C CUSHION LAB Extra Dense Lumbar Pillow

INSTRUCTION MANUAL

Product Overview

The C CUSHION LAB Extra Dense Lumbar Pillow is designed to provide ergonomic multi-region firm back support, aiming to alleviate lower back pressure and optimize sitting posture. Crafted with proprietary Hyperfoam™ memory foam, it offers all-day comfort and support for various seating environments.

Figure 1: The C CUSHION LAB Extra Dense Lumbar Pillow in Grey. This image displays the overall shape and texture of the pillow, highlighting its ergonomic design.

Key Features

- **Designed by Physical Therapist:** Specially contoured to fit organically to relieve lower back pressure for office workers, drivers, or anyone who sits for long hours and experiences back pain.
- **USPTO Patented Multi-Region Back Support:** Provides firm sectional lower, mid, and upper mid-back support to jointly keep your back and spine in ideal posture, reducing strain on your back muscles.
- **All-Day Support with Proprietary Hyperfoam™:** Made with Hyperfoam, an extra dense, dynamically rebounding, proprietary memory foam for all-day support.
- **Breathable Cover with Adjustable Strap:** Features a breathable, hard-wearing polyester rayon cover that is removable and washable for lasting usage. The adjustable strap helps secure the pillow to a chair or doubles as a luggage strap.

- **Versatile Use:** Enjoy better back support and maximum back pain relief for your office computer chair, car or airplane seats, bed, sofa, and couch.

