlight.
- **Environment:** Avoid displaying the poster in areas with high humidity, extreme temperature fluctuations, or direct sunlight, which can cause fading, warping, or damage to the paper.

TROUBLESHOOTING

While the poster is designed for durability, minor issues can sometimes arise. Here are solutions to common concerns:

Poster Not Lying Flat:

- **Issue:** Poster retains a curl after unrolling.
- **Solution:** Gently roll the poster in the opposite direction of the curl, or lay it flat on a clean, hard surface and place heavy, flat objects (like books) evenly across it for 24-48 hours.

Fading or Discoloration:

- **Issue:** Colors appear dull or faded over time.
- **Solution:** This is often caused by prolonged exposure to direct sunlight or strong artificial light. Relocate the poster to an area with indirect light or consider framing it with UV-protective glass.

Damage During Handling:

- **Issue:** Creases, tears, or smudges appear on the poster.
- **Solution:** Handle the poster carefully by the edges. For minor creases, gentle flattening may help. Significant damage may require replacement.
