Fricosmos 054202

Fricosmos 054202 Wall-Mounted Handwash and Sink Unit Instruction Manual

Model: 054202 | Brand: Fricosmos

INTRODUCTION

Thank you for choosing the Fricosmos 054202 Wall-Mounted Handwash and Sink Unit. This manual provides essential information for the safe installation, operation, and maintenance of your new stainless steel unit. Please read these instructions carefully before installation and keep them for future reference.

SAFETY INFORMATION

- Always ensure the unit is securely mounted to a suitable wall structure to prevent accidents.
- Installation should be performed by qualified personnel in accordance with local plumbing and building codes.
- Before connecting water lines, ensure the main water supply is turned off.
- Do not use abrasive cleaners or harsh chemicals that could damage the stainless steel finish.
- Keep children away from the installation area.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- 1 x Fricosmos 054202 Wall-Mounted Handwash and Sink Unit (Stainless Steel, 2 compartments, 800x500x258 mm)
- Drain valves
- Overflows
- Taps (with independent water intake)
- Mixer T for temperature regulation (integrated with push-button)

SETUP AND INSTALLATION

The Fricosmos 054202 unit is designed for wall-mounted, independent installation. Follow these steps for proper setup:

- Site Preparation:** Choose a suitable location on a sturdy wall capable of supporting the unit's weight (approximately 12 kg, plus water and contents). Ensure adequate space for the unit's dimensions (80 x 50 x 255 cm).
- Mounting:** Securely attach the unit to the wall using appropriate fasteners for your wall type. The unit features a 100 mm high back panel for wall protection and mounting.
- Water Connections:** Connect the hot and cold water supply lines to the taps. Each tap has an independent water intake. Ensure all connections are tight to prevent leaks.
- Drainage:** Install the provided drain valves and overflows. Connect the drainage system according to local plumbing regulations.
- Final Check:** Once all connections are made, slowly turn on the main water supply and check for any leaks.

OPERATING INSTRUCTIONS

The Fricosmos 054202 unit is designed for straightforward operation:

- Water Flow:** Operate the taps to control water flow to each basin.
- Temperature Regulation:** The push-button mechanism includes a mixer T, allowing you to regulate the water temperature by blending hot and cold water.
- Drainage:** The integrated drain valves and overflows ensure efficient water removal and prevent accidental spills.

MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and hygienic operation of your stainless steel unit:

- Daily Cleaning:** Wipe down all stainless steel surfaces with a soft cloth and mild soap or a specialized stainless steel cleaner. Rinse thoroughly with clean water and dry to prevent water spots.
- Avoid Abrasives:** Do not use abrasive sponges, steel wool, or harsh chemical cleaners, as these can scratch or damage the stainless steel finish.
- Drain Maintenance:** Periodically check and clean the drain valves and overflows to prevent blockages.
- Inspection:** Regularly inspect all connections for any signs of leaks or wear. Address any issues promptly.

TROUBLESHOOTING

If you encounter issues with your unit, refer to the following common troubleshooting tips:

- Low Water Pressure:** Check if the main water supply is fully open. Inspect water lines for kinks or blockages.
- Leaks:** Ensure all plumbing connections are securely tightened. If leaks persist, turn off the water supply and consult a qualified plumber.
- Drainage Issues:** Check for blockages in the drain valves or pipes. Clean out any debris.
- Temperature Control Problems:** Verify that both hot and cold water supplies are connected and functioning correctly.

SPECIFICATIONS

Feature	Specification
Brand	Fricosmos

Feature	Specification
Model Number	054202
Material	Stainless Steel
Product Dimensions (L x W x H)	80 x 50 x 255 cm
Weight	12 kg
Installation Method	Wall-Mounted, Independent
Number of Basins	2
Back Panel Height	100 mm
Finish	Brushed
Drain Type	Pop-up

WARRANTY AND SUPPORT
