OLEVS Ultra-Thin Quartz Analog Watch

MODEL: XLY-S-G5869PH-HL

Introduction

This manual provides essential instructions for the OLEVS Ultra-Thin Quartz Analog Watch, Model XLY-S-G5869PH-HL. Designed for men, this watch features a minimalist aesthetic, a durable leather band, and a precise Japanese quartz movement. Please read this manual carefully to ensure proper use and maintenance of your watch.

Setup

Your OLEVS watch comes ready for use. Follow these steps to prepare your watch for wear:

- 1. Unboxing:** Carefully remove the watch from its packaging.
- 2. Strap Adjustment:** The watch features an adjustable leather strap with a buckle closure. Adjust the strap to fit comfortably around your wrist.
- 3. Setting the Time:**
 - Pull the crown (the small knob on the side of the watch) outwards to the second click.
 - Rotate the crown to move the hands clockwise or counter-clockwise until the correct time is displayed.
 - Once the time is set, push the crown back into its original position to start the watch.
- 4. Setting the Date (if applicable):**
 - Pull the crown outwards to the first click.
 - Rotate the crown to adjust the date.
 - Push the crown back into its original position.

Operating Instructions

Your OLEVS watch is powered by a reliable Japanese quartz movement, ensuring accurate timekeeping. It is designed for daily wear with specific water resistance capabilities.

- **Movement:** The watch utilizes a Japanese Quartz movement, known for its precision and stability.
- **Water Resistance:** This watch is rated for 30 meters (3ATM) water resistance. This means it is suitable for daily use, such as splashes, rain, or brief immersion in water. It is **not** recommended for swimming, diving, or showering with hot water, as steam can compromise the seals.

Maintenance

Proper care will extend the life and appearance of your OLEVS watch.

- **Cleaning:** Wipe the watch case and crystal with a soft, dry cloth. For the leather strap, use a slightly damp cloth if necessary, and allow it to air dry completely.
- **Leather Strap Care:** Avoid prolonged exposure of the leather strap to direct sunlight, extreme temperatures, or excessive moisture to prevent damage and discoloration.
- **Battery Replacement:** The watch uses 1 AAAA battery. When the watch stops or runs inaccurately, the battery may need replacement. It is recommended to have the battery replaced by a qualified watch technician to ensure the water resistance seal is maintained.
- **Storage:** When not in use, store your watch in a cool, dry place, away from direct sunlight and strong magnetic fields.

Troubleshooting

If you encounter any issues with your OLEVS watch, please refer to the following common solutions:

- **Watch Not Running:** Ensure the crown is fully pushed in. If the watch still does not run, the battery may need to be replaced.
- **Inaccurate Time:** If the watch is losing or gaining time significantly, the battery might be low, or the movement may require servicing.
- **Water Inside Watch:** If moisture appears inside the watch, immediately take it to a professional watch repair service to prevent further damage.
