# Hampton Bay Low-Voltage Integrated LED Outdoor Black Landscape Path Light Kit (6-Pack)

Model: 008938105804

## PRODUCT OVERVIEW

---

This manual provides essential information for the installation, operation, and maintenance of your Hampton Bay Low-Voltage Integrated LED Outdoor Black Landscape Path Light Kit. Please read thoroughly before beginning installation. The kit includes six 3-Watt Low Voltage Path Lights, a 45-Watt Dusk to Dawn transformer, and 50 feet of 16 gauge landscape lighting cable. These LED lights offer significant energy savings and a long lifespan compared to traditional halogen lighting.

Image: All components of the Hampton Bay Low-Voltage Integrated LED Outdoor Black Landscape Path Light Kit. This includes six black path lights with stakes, a black transformer unit, a spool of black landscape lighting cable, and a small connector cable.

## PACKAGE CONTENTS

- 6 x Low-Voltage Integrated LED Path Lights
- 1 x 45-Watt Dusk to Dawn Transformer
- 1 x 50 ft. 16 Gauge Landscape Lighting Cable
- Installation Hardware (e.g., connectors, stakes)

## SAFETY INFORMATION

Always follow basic safety precautions when installing and operating electrical equipment. Failure to do so may result in fire, electric shock, or serious injury.

- Ensure power is disconnected before installation or maintenance.

- Do not submerge the transformer or light fixtures in water.
- Use only with low-voltage landscape lighting systems.
- Avoid placing cables in areas where they may be cut or damaged.
- Consult a qualified electrician if you are unsure about any part of the installation.

## SETUP AND INSTALLATION

---

1. **Plan Your Layout:** Determine the desired locations for each path light. Ensure the 50 ft. cable is sufficient for your layout.
2. **Transformer Placement:** Mount the transformer in a dry, accessible location near a GFCI (Ground Fault Circuit Interrupter) protected outdoor outlet. Ensure it is protected from direct weather exposure.
3. **Lay Out Cable:** Unroll the landscape lighting cable and lay it along your planned path. Avoid sharp bends or kinks.
4. **Connect Lights:** Each path light has a connector. Attach these connectors to the main landscape lighting cable. Ensure a secure connection to prevent moisture ingress.
5. **Stake Lights:** Insert the ground stakes into the bottom of each path light. Firmly push the staked lights into the ground at your desired locations.
6. **Connect Cable to Transformer:** Connect the main landscape lighting cable to the low-voltage terminals on the transformer. Follow the transformer's specific wiring instructions for proper polarity.
7. **Power On:** Once all connections are secure and verified, plug the transformer into the GFCI protected outlet.

## OPERATING INSTRUCTIONS

---

The included transformer features a Dusk to Dawn sensor for automatic operation.

- **Automatic Operation:** The transformer will automatically turn the lights on at dusk and off at dawn. Ensure the sensor on the transformer is not obstructed by objects or debris.
- **Manual Override:** Refer to the transformer's specific manual for any manual override options, such as timer settings or manual on/off functions, if available.
- **Light Output:** The integrated LED lights provide a consistent light output. No bulb replacement is necessary.

## MAINTENANCE

---

Minimal maintenance is required for this LED landscape lighting kit.

- **Cleaning:** Periodically wipe down the light fixtures and transformer with a soft, damp cloth to remove dirt and debris. Do not use abrasive cleaners.
- **Cable Inspection:** Regularly inspect the landscape lighting cable for any signs of damage, such as cuts, fraying, or exposed wires. Repair or replace damaged sections immediately.
- **Sensor Check:** Ensure the Dusk to Dawn sensor on the transformer remains clean and unobstructed for proper automatic operation.
- **Connection Check:** Occasionally check all cable connections to ensure they remain secure and free from corrosion.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Lights do not turn on.	No power to transformer; Faulty connections; Obstructed sensor; Damaged cable/light.	Check outlet and GFCI; Verify all cable connections; Clear sensor; Inspect cable and lights for damage.
Lights flicker or are dim.	Loose connections; Insufficient power; Cable too long for gauge.	Tighten all connections; Ensure transformer is adequately powered; Consult specifications for cable length limits.
Lights stay on during the day.	Dusk to Dawn sensor is obstructed or dirty.	Clean the sensor; Ensure no objects are blocking light to the sensor.

## SPECIFICATIONS

- **Model Number:** 008938105804
- **Brand:** Hampton Bay
- **Light Type:** Integrated LED Path Light
- **Light Wattage:** 3 Watts per light (10-Watt equivalent)
- **Transformer:** 45-Watt, Dusk to Dawn
- **Cable:** 50 ft. 16 Gauge Landscape Lighting Cable
- **Lifespan:** Approximately 50,000 hours
- **Color:** Black
- **Dimensions (Product):** 5 x 5 x 19.09 inches (per light, approximate)
- **Weight (Product):** 7.45 Pounds (total kit)
- **Room Type:** Outdoor

## WARRANTY AND SUPPORT

This product is tested and certified to look and work like new. For specific warranty details and support, please refer to the documentation included with your purchase or contact Hampton Bay customer service.

For assistance with installation or troubleshooting, you may also visit the Hampton Bay website or contact their support line. Keep your purchase receipt for warranty claims.
