MAINTENANCE

Regular maintenance ensures optimal performance and longevity of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents, as these can damage the finish.
- **Blade Tightness:** Check blade screws periodically to ensure they are tight. Loose blades can cause wobbling and noise.
- **Light Kit:** The LED light kit is integrated and designed for long life. Do not attempt to replace individual LEDs.
- **Lubrication:** The motor is permanently lubricated and does not require additional oiling.
