# Menabo Boxy Transport Box User Manual

Model: MEN84600000

## INTRODUCTION

---

This manual provides essential instructions for the safe and efficient use of your Menabo Boxy 330L transport box. Designed to offer additional storage capacity, this box is compatible with specific Menabo bike racks. Please read these instructions carefully before installation and operation to ensure proper use and longevity of the product.

## INSTALLATION AND SETUP

---

The Menabo Boxy transport box is specifically designed for mounting on Menabo Race 3 or Project Tilting 3 bike racks. It is important to note that this box is **not suitable for double support systems**.

Image showing the Menabo Boxy transport box securely attached to a compatible bike rack at the rear of a vehicle. Ensure all mounting straps and clamps are tightened according to the bike rack's instructions.

### Mounting Steps:

1. Ensure your Menabo Race 3 or Project Tilting 3 bike rack is correctly and securely installed on your vehicle's tow bar or tailgate, following its specific instruction manual.
2. Carefully position the Menabo Boxy onto the designated platform of the bike rack.
3. Secure the transport box using the fastening mechanisms provided with your bike rack. Refer to your bike rack's manual for detailed attachment points and tightening procedures.
4. Before driving, verify that the box is stable, does not wobble, and all connections are firmly secured.

## OPERATION

---

### Loading the Box:

1. Unlock the box using the provided key.
2. Lift the lid to access the interior storage space.
3. Distribute items evenly inside the box. Ensure that the weight limit is not exceeded and all contents are secured to prevent shifting during transit, which could affect vehicle stability.
4. Close the lid firmly and turn the key to lock it, securing your belongings.

This image displays the interior of the Menabo Boxy transport box with its lid open, illustrating the available storage space and internal structure. Note the locking mechanism visible on the front edge.

## Accessing Contents While Mounted:

The Menabo Boxy is designed for convenient access. The lid can be opened even when the box is mounted on the vehicle, allowing for easy loading and unloading of items.

The Menabo Boxy transport box is shown open on the back of a car, demonstrating convenient access to its contents even when attached to the vehicle. This design facilitates loading and unloading.

## MAINTENANCE

---

### Cleaning:

- Clean the exterior and interior surfaces of the box with mild soap and water.
- Avoid using abrasive cleaners, harsh chemicals, or solvents, as these can damage the Acrylonitrile Butadiene Styrene (ABS) material.
- Rinse thoroughly with clean water and ensure the box is completely dry before closing or storing.

### Storage:

- When not in use, store the Menabo Boxy in a dry, cool place, away from direct sunlight.
- Ensure the box is empty and clean before storing to prevent odors or damage.

## TROUBLESHOOTING

## Box feels unstable after mounting:

Recheck all fastening points and ensure they are tightened according to the bike rack's instructions. Verify that the bike rack itself is securely attached to the vehicle's tow bar or tailgate. Ensure the weight inside the box is evenly distributed.

## Lid does not close or lock properly:

Ensure no items are obstructing the lid's closure. Check the locking mechanism for any debris or damage. A small amount of silicone-based lubricant can be applied to the lock if it feels stiff.

## Plastic cracking or damage:

Avoid overloading the box beyond its recommended capacity. Distribute weight evenly to prevent stress points. Inspect the box regularly for signs of wear or damage, especially after long journeys. Discontinue use if significant structural damage is observed to ensure safety.

## SPECIFICATIONS

Feature	Detail
Brand	MENABO
Model Number	MEN84600000
Volume	330 Litres
Dimensions (L x W x H)	120 x 66 x 55 cm
Item Weight	8 Kilograms
Material	Acrylonitrile Butadiene Styrene (ABS)
