

## Gillette txd

# Gillette5 Mens Razor Blade Refills Instruction Manual

## 1. PRODUCT OVERVIEW

The Gillette5 men's blade refills are engineered for a comfortable and close shave. Each refill features 5 blades for enhanced comfort compared to Sensor3 razors, and includes a Lubrastrip designed to facilitate smooth gliding across the skin. The innovative Front Pivot mechanism transfers pressure away from the blades, contributing to better skin comfort. Additionally, 15 Soft Microfins gently stretch the skin, preparing hairs for an optimal cut.

### Key Features:

- **5 Blades for Comfort:** Designed for a superior shaving experience.
- **Lubrication Strip:** Aids in smooth razor glide across the skin.
- **Front Pivot:** Reduces pressure on blades for improved skin comfort.
- **15 Soft Microfins:** Prepares skin and hair for an effective shave.
- **High Performance:** Delivers consistent, quality results.

## 2. SETUP AND BLADE REPLACEMENT

Replacing your Gillette5 razor blade is a simple process designed for convenience and hygiene. Ensure your razor handle is clean and dry before proceeding.

### Steps for Blade Replacement:

1. Locate the release button on your Gillette5 razor handle, typically found near the base of the blade cartridge.
2. Press the release button firmly to detach the used blade cartridge from the handle. Dispose of the used blade safely.
3. Take a new Gillette5 blade refill from its protective packaging.
4. Align the new blade cartridge with the razor handle. You will hear a click when it is securely attached.
5. Gently pull on the blade cartridge to ensure it is firmly seated on the handle before use.

For visual guidance, please refer to the "Product Overview Video" in the previous section, which demonstrates the blade replacement process.

### 3. OPERATING INSTRUCTIONS

---

For an optimal and comfortable shave with your Gillette5 razor blade refills, follow these guidelines:

#### Shaving Tips:

- **Prepare Your Skin:** For best results, shave after a warm shower or bath. This helps to soften your hair and open pores.
- **Apply Shaving Cream/Gel:** Apply a generous amount of Gillette shaving cream or gel to create a rich lather. This helps to lubricate the skin and further soften the hair, allowing the razor to glide smoothly.
- **Shave with Light Strokes:** Use light, gentle strokes. The Gillette5 blades are designed for efficiency, so excessive pressure is not necessary.
- **Rinse Blades Frequently:** Rinse the razor blades frequently under warm water during your shave to prevent clogging and maintain optimal performance.
- **Shave with and Against the Grain (Optional):** For a closer shave, you may shave against the grain after an initial pass with the grain. Be mindful of skin sensitivity.
- **Use the Precision Trimmer:** Utilize the precision trimmer on the back of the cartridge for accurate edging of sideburns, under the nose, or for shaping facial hair.
- **Rinse and Moisturize:** After shaving, rinse your face with cool water to close pores and apply an aftershave balm or moisturizer to soothe and hydrate your skin.

### 4. MAINTENANCE AND CARE

---

Proper maintenance of your Gillette5 razor blades will extend their lifespan and ensure consistent performance.

#### Care Instructions:

- **Rinse Thoroughly:** After each shave, rinse the razor head thoroughly under running water to remove all hair and shaving cream residue. Do not tap the razor against the sink, as this can damage the blades.
- **Air Dry:** Allow the razor to air dry completely after rinsing. Store it in a well-ventilated area to prevent moisture buildup, which can lead to corrosion.
- **Store Safely:** Keep blade refills in their original packaging until ready for use. Store the razor and refills in a dry place, away from direct sunlight and extreme temperatures.
- **Replace When Dull:** Replace the blade cartridge when you notice tugging, discomfort, or reduced shaving performance. The Lubrastrip fading to white is also an indicator that it's time for a new blade.

### 5. TROUBLESHOOTING

---

If you encounter any issues with your Gillette5 razor blade refills, consider the following common solutions:

#### Common Issues and Solutions:

- **Tugging or Discomfort During Shave:**
  - Ensure the blade is new and sharp. A dull blade is the most common cause of tugging.

- Re-apply shaving cream or gel to ensure adequate lubrication.
- Rinse the blade more frequently during your shave to clear any accumulated hair or product.
- **Skin Irritation or Razor Burn:**
  - Use a fresh blade.
  - Ensure your skin is well-hydrated and prepared before shaving.
  - Shave with lighter strokes and consider shaving with the grain first.
  - Apply a soothing aftershave balm post-shave.
- **Blade Not Attaching Securely:**
  - Verify that the blade cartridge is correctly aligned with the razor handle.
  - Ensure the release mechanism on the handle is not obstructed.
  - Check for any damage to either the cartridge or the handle's attachment point.

## 6. SPECIFICATIONS

Feature	Detail
Brand	Gillette
Model Number	txd
Number of Blades	5
Unit Count	12 Count
Recommended Uses	Shaving
Product Dimensions	3.82 x 6.38 x 1.85 inches; 0.32 ounces
