

## Linq C-Q67

# LinQ Wireless Car Charger User Manual

Model: C-Q67

## INTRODUCTION

Thank you for purchasing the LinQ Wireless Car Charger. This device is designed to provide convenient and fast wireless charging for your Qi-enabled smartphone while driving. Please read this manual carefully before use to ensure proper installation and operation.

## PACKAGE CONTENTS

Please verify that all items are present in the package:

- LinQ Wireless Car Charger Unit
- Suction Cup Mount
- USB Charging Cable (Type-A to Micro-USB or Type-C, depending on model revision)
- User Manual (this document)

## SETUP

### 1. Attaching the Mount

Insert the ball joint of the suction cup mount into the socket on the back of the wireless charger unit. Tighten the collar nut to secure the charger in place. Ensure it is firmly attached.

Image: Rear and side views of the LinQ Wireless Car Charger, showing the attachment point for the suction cup mount.

## 2. Mounting in Vehicle

Choose a clean, flat surface on your dashboard or windshield. Press the suction cup firmly against the surface and push down the lever to create a vacuum seal. Adjust the angle of the charger for optimal viewing and accessibility.

Image: The LinQ Wireless Car Charger with its integrated suction cup mount, ready for installation in a vehicle.

### 3. Connecting Power

Connect the provided USB charging cable to the input port on the wireless charger. Plug the other end of the cable into a USB car charger adapter (not included) that is plugged into your vehicle's 12V power outlet. For fast charging, ensure your car charger adapter supports Quick Charge (QC 2.0/3.0) or Power Delivery (PD) and provides at least 10W output.

## OPERATING INSTRUCTIONS

### 1. Placing Your Phone

Gently open the adjustable arms of the charger. Place your Qi-enabled smartphone into the cradle, ensuring it rests securely on the bottom support. The arms will automatically or manually adjust to grip your phone. Ensure the phone's charging coil aligns with the charger's coil, typically in the center of the device.

### 2. Wireless Charging

Once your phone is correctly placed and the charger is powered, wireless charging will begin automatically. An

indicator light on the charger (if present) may illuminate to confirm charging status. Your phone's screen will also indicate that it is charging.

Image: An illustration demonstrating the fast wireless charging capability of the LinQ charger, showing a smartphone being charged.

### 3. Removing Your Phone

To remove your phone, gently press the release button (if applicable) or manually open the arms and lift your phone from the cradle.

## MAINTENANCE

- **Cleaning:** Disconnect the charger from power before cleaning. Use a soft, dry cloth to wipe the surface of the charger. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** When not in use for extended periods, store the charger in a cool, dry place away from direct sunlight and extreme temperatures.
- **Care:** Avoid dropping the device or subjecting it to strong impacts. Do not disassemble the charger, as this will

void the warranty and may cause damage.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
Phone not charging	Charger not powered; Phone not Qi-enabled; Phone misaligned; Phone case too thick; Foreign object between phone and charger.	Ensure charger is connected to power; Verify phone supports Qi wireless charging; Realign phone on charger; Remove phone case (if thicker than 4mm); Remove any metal objects or cards.
Slow charging	Car charger adapter insufficient; Phone not supporting fast wireless charging; Background apps consuming power.	Use a QC 2.0/3.0 or PD compatible car charger adapter (10W or higher); Ensure your phone supports fast wireless charging; Close unnecessary background applications.
Charger indicator light off	No power; Faulty cable/adaptor.	Check power connection; Try a different USB cable or car charger adapter.

## SPECIFICATIONS

**Brand:** Linq  
**Model:** C-Q67  
**Compatible Devices:** Mobile phones  
**Compatible Phone Models:** iPhone, Samsung (and other Qi-enabled devices)  
**Wireless Charging Standard:** Qi  
**Output Wattage:** 10 Watts (Max)  
**Additional Features:** Fast Charging  
**Connector Type:** Wireless (Input via USB cable)  
**Item Weight:** 260 grams  
**Package Dimensions:** 17.2 x 10 x 8 cm  
**Batteries Included:** No  
**Batteries Required:** No

## WARRANTY INFORMATION

LinQ products are manufactured to high quality standards. This product is covered by a limited warranty against defects in materials and workmanship from the date of original purchase. Please retain your proof of purchase for warranty claims. The warranty does not cover damage caused by misuse, accident, unauthorized modification, or normal wear and tear. For specific warranty terms and conditions, please refer to the documentation provided with your purchase or contact customer support.

## CUSTOMER SUPPORT

If you encounter any issues or have questions regarding your LinQ Wireless Car Charger that are not addressed in this manual, please contact LinQ customer support. For the most up-to-date contact information, please visit the official LinQ website or refer to the packaging of your product.

Online Support:

Please visit the LinQ official website for FAQs and support resources.

Email Support:

Refer to your product packaging or the official website for the customer service email address.
