SETUP

Installation

The Pyle PLRV1725 is designed for universal vehicle roof mounting. Professional installation is recommended. Ensure the mounting location provides adequate clearance for the flip-down screen and does not obstruct the driver's view or vehicle safety features.

- Securely mount the monitor console to the vehicle's roof using appropriate hardware.
- Connect the Power Wiring Harness Cable to the vehicle's power supply (DC 12-24V).
- If applicable, connect the RCA (Audio/Video) Wiring Harness for additional device connectivity.
- The unit may come with interchangeable covers (e.g., black, gray, tan) to match your vehicle's interior. Select and install the appropriate cover.

OPERATING INSTRUCTIONS

Power On/Off

Press the power button on the unit's front panel or the remote control to turn the monitor on or off.

Screen Deployment and Adjustment

The screen can be deployed by pressing the appropriate button on the unit or remote. It features a convenient flip-down mechanism. The viewing angle can be adjusted up to 120 degrees for optimal passenger comfort.

Convenient Flip-Down Screen Access

MAINTENANCE

To ensure the longevity and optimal performance of your Pyle PLRV1725 monitor, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the screen and exterior. For stubborn marks, lightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **Temperature:** Avoid exposing the unit to extreme temperatures, direct sunlight for prolonged periods, or high humidity.
- **Storage:** When not in use, ensure the screen is folded up to protect it from dust and damage.

TROUBLESHOOTING

If you encounter any issues with your Pyle PLRV1725 monitor, please refer to the following basic troubleshooting steps:

- **No Power:** Check all power connections and ensure the vehicle's ignition is on. Verify the power fuse if

applicable.

- **No Picture/Sound:** Ensure the correct input source (HDMI, USB, AV) is selected. Check all cable connections for looseness or damage.
- **Remote Control Not Working:** Replace the remote control batteries. Ensure there are no obstructions between the remote and the monitor's IR receiver.
- **Poor FM Transmission:** Try different FM frequencies to find a clearer signal. Ensure the vehicle's antenna is properly connected.

For more detailed troubleshooting or persistent issues, please contact Pyle customer support.