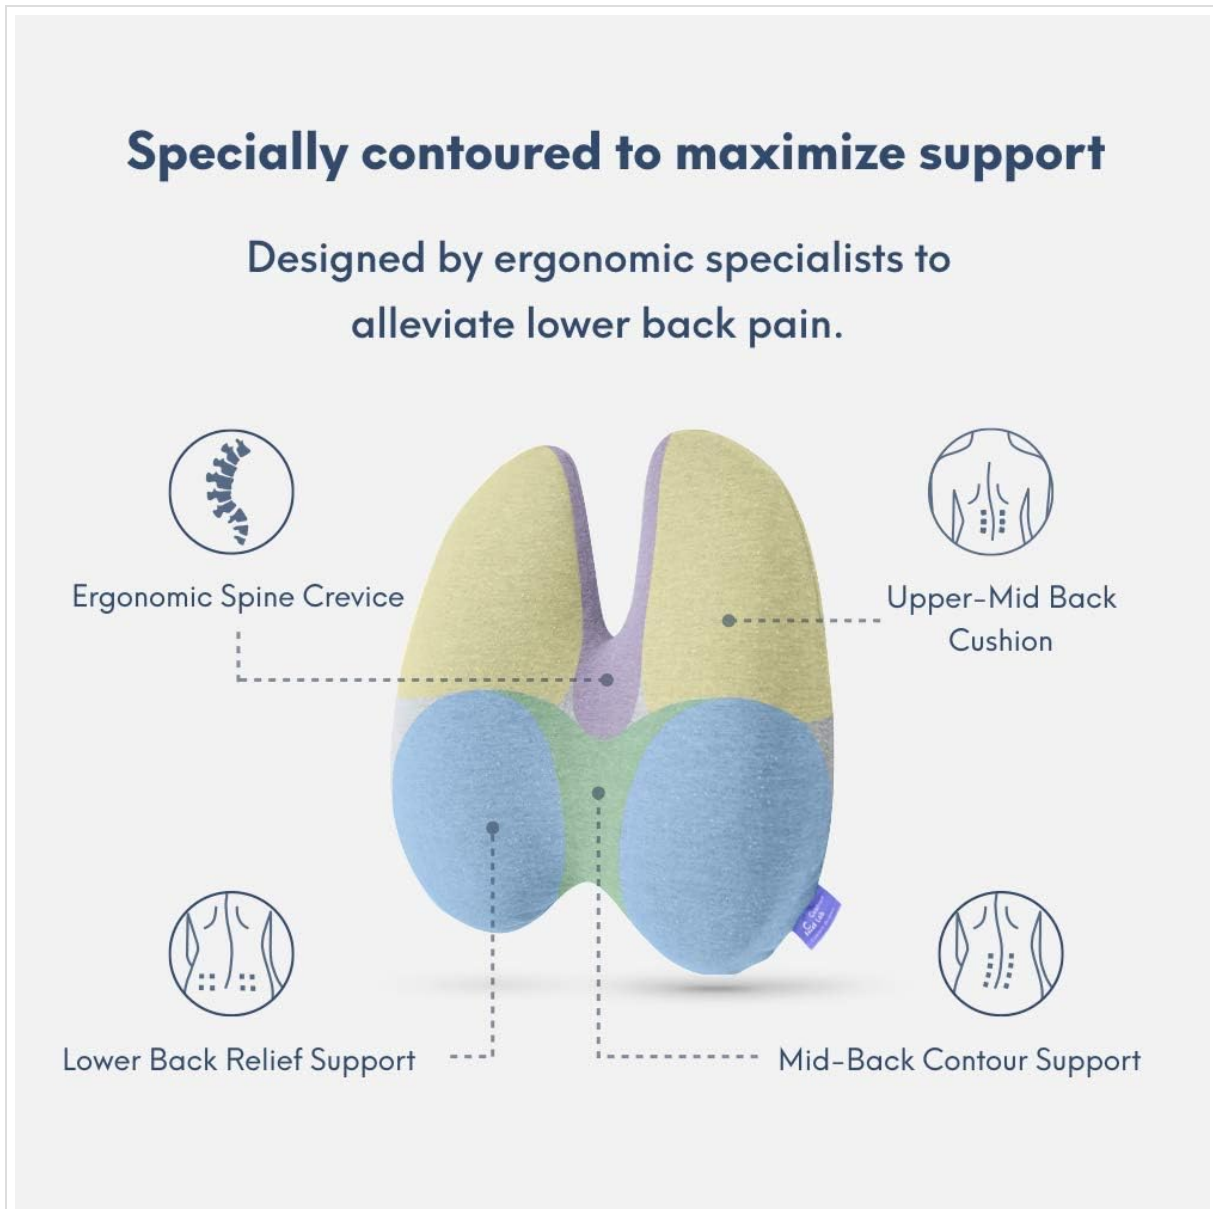

Figure 2: Diagram illustrating the specially contoured design for maximized support, including ergonomic spine crevice, lower back relief support, mid-back contour support, and upper-mid back cushion.

Setup and Installation

1. **Placement:** Position the lumbar pillow on any chair (office chair, car seat, sofa, bed) where you desire back support. Ensure the ergonomic spine crevice aligns with your spine for optimal comfort.
2. **Adjusting the Strap:** Locate the adjustable elastic strap on the back of the pillow. Wrap the strap around the backrest of your chair. Secure the buckle and adjust the strap's length to ensure the pillow is held firmly against the chair back at your desired height. The strap can also be used to attach the pillow to luggage for portability.

Elastic Adjustable Strap

Strap it down or take it to go

Chair Strap

Luggage Strap

Figure 3: The elastic adjustable strap can be used to secure the pillow to a chair or to luggage for easy transport.

Operating and Usage

Once the pillow is positioned and secured, simply lean back and allow the multi-region design to support your lower, mid, and upper mid-back. The Hyperfoam™ material will conform to your body's contours, providing personalized comfort and promoting a healthy posture throughout the day.

At the office

In the car

On the plane

Instant Back Support. Anywhere.

On the bed

On the sofa

Figure 4: The lumbar pillow provides instant back support anywhere, including office, car, plane, bed, and sofa.

Maintenance

The pillow features a removable and washable cover for easy cleaning and lasting usage. To clean the cover:

1. Locate the zipper on the pillow cover.
2. Carefully unzip and remove the cover from the foam core.
3. Machine wash the cover according to the care instructions on the label (typically cold water, gentle cycle).
4. Air dry or tumble dry on low heat. Do not bleach or iron.
5. Once dry, carefully place the cover back onto the foam core and zip it up.

The foam core itself should not be washed. If it becomes dirty, spot clean with a damp cloth and mild detergent, then allow it to air dry completely before replacing the cover.

Figure 5: This image shows the Hyperfoam™ core and the hypoallergenic, breathable, and robust elastic cover, highlighting its removable nature for maintenance.

Troubleshooting

If you encounter any issues with your C CUSHION LAB Extra Dense Lumbar Pillow, please consider the following:

- **Discomfort:** Ensure the pillow is positioned correctly, aligning the ergonomic spine crevice with your spine. Adjust the strap to find the optimal height and firmness for your back.
- **Pillow Slipping:** Tighten the adjustable strap to secure the pillow more firmly to your chair. Ensure the non-slip material on the back of the pillow is in full contact with the chair surface.
- **Odor:** A new memory foam product may have a slight odor upon unboxing. This is normal and harmless. Allow the pillow to air out in a well-ventilated area for 24-48 hours before use.

Specifications

Attribute	Detail
Brand	C CUSHION LAB
