- **Drain Maintenance:** Periodically check and clean the drain to prevent blockages.

Easy to Clean Tubs

WOODBIDGE Lucite acrylic tubs are non-porous, which means that they don't have any tiny holes where bacteria or other nasty things can grow. This design also makes it easy to clean woodbridge tub, and if you notice any dings, scrapes, or scratches in the surface of woodbridge tub, it's usually easy to remove them because WOODUBRIDGE lucite acrylic is relatively malleable. If it comes right down to it, you can even use a power sander to buff out any serious scrapes
